Colorado Water Conservation Board  
1313 Sherman Street, Room 721  
Denver, CO 80203

Dear Todd:

The South Platte Basin roundtable underwent an evaluation and approval process of the Development of a Decision Support Model for Identifying and Ranking Waterfowl and Wildlife Related Recharge Projects along the South Platte River at our monthly meeting on July 13, 2010. The contracting agency for the project will be Ducks Unlimited, Inc. The roundtable evaluation included a review and discussion of the project, definition of the project scope and budget, identification of project beneficiaries, discussion of in kind services, and an overview of how this project meets future water supply needs of the South Platte Basin.

A motion was made and seconded to recommend approval to the Colorado Water Conservation Board for \$99,821 from the State wide account. A quorum of the roundtable unanimously approved the motion. Please call me with any questions that you may have regarding the South Platte Basin roundtable meeting or concerning our support for this project. You may also contact Greg Kernohan at Ducks Unlimited, Inc. with questions.

Respectfully submitted,

Jim Yahn, Chair  
South Platte Basin Roundtable
