

Summary

This is an application for a new surface water right for power generation on the Fryingpan River in Eagle County. Applicant is proposing to construct a small hydro-electric system which will divert 25 cfs from the Fryingpan River. Water diverted for power generation under this application will be fully consumptive to approximately 110 feet of the river.

CWCB Appropriations

The CWCB holds the following instream flow water right that could be injured by this application:

CWCB Case No.	Stream/Lake	Amount (cfs)	Approp. Date	Watershed	County
5-73W1945	Fryingpan River	110/39	7/12/1973	Roaring Fork	Pitkin Eagle

Potential for Injury

The potential year-round diversion of 25 cfs could injure the CWCB's instream flow water right by depleting flows between the point of diversion and the point of return flow to the Fryingpan River.

Other Objectors

Other objectors include the Pitkin County Commissioners.
