

Summary

The Applicant seeks alternate points of groundwater diversion for the White Water Well, and the Five Mile Pipeline. Applicant also seeks junior enlargement rights for the well and pipeline and a junior conditional storage right for the TRC pond. No augmentation plan is requested; however, a remark in the application states that out-of-priority depletions will be augmented pursuant to UGRWCD's plan for augmentation decreed in Case No. 03CW49 or if obtaining a contract is not feasible, that Applicant will file a separate plan of augmentation in water court.

CWCB Appropriations

The CWCB holds the following instream flow water rights that could be injured by this application:

CWCB Case No.	Stream/Lake	Amount (cfs)	Approp. Date	Watershed	County
4-82CW250	Fivemile Creek	1.0	6/3/1982	East-Taylor	Gunnison
4-87CW257	Taylor River	100/50	10/2/1987	East-Taylor	Gunnison
4-87CW264	Taylor River	200/80	10/2/1987	East-Taylor	Gunnison

Potential for Injury

The proposed change of water right could cause an expansion of use, which could injure the CWCB's instream flow water rights. Also before new groundwater rights are confirmed, applicant must show that it can replace of out-of-priority depletions in time, place and amount to protect the CWCB's instream flow water rights.

Other Objectors

No other objections were filed in this case.
