Table of Contents

Executive Summary	ES-1
Purpose of the CRRRS.....	ES-1
Alternative CRRP Configurations	ES-1
Future Water Demands and Sources of Supply	ES-2
Construction and Operating Costs.....	ES-3
Economic Considerations	ES-5
Financial Considerations	ES-5
Environmental Considerations.....	ES-6
Conclusions	ES-7
Recommendations.....	ES-7
Next Steps	ES-7
 Chapter 1 – Introduction.....	 1-1
Purpose of the CRRRS.....	1-1
CRRRS Schedule	1-3
CRRRS Process and Report Organization	1-3
Acknowledgements	1-4
 Chapter 2 – Future Water Demands and Sources of Supply.....	 2-1
Introduction.....	2-1
Three-Phase Process Evaluation	2-1
Factors Affecting Project Configurations	2-2
Delivery Capacity	2-2
Diversion Locations.....	2-3
Existing Facilities.....	2-3
Delivery Areas.....	2-6
Integration with Local Water Supply Projects	2-7
Conveyance Corridors	2-8
Colorado Mainstem Basin.....	2-10
Basin Geography	2-10

Land Use and Resources	2-11
Water Resources	2-12
Gunnison River Basin	2-15
Basin Geography	2-15
Land Use and Resources	2-16
Water Resources	2-17
Yampa/White River Basins	2-19
Basin Geography	2-19
Land Use and Resources	2-20
Water Resources	2-21
Decision Support Systems and Geographic Information Systems	2-22
Chapter 3 – Overview of the Colorado Economy	3-1
Brief Overview of Colorado Economy	3-1
Population	3-1
Geographic Distribution	3-1
Employment	3-2
Income	3-3
Gross Sales and Numbers of Establishments	3-4
Retail Sales	3-4
Agriculture	3-4
Demand Projections	3-5
Water Demand Areas	3-5
Demand Projection Methodology	3-6
Population and Household Projections	3-6
Water Usage Patterns	3-8
CRRP Water Demand Projections	3-8
Need for CRRP Supply	3-9
Conclusion	3-9
Demand Bibliography	3-10
Alternatives to the CRRP	3-11
Chapter 4 – Institutional Setting	4-1
Overview of Colorado Water Law	4-1

Interstate River Compacts, U.S. Supreme Court Decrees and Interstate Agreements Affecting Colorado River Water Use	4-3
Federal Statutes, Policies and Regulations Affecting Water Supply	4-5
Endangered Species Act	4-7
Water Quality Standards and Salinity Control Act	4-9
Potentially Involved Agencies and Their Roles.....	4-11
Colorado Agencies	4-11
Interstate Agencies	4-13
Federal Agencies	4-13
Existing Water Project Funding Programs	4-14
Chapter 5 – Water Quality Issues and Treatment Options	5-1
Identification of Potential Water Treatment Levels	5-1
Water Quality Data Sources	5-1
Comparison of Water Quality and Potential Treatment Levels	5-2
No Treatment	5-4
Treatment Level 1 – Matching Finished Water Quality of Typical Front Range Municipal Systems	5-5
Treatment Level 2 – Matching Receiving Water Quality	5-5
Alternative Treatment Processes.....	5-5
Detailed Descriptions of the Treatment Alternatives.....	5-8
Ultrafiltration/Nanofiltration/UV (Alternative 1).....	5-8
Coagulation/Sedimentation/Lime Softening/Filtration/UV (Alternative 2)	5-8
Coagulation/Sedimentation/Filtration/Nanofiltration/UV (Alternative 3)	5-9
Lime Softening/Filtration/UV (Alternative 4)	5-10
Residuals Handling Issues	5-11
Residual Production – Quantity and Characterization	5-11
Residuals Disposal	5-13
Conceptual Treatment Plant Layouts	5-14
Performance and Operational Considerations.....	5-15
Conclusion.....	5-17
Chapter 6 – Construction and Operating Costs	6-1
Methodology	6-1

Diversion Facilities.....	6-1
Operational Storage	6-2
Water Treatment.....	6-2
Pipelines	6-5
Alignment Alternatives	6-5
Hydraulics	6-7
Pipeline Materials.....	6-7
Lining and Coating Systems.....	6-8
Pipe Shipping Costs.....	6-8
Appurtenances	6-9
Installation	6-9
Additional Installation Considerations	6-10
Pipeline Maintenance	6-10
Pumping Stations	6-11
Conceptual Layout	6-11
Construction Cost.....	6-11
Operation and Maintenance Costs.....	6-12
Tunnels.....	6-12
Data Collection and Review	6-12
Tunnel Configuration	6-13
Hydropower Facilities	6-17
Capital Cost vs. Capacity and Head.....	6-17
Operation and Maintenance Costs.....	6-18
Power Supply	6-18
Energy Purchases	6-18
Capacity Requirements.....	6-19
Transmission Line Requirements.....	6-20
Technical Feasibility and Cost.....	6-20
Power Supply Conclusions.....	6-21
Land and Easements.....	6-22
Ancillary Facilities	6-22
Sensitivity Analyses	6-22
Longer and Deeper Tunnels	6-23

Reductions in Pipeline Diameter	6-23
Additional Sensitivity Analyses.....	6-23
Cost Summary	6-24
Chapter 7 – Economic, Financial, and Environmental Considerations.....	7-1
Pipeline Alignments Used for More Detailed Evaluation.....	7-1
Northern Corridor	7-1
Central Corridor.....	7-1
Southern Corridor.....	7-1
Cost Summary	7-2
Economic Considerations	7-3
General Economic Benefits of the CRRP	7-3
Mixed Economic Effects of the CRRP	7-3
Economic Costs	7-3
Comparisons with Other Water Supply Alternatives.....	7-3
Financial Considerations	7-8
Methodology and Assumptions	7-8
Present Value Costs	7-9
Environmental Considerations.....	7-9
Endangered Species Act Compliance (Colorado River Fishes)	7-15
National Environmental Policy Act Compliance	7-24
Clean Water Act Compliance	7-25
Chapter 8 – Conclusions and Recommendations.....	8-1
Conclusions	8-1
Recommendations.....	8-2
Presentation of CRRRS Findings to Affected Parties.....	8-2
Variations in Layout of CRRP Structural Components	8-2
Methods to Enhance Economic and Financial Feasibility	8-2
Environmental Evaluation	8-3
Future Water Demands in the Three River Basins.....	8-3
Alternatives to CRRP	8-3
CRRP Implementation Issues.....	8-4
Comparison of the Alternatives to CRRP with the Need for the CRRP	8-4

Tailoring the CRRP to Compliment Other Projects	8-7
Main Factors Affecting CRRP Implementation	8-8
Staged Implementation of CRRP	8-9
Potential Enhancements to CRRP Layouts.....	8-10
Next Steps	8-10

Tables

Table ES-1: Cost Summary	ES-4
Table ES-2: Summary of Preliminary Financial Impact of CRRP, Assuming the Central Corridor by Delivery Scenarios.....	ES-3
Table ES-3: A Comparison of CRRP vs. Alternatives.....	ES-7

Acronyms and Abbreviations

<u>Abbreviation</u>	<u>Definition</u>
af	Acre-feet
AWWA	American Water Works Association
BEA	Bureau of Economic Analysis
BkWh	Billion kilowatt hours
BLM	Bureau of Land Management
BMP	Best Management Practices
C/S/F	Coagulation/Sedimentation/Filtration
CaCo ₃	Calcium Carbonate
CAP	Central Arizona Project
CDPHE	Colorado Department of Health and Environment
CDSS	Colorado's Decision Support Systems
CEQ	Council on Environmental Quality
cfs	Cubic feet per second
CRDSS	Colorado River Decision Support System
CREDA	Colorado River Energy Distributors Association
CRRP	Colorado River Return Project
CRRRS	Colorado River Return Reconnaissance Study
CRSP	Colorado River Storage Project
CT	Value Time

<u>Abbreviation</u>	<u>Definition</u>
CU	Consumptive Use
CWCB	Colorado Water Conservation Board
DBP	Disinfectant Byproduct
DNR	Department of Natural Resources
DOC	Dissolved Organic Carbon
DOLA	Department of Local Affairs
DWR	Department of Water Resources
EA	Environmental Assessment
EIS	Environmental Impact Statement
ESA	Endangered Species Act
EO	Executive Orders
FERC	Federal Energy Regulatory Commission
FONSI	Finding of No Significant Impact
FWCA	Fish and Wildlife Coordination Act
FWS	US Fish and Wildlife Service
GIS	Geographic Information System
gpd	Gallons Per Day
gpm	gallons per minute
HP	Horsepower
HUP	Historic Users Pool
IBWC	International Boundary and Water Commission
IF	Impact Factors
kgal	kilogallon
kV	kilovolt
kWh	Kilowatt hour
LS/F	Lime Softening, Filtration
Maf	Million acre feet
mg/L	Milligrams per Liter
mgd	Million gallons per day
mrem/yr	Millirems per year
MSL	Mean Sea Level
NAICS	North American Industry Classification System
NAWQA	National Water Quality Assessment Program
NCWCD	Northern Colorado Water Conservancy District
NEPA	National Environmental Policy Act
NF	Nanofiltration
NPS	National Park Service
NRA	National Recreation Area
NRCS	Natural Resources Conservation Service
NTU	Nephelometric Turbidity Units
PBO	Programmatic Biological Opinion

<u>Abbreviation</u>	<u>Definition</u>
pCi/L	Picocurie per Liter
PS	Point Score
psi	Pounds per Square Inch
RIPRAP	Recovery Implementation Plan Recovery Action Plan
RO	Reverse Osmosis
ROD	Record of Decision
SDC	Strategic Development Corridor
SDWA	Safe Drinking Water Act
SFTE	Single Family Tap-Equivalents
SIC	Standard Industrial Classification
SOC	Synthetic Organic Chemical
SWSI	Statewide Water Supply Initiative
TBM	Tunnel Boring Machine
TDS	Total Dissolved Solids
TOC	Total Organic Carbon
UF	Ultrafiltration
UPCO	Upper Colorado River Basin Study
USBR	United States Bureau of Reclamation
USEPA	United States Environmental Protection Agency
USGS	United States Geological Survey
UV	Ultra Violet
WAPA	Western Area Power Administration
WS	Weighted Scores
WTP	Water Treatment Plant
