

Summary

This is an application for ground water rights and approval of a plan for augmentation near Telluride in San Miguel County. Applicant is proposing to add several new wells as a source of supply for the subdivision. Out-of-priority depletions from the junior conditional wells will be replaced with consumptive use credits previously changed to augmentation attributable to the Carr & Waddle Ditch, or with releases of water for the Aldasoro Ponds. The Carr & Waddle Ditch and the Aldasoro Ponds were decreed for augmentation use in a previous water court case (4-90CW069) in which the Board secured terms and conditions to protect its instream flow water rights.

CWCB Appropriations

The CWCB holds the following instream flow water right that could be injured by this application.

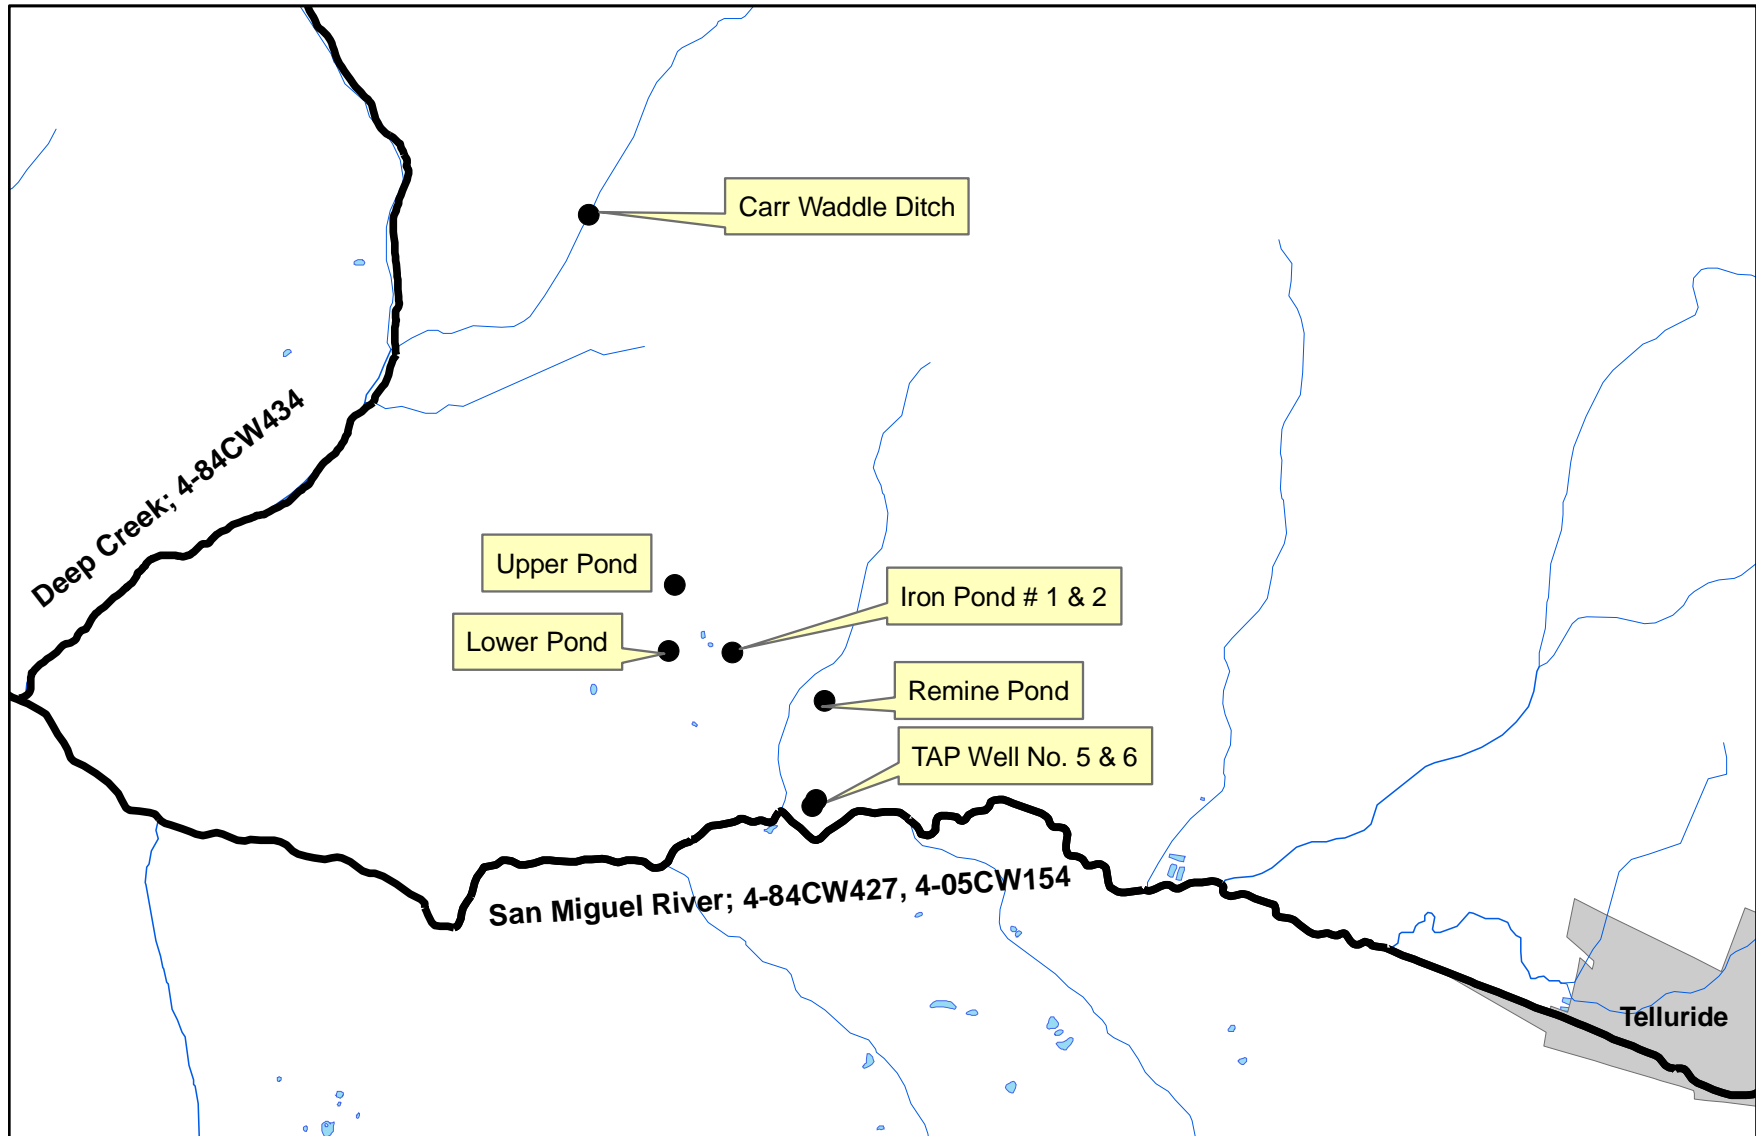

CWCB Case No.	Stream/Lake	Amount (cfs)	Approp. Date	Watershed	County
