Ben,

We are not close yet,... I expect that 50% will come in Sept or Oct. Is that alright?  
Do you need something more formal for your files?

Thanks for the update? Are you close to the 50% mark or will you get there after August?

Hey Ben,

You got it. In addition, the City has me on hold awaiting some summertime use data,... should be starting back full force in August.

Does that help?

\Tracy

Hey Tracy,

I'm checking in to see if you have completed the 50% progress report for Durango. I'm guessing that since the PO was cut in late December, the report may have been pushed back. Is that the case?

Thanks!

Hey Ben,

My bad. I need to get the City to give me some direction,... so I don't think that you ever got anything as per your request. Let me chase this down with Jack Rodgers and let you know before the end of the month. I hope to see him at the Water Congress, but will email him if I don't.

Just so you know, the City has delayed work on the grant until they get their Summer 2010 wter use data for the key large users (e.g., Ft. Lewis College) so we have not been doing anything for on the grant waiting for the new data to come in.

Thanks for your patience.

Hi Tracy,

I know you are busy but I was wondering if you could resend me the note/letter you wrote explaining the delay/change in schedule for Durango's conservation plan – I am not finding it in my inbox.

Thanks!

Ben,

Thanks for your patience.

I will get you a brief note on Durango shortly. I am also working on the Brighton Progress Report,.. so that will be to you by the end of the month.

Let me know if that will work.

Hi Tracy,

I know I bugged you about Durango's progress report and now I will bug about the 50% progress for Brighton. I'm sure the purchase order delayed the project a bit but are you guys at the half way point yet?

Thanks!
