

Colorado Basin Roundtable

Meeting Agenda

Oct. 5, 2009

Glenwood Springs Community Center

Glenwood Springs, CO

1-4 pm

1:00 Introductions

1:05 Reports

IBCC

CWCB

Energy/Water Demand Study Short Update

Nonconsumptive Committee

1:45 Update on Colorado River Basin Proposal

Eric Kuhn, General Manager, Colorado River District

2:15 Break

2:25 Consumptive Needs Review

Jacob Bornstein, CWCB staff liaison to CBRT

We plan to review our municipal and industrial (M&I) consumptive use needs, identified processes and projects (IPPs) and examine the portfolio-building tool the CWCB has developed for the Inter-Basin Compact Committee (IBCC) to identify ways to meet a water supply future. One assumption incorporated into the portfolio building is that 100k acre-feet would be developed for Front Range use out of the Colorado River. The river would also see West Slope development.
