CWCB Director

July 21, 2011

Mr. Michael E. Queen, President  
Consolidated Mutual Water Company  
12700 West 27<sup>th</sup> Ave  
Lakewood, CO 80215

Dear Mr. Queen:

Thank you for the revisions to Consolidated Mutual's water conservation plan. Consolidated Mutual is commended for your conservation efforts, especially your very comprehensive leak detection program. Additionally, the CWCB recognizes the unique circumstances of Consolidated Mutual's service area in that Consolidated Mutual has invested in water supply and storage facilities development ensuring abundant supplies through buildout.

Consolidated Mutual's Water Conservation Plan is approved with the following conditions:

- 1) Because the plan did not adequately explain how Consolidated Mutual will monitor and evaluate the selected conservation programs, Consolidated Mutual will not be eligible for water conservation grants or loans. An example of an acceptable monitoring and evaluation plan is attached for your reference. We would be happy to review any revisions to Consolidated Mutual's plan to address this issue.
- 2) Covered entities, such as Consolidated Mutual, are required to submit an updated water conservation plan every 7 years. While the CWCB is approving the current plan despite the deficiencies noted above, Consolidated Mutual must address these issues in future plans.

Thank you again for your revised water conservation plan and if you have questions feel free to call Veva Deheza at 303-866-3441 X 3226.

Sincerely,

Jennifer Gimbel  
CWCB Director
