

The Gunnison Basin Roundtable
P. O. Box 544
Lake City, CO 81235

December 16, 2011

Mr. Todd Doherty
Intrastate Water Management and Development Section
COLORADO WATER CONSERVATION BOARD
1580 Logan Street, Suite 600
Denver, CO 80203

Re: Grant Request from the Water Supply Reserve Account
Colorado Mesa University for the Water Center at Colorado Mesa University for the Gunnison Basin
Roundtable Education Committee
Gunnison Basin Education Program

Dear Mr. Doherty:

This letter is presented to advise you that the grant application submitted by the Colorado Mesa University for the Water Center at Colorado Mesa University for the Gunnison Basin Roundtable Education Committee for \$19,750 from Basin Account funds from the Water Supply Reserve Account for the Gunnison Basin Education Program was reviewed by the Gunnison Basin Roundtable and its Project Screening Committee, recommended for approval by that committee, and approved by a unanimous vote of the Gunnison Basin Roundtable during our meeting on December 5, 2011.

This water activity meets the provisions of Section 37-75-104(2), Colorado Revised Statutes. The requirements/language from the statute is provided in Part 3 of the Criteria and Guidelines.

This activity furthers the Gunnison Basin Roundtable's ongoing basin-wide water needs assessment process by creating a mechanism for the roundtable to fulfill its obligation to actively seek the input and advice of local governments, water providers and other interested stakeholders and persons interested in establishing its needs assessment, and to serve as a forum for education and debate regarding methods for meeting water supply needs.

Sincerely,

Michelle Pierce
Chair

Cc: Tom Alvey (e-mail)

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Instructions

To receive funding from the Water Supply Reserve Account (WSRA), a proposed water activity must be approved by the local Basin Roundtable AND the Colorado Water Conservation Board (CWCB). The process for Basin Roundtable consideration/approval is outlined in Attachment 1.

Once approved by the local Basin Roundtable, the applicant should submit this application, a detailed statement of work, detailed project budget, and project schedule to the CWCB staff by the application deadline.

The application deadlines are:

- Basin Account – 60 calendar days prior to the bi-monthly Board meeting
- Statewide Account – 60 calendar days prior to the September Board meeting

Board Meeting Dates	Basin Account Deadlines	Statewide Account Deadlines
July 20-21, 2010	May 21, 2010	n/a
September 21-22	July 23, 2010	July 23, 2010
November 16-17	September 17, 2010	n/a
January 2011	60 days prior	n/a
March 2011	60 days prior	n/a
May 2011	60 days prior	n/a
July 2011	60 days prior	n/a
September 2011	60 days prior	60 days prior

When completing this application, the applicant should refer to the WSRA Criteria and Guidelines available at: <http://cwcb.state.co.us/TWMD>.

The application, statement of work, budget, and schedule must be submitted in electronic format (Microsoft Word or text-enabled PDF are preferred) and can be emailed or mailed on a disk to:

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Part A. - Description of the Applicant (Project Sponsor or Owner);

1.	Applicant Name(s):	Colorado Mesa University for the Water Center at Colorado Mesa University for the Gunnison Basin Roundtable Education Committee	
	Mailing address:	1100 North Ave. Grand Junction, CO 81501-3122	
	Taxpayer ID#:	84-6001656	Email address: aor@coloradomesa.edu
	Phone Numbers: Business:	970-248-1424	
	Home:		
	Fax:	970-248-1812	

2. Person to contact regarding this application if different from above:

Name:	Hannah Holm, hholm@coloradomesa.edu , 970-683-1133
Position/Title	Coordinator, Water Center at Colorado Mesa University

3. Eligible entities that may apply for grants from the WSRA include the following. What type of entity is the Applicant?

- ☒ Public (Government) – municipalities, enterprises, counties, and State of Colorado agencies. Federal agencies are encouraged to work with local entities and the local entity should be the grant recipient. Federal agencies are eligible, but only if they can make a compelling case for why a local partner cannot be the grant recipient.
- ☐ Public (Districts) – special, water and sanitation, conservancy, conservation, irrigation, or water activity enterprises.
- ☐ Private Incorporated – mutual ditch companies, homeowners associations, corporations.
- ☐ Private individuals, partnerships, and sole proprietors are eligible for funding from the Basin Accounts but not for funding from the Statewide Account.
- ☐ Non-governmental organizations – broadly defined as any organization that is not part of the government.

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

4. Provide a brief description of your organization

The Gunnison Basin Roundtable Education Committee is the sponsor of this grant request and has invited the Water Center at Colorado Mesa University to provide these coordination services in conjunction with oversight and participation by the members of the Gunnison Basin Roundtable Education committee.

The Water Center at Colorado Mesa University was formally inaugurated in May 2011 with the signing of a memorandum of understanding between the Mesa County Water Association, a 25-year-old water education non-profit, and Colorado Mesa University (previously known as Mesa State College). The mission of the Water Center is to perform and facilitate interdisciplinary and collaborative research, education, outreach and dialogue to provide citizens, scholars, and policy makers with the information they need to address the water challenges facing the Upper Colorado River Basin. The Water Center's Advisory Council includes people from a broad range of perspectives, geographic locations across the basin, and areas of expertise.

Water Center activities to educate current and future community leaders and the general public on water issues include publishing an e-newsletter, conducting presentations to community groups, organizing seminars and tours, and providing water education resources and training opportunities for K-12 teachers. Activities to promote and showcase research on water issues in the Upper Colorado Basin include organizing a one-day networking forum on October 31 for water experts from across disciplines to share recent research and project ideas. We will establish on-line forums for ongoing dialogue on the ideas raised at the forum, as well as seek funding to carry out new project ideas.

5. If the Contracting Entity is different then the Applicant (Project Sponsor or Owner) please describe the Contracting Entity here.

The contracting entity and the applicant are the same.

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

6. Successful applicants will have to execute a contract with the CWCB prior to beginning work on the portion of the project funded by the WSRA grant. In order to expedite the contracting process the CWCB has established a standard contract with provisions the applicant must adhere to. A copy of this standard contract is included in Attachment 3. Please review this contract and check the appropriate box.

☒ The Applicant will be able to contract with the CWCB using the Standard Contract

☐ The Applicant has reviewed the standard contract and has some questions/issues/concerns. Please be aware that any deviation from the standard contract could result in a significant delay between grant approval and the funds being available.

7. The Tax Payer Bill of Rights (TABOR) may limit the amount of grant money an entity can receive. Please describe any relevant TABOR issues that may affect the applicant.

The applicant will not be affected by any TABOR issues.

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Part B. - Description of the Water Activity

1. Name of the Water Activity/Project:

Gunnison Basin Roundtable Education Project

2. What is the purpose of this grant application? (Please check all that apply.)

☐

Environmental compliance and feasibility study

☐

Technical Assistance regarding permitting, feasibility studies, and environmental compliance

☒

Studies or analysis of structural, nonstructural, consumptive, nonconsumptive water needs, projects

Study or Analysis of:

☐

Structural project or activity

☒

Nonstructural project or activity

☒

Consumptive project or activity

☒

Nonconsumptive project or activity

☒

Structural and/ or nonstructural water project or activity

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

3. Please provide an overview/summary of the proposed water activity (no more than one page). Include a description of the overall water activity and specifically what the WSRA funding will be used for.

The Gunnison Basin Roundtable Education Program will work with Basin Roundtable members to fulfill the Basin Roundtable's statutory responsibilities to seek input from local stakeholders on its needs assessments and serve as a forum for education and debate regarding methods for meeting water supply needs.

This Program will operate in coordination with the Colorado Basin Roundtable Education Program, which has been endorsed by the Colorado Basin Roundtable. A WSRA grant for the Colorado Basin Roundtable Education Program has been submitted to the Colorado Water Conservation Board for review at its January 2012 meeting.

This program will reach out to media, local government and civic organizations across the Gunnison Basin in order to raise awareness and generate feedback about the Roundtable's needs assessments, studies and projects, as well as the Roundtable's role in statewide water planning. Outreach activities will include media commentaries, presentations to civic and government groups, an e-newsletter, website and social media.

The Water Center at Colorado Mesa University will coordinate this program with participation and support from the members of the Gunnison Basin Roundtable Education Committee. The program will result in broader public participation in policy debates about water and better public understanding of the trade-offs inherent in making water policy decisions, as well as the roles of the Basin Roundtables and IBCC in making these decisions.

The primary tasks will be to:

1. Create and publish an overview publication on the Gunnison Basin: *Gunnison Basin Water in the 21st Century*. (WSRA + Matching Funds)
2. Coordinate media stories prepared by Basin Roundtable members and stakeholders on a volunteer basis, as well as promote features prepared by media journalists with Roundtable input. (WSRA + Matching Funds)
3. Coordinate civic outreach by Basin Roundtable members and stakeholders within the basin, conducting presentations and listening sessions with 30-50 civic groups over two years, soliciting feedback through evaluations and maintaining contact with participants through an electronic newsletter. (WSRA + Matching Funds)
4. Organize water seminars and classes. (Matching Funds Only)
5. Prepare and analyze written Evaluation of programs and media. (WSRA + Matching Funds)
6. Reporting and Final Deliverable. (WSRA + Matching Funds)

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Part C. – Threshold and Evaluation Criteria

1. Describe how the water activity meets these **Threshold Criteria**. (Detailed in Part 3 of the Water Supply Reserve Account Criteria and Guidelines.)

- a) The water activity is consistent with Section 37-75-102 Colorado Revised Statutes.¹

This water activity is educational in nature. It does not affect in any way the current system of allocating water within Colorado, nor does it diminish, impair or cause injury to any property or contractual right created by intergovernmental agreements, contracts, stipulations, etc., nor does it impair or limit or otherwise affect any person or entities relating to the appropriation, movement or use of water.

- b) The water activity underwent an evaluation and approval process and was approved by the Basin Roundtable (BRT) and the application includes a description of the results of the BRT's evaluation and approval of the activity. At a minimum, the description must include the level of agreement reached by the roundtable, including any minority opinion(s) if there was not general agreement for the activity. The description must also include reasons why general agreement was not reached (if it was not), including who opposed the activity and why they opposed it. Note- If this information is included in the letter from the roundtable chair simply reference that letter.

Complete upon endorsement by the Roundtable.

- c) The water activity meets the provisions of Section 37-75-104(2), Colorado Revised Statutes.² The Basin Roundtable Chairs shall include in their approval letters for particular WSRA grant applications a

¹ 37-75-102. Water rights - protections. (1) It is the policy of the General Assembly that the current system of allocating water within Colorado shall not be superseded, abrogated, or otherwise impaired by this article. Nothing in this article shall be interpreted to repeal or in any manner amend the existing water rights adjudication system. The General Assembly affirms the state constitution's recognition of water rights as a private usufructuary property right, and this article is not intended to restrict the ability of the holder of a water right to use or to dispose of that water right in any manner permitted under Colorado law. (2) The General Assembly affirms the protections for contractual and property rights recognized by the contract and takings protections under the state constitution and related statutes. This article shall not be implemented in any way that would diminish, impair, or cause injury to any property or contractual right created by intergovernmental agreements, contracts, stipulations among parties to water cases, terms and conditions in water decrees, or any other similar document related to the allocation or use of water. This article shall not be construed to supersede, abrogate, or cause injury to vested water rights or decreed conditional water rights. The General Assembly affirms that this article does not impair, limit, or otherwise affect the rights of persons or entities to enter into agreements, contracts, or memoranda of understanding with other persons or entities relating to the appropriation, movement, or use of water under other provisions of law.

² 37-75-104 (2)(c). Using data and information from the Statewide Water Supply Initiative and other appropriate sources and in cooperation with the on-going Statewide Water Supply Initiative, develop a basin-wide consumptive and nonconsumptive water supply needs assessment, conduct an analysis of available unappropriated waters within the basin, and propose projects or methods, both structural and nonstructural, for meeting those needs and utilizing those unappropriated waters where appropriate. Basin Roundtables shall actively seek the input and advice of affected local governments, water providers, and other interested stakeholders and persons in establishing its needs assessment, and shall propose projects or methods for meeting those needs. Recommendations from this assessment shall be forwarded to the Interbasin Compact Committee and other basin roundtables for analysis and consideration after the General Assembly has approved the Interbasin Compact Charter.

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

description of how the water activity will assist in meeting the water supply needs identified in the basin roundtable's consumptive and/or non-consumptive needs assessments.

This activity furthers the Gunnison Basin Roundtable's ongoing basin-wide water needs assessment process by creating a mechanism for the roundtable to fulfill its obligation to actively seek the input and advice of local governments, water providers and other interested stakeholders and persons interested in establishing its needs assessment, and to serve as a forum for education and debate regarding methods for meeting water supply needs.

- d) Matching Requirement: For requests from the Statewide Fund, the applicants is required to demonstrate a 20 percent (or greater) match of the request from the Statewide Account. Sources of matching funds include but are not limited to Basin Funds, in-kind services, funding from other sources, and/or direct cash match. Past expenditures directly related to the project may be considered as matching funds if the expenditures occurred within 9 months of the date the application was submitted to the CWCB. Please describe the source(s) of matching funds. (NOTE: These matching funds should also be reflected in your Detailed Budget in Part D of this application)

Although not required, matching funds will be provided through a grant from the Walton Family Foundation and substantial in-kind services from Gunnison Basin Roundtable members and stakeholders, as well as the Water Center at Colorado Mesa University. By providing cash match as well as significant in-kind match from respected water providers, members of the Roundtable and related stakeholders, the Gunnison Basin Roundtable Education Plan will implement a collaborative water education program that will efficiently and effectively bring the activities of the IBCC and the Roundtables into the public arena, ensuring that our outreach efforts are complementary of one another and the CWCB and that they do not duplicate efforts.

2. For Applications that include a request for funds from the Statewide Account, describe how the water activity meets the **Evaluation Criteria**. (Detailed in Part 3 of the Water Supply Reserve Account Criteria and Guidelines.) NOT APPLICABLE

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Part D. – Required Supporting Material

1. Water Rights, Availability, and Sustainability

This information is needed to assess the viability of the water project or activity. Please provide a description of the water supply source to be utilized, or the water body to be affected by, the water activity. This should include a description of applicable water rights and the name/location of water bodies affected by the water activity.

No water supply source will be utilized, and no water body will be affected by this water activity. This project will not affect any water rights.

2. Please provide a brief narrative of any related or relevant previous studies.

For many years, organizations throughout the Gunnison Basin have provided water education to local government and civic groups. However, there has not been any systematic link between these efforts and the work of the Gunnison Basin Roundtable to ensure that local government and civic leaders and other stakeholders are kept apprised of the Roundtable's work and their opportunity to comment on it.

This education program will focus attention on the many studies, assessments and water projects that have recently been completed by the Roundtables, IBCC and the CWCB, as well as ongoing deliberations and projects carried out by the Gunnison Basin Roundtable. This program includes a feedback mechanism to ensure that the Roundtable is meeting its obligations under the enabling legislation. These strategies will use our Roundtable members' resources most efficiently and will ensure our stakeholders are not duplicating water education efforts. By having a single point of coordination for the Basin, we will endeavor to ensure that common, cohesive water education information is presented across the basin.

In developing the overview publication *Gunnison Basin Water in the 21st Century*, we will provide a common platform for citizens across the basin to become engaged in the important water supply issues facing the State. We also intend to use materials developed by the Colorado Foundation for Water Education through the "Water Fluency" project, the Gunnison Basin Roundtable outreach committee (which speaks to other Roundtables), the IBCC's Public Education, Participation and Public Outreach (PEPO) Committee, and the Water 2012 Speakers Bureau Committee. Wherever possible, we will avoid creating new materials that duplicate existing resources, instead working to ensure that existing quality materials get the broadest possible audience.

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

3. Statement of Work, Detailed Budget, and Project Schedule

The statement of work will form the basis for the contract between the Applicant and the State of Colorado. In short, the Applicant is agreeing to undertake the work for the compensation outlined in the statement of work and budget, and in return, the State of Colorado is receiving the deliverables/products specified. Please note that costs incurred prior to execution of a contract or purchase order are not subject to reimbursement.

Please provide a detailed statement of work using the following template. Additional sections or modifications may be included as necessary. Please define all acronyms. If a grant is awarded an independent statement of work document will be required with correct page numbers.

Statement of Work

WATER ACTIVITY NAME – Gunnison Basin Roundtable Education Project

GRANT RECIPIENT – Colorado Mesa University for the Water Center at Colorado Mesa University under the guidance of the Gunnison Basin Roundtable Education Committee

FUNDING SOURCE – Water Supply Reserve Account – Gunnison Basin Funds

INTRODUCTION AND BACKGROUND

Provide a brief description of the project. (Please limit to no more than 200 words; this will be used to inform reviewers and the public about your proposal)

The Gunnison Basin Roundtable Education Program will work with Basin Roundtable members to fulfill the Basin Roundtable's statutory responsibilities to seek input from local stakeholders on its needs assessments and serve as a forum for education and debate regarding methods for meeting water supply needs.

This Program will be coordinated with the Colorado Basin Roundtable Education Program, which has been endorsed by the Colorado Basin Roundtable. The Gunnison Basin Roundtable Education Program will reach out to media, local government and civic organizations across the Gunnison Basin in order to raise awareness and generate feedback about the Roundtable's needs assessments, studies and projects, as well as the Roundtable's role in statewide water planning. Activities will include media commentaries, presentations to civic and government groups, an e-newsletter, website and social media.

The Water Center at Colorado Mesa University will coordinate this program with active participation and support from the members of the Gunnison Basin Roundtable Education Committee and Basin Roundtable Members. The program will result in broader public participation in policy debates about water and better public understanding of the trade-offs inherent in making water policy decisions and the activities and discussions of the Basin Roundtables and IBCC in these decisions.

OBJECTIVES

List the objectives of the project

1. Develop and distribute at least 20,000 copies of a new overview publication on the Gunnison Basin: *Gunnison Basin Water in the 21st Century*.
2. Significantly increase media coverage of Basin Roundtable activities and the trade-offs

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

involved in different approaches to meeting the state's water supply needs.

3. Enlarge and diversify the community of people within the Colorado Basin who follow and comment on Basin Roundtable activities and statewide water planning efforts.
4. Increase public understanding of the trade-offs involved in different approaches to meeting the state's water supply needs.
5. Continuously improve outreach activities through rigorous, ongoing evaluation.
6. Maintain accountability through completing all required reporting tasks.

TASKS

Provide a detailed description of each task using the following format

TASK 1 – Create and publish an overview publication on the Gunnison Basin: Gunnison Basin Water in the 21st Century.

Description of Task

Gunnison Basin Education Committee Chair George Sibley will work with the Education Committee and the Water Center at Colorado Mesa University to coordinate production, editing and printing of this publication.

The publication will be approximately 24 pages long and will be printed in color in hi-brite newsprint. The content will summarize and make intelligible for the lay person the following:

- Background on the Basin Roundtable and the process it is part of.
- Gunnison Basin water supply and the organizations that manage it.
- The link between health and management of Forest Service lands and Gunnison Basin water supplies.
- Information about potential future growth of population and water demand, for the Gunnison Basin and the state.
- Overview of plans/ strategies for addressing Gunnison Basin demand growth.
- Overview of Gunnison Basin's potential role in addressing the state demand growth.
- Analysis of larger Colorado River Basin river issues, what might happen in a "compact curtailment," risk associated with further development of West Slope waters, et cetera.

Method/Procedure

Articles will be written by a combination of volunteer and professional writers, professionally edited, and will be distributed via a combination of the outreach activities described below and as an insert in Gunnison Basin newspapers.

Deliverable

The publication and distribution of at least 20,000 copies of the overview publication.

TASK 2 – Coordinate Media Stories

Description of Task

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Water Center staff and the Gunnison Basin Roundtable Education Committee will identify story topics and volunteer writers to write articles on the Gunnison Basin Roundtable's work and local water challenges, linking these local issues to broader water challenges facing the state and the Colorado River Basin as a whole. Water Center staff will work to place the articles in local media outlets, as well as coordinate meetings between roundtable members and the editorial staff and writers at news outlets and roundtable members to promote feature stories related to the Roundtable's work.

Method/Procedure

To achieve this, Water Center staff will:

- A. Hold quarterly meetings with Roundtable Education Committee to outline the content articles should cover and identify volunteer writers. Topics will include:
 - a. The origins and purposes of the Basin Roundtables (in layman's terms).
 - b. The Gunnison Basin Roundtable's consumptive and nonconsumptive needs assessments.
 - c. Roundtable-supported studies.
 - d. The Statewide Water Supply Initiative report.
 - e. "Bricks and Mortar" projects supported by the Roundtable, including the Hartland Diversion Dam removal and stabilization and improvements to agricultural weather data delivery to Uncompahgre Valley irrigators.
 - f. The trade-offs involved in different approaches to adjusting the "four-legged stool" (new supplies, conservation, agriculture-to-urban transfers and identified projects & processes) to meet the state's anticipated gap in meeting municipal and industrial water needs, as demonstrated by the portfolio tool developed by the Colorado Water Conservation Board.
 - g. Local water supply challenges.
 - h. Updates on Basin Roundtable discussions and activities.
- B. Reach out to media outlets to promote the placement of regular columns supplied by the Roundtable and the coverage of water issues by staff writers.
- C. Schedule the articles.
- D. Insert a tagline to go with each article that links the particular topic to the bigger picture of Colorado water.
- E. Work with writers to ensure that all articles are submitted in a timely fashion.
- F. Coordinate review of articles by Gunnison Basin Roundtable members prior to publication in order to ensure appropriate balance, accuracy and readability.
- G. Preserve archive of articles on the web that other organizations can link to and distribute in their own e-newsletters or news blasts.

Deliverable

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

This project will achieve and document the placement of at least 50 700-word media stories, or an equivalent content in longer stories, related to the Roundtable's work and statewide water planning. This will include both articles written by Roundtable members and volunteers and articles produced by journalists at media outlets as a result of this program's outreach to editors and journalists.

TASK 3 – Coordinate civic outreach in the basin.

Description of Task

Water Center staff will work with the Gunnison Basin Roundtable Education Committee and other members of the Gunnison Basin Roundtable to coordinate presentations and listening sessions with civic and local government groups over two years and maintaining contact through an electronic newsletter.

Method/Procedure

This task will involve the following components:

- A. Establish core messages and resources** with the guidance of the Roundtable Education Committee. The Committee has already identified the following central topics and resources, but more work is needed to refine the messages and further develop some materials:
- a. The potential impacts of different strategies, and roles for the Gunnison Basin, in meeting the state's anticipated shortfall in meeting municipal and industrial (M&I) water needs by 2050, as demonstrated by the portfolio tool developed by the Colorado Water Conservation Board. In consultation with the committee, Water Center staff will seek out and develop presentation materials to communicate this material to a non-specialist audience.
 - b. The complexity of the Gunnison River Basin: who relies on it, the importance of adequate flows to river and riparian health, water quality, and how the river is managed. These themes will be covered in the Gunnison Basin publication described above.
 - c. Basin Roundtable projects: Water Center staff will develop summary material to show what the Roundtable has accomplished through grants it has supported.
 - d. We will use the traveling exhibit developed by the Colorado Water 2012 initiative, a state-wide celebration of water. The traveling exhibit has one side that will be standard across the state; the other side can be customized. This exhibit will be a valuable outreach tool to reach people outside the water community. The committee will develop materials for the customizable side, which will include basic facts about the Gunnison Basin and the work of the Roundtable.
- B. Create a detailed outreach plan that covers each major section of the basin** (Upper Gunnison Basin, North Fork Valley, Surface Creek Valley, Uncompahgre Valley, and Lower Gunnison Valley) with a goal of 3-6 presentations/ year in each area, as well as an

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

appearance by the Water 2012 traveling exhibit. To develop the plan, Water Center staff will work with Basin Roundtable members to identify the following for each section of the basin:

- a. Key audiences that need to be reached, including planners, tourism boards, watershed groups, water districts, local governments, chambers of commerce and civic groups.
- b. The “hooks” that will interest these audiences in the Basin Roundtable’s work and the other topics identified above.
- c. Opportunities for outreach: scheduled meetings, conferences, etc.
- d. Local speakers who can do presentations.
- e. Venues that will host the Water 2012 exhibit.

C. Implement the plan. Water Center staff will schedule presentations and exhibits and follow through to ensure that they are carried out. At each event, email addresses will be collected in order to sustain contact with people reached through the e-newsletter described below.

D. Collect and report on feedback from the community. At each presentation, the presenter will collect feedback on the substance of the discussion, evaluation forms, and email addresses to add to a master contact list for a basin-wide e-newsletter. This information will be gathered and processed by Water Center staff, who will summarize this feedback for the roundtable at six month intervals.

E. Sustain electronic communication. Water Center staff will sustain contact with individuals reached through government and civic presentations by writing and distributing a monthly e-newsletter and developing a social media presence, as well as enhancing the Water Center website’s value as an entry point for people seeking additional information on water issues. The e-newsletter and social media postings will track and report on activity by the Gunnison Basin Roundtable, other roundtables, the Colorado Water Conservation Board, the Inter-Basin Compact Committee, and the Colorado General Assembly, and the Water 2012 initiative, as well as relevant scientific news gleaned from news reports and water conferences and information on upcoming meetings and events. This e-newsletter will also be distributed throughout the Colorado Basin through the Colorado Basin Roundtable Education Program.

Deliverables

1. Civic presentations in each of the five sub-areas of the Gunnison Basin the basin over two years, with a target of at least 30 overall.
2. At least 3 appearances of the Water 2012 traveling exhibit.
3. At least twenty editions of the electronic newsletter over two years.
4. Four reports on community feedback.

TASK 4 – Organize and publicize water seminars and classes.

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Description of Task

In 2012 and 2013, partners in the Gunnison Basin Roundtable will continue longstanding traditions of organizing seminars such as the annual “Gunnison State of the River” seminar, which have in the past and will continue to serve as valuable opportunities to education the public on issues addressed by the Gunnison Basin Roundtable.

Method/Procedure

- A. The Colorado River District will coordinate, and the Gunnison Basin Roundtable will host, the annual “State of the River” evening seminars. This event updates citizens on the state of the snowpack and reservoir operations and current water policy issues.
- B. The Water Center, through the e-newsletter described above and contacts with the media, will help publicize this event and those of other organizations, including watershed groups and water conservancy districts.

Deliverable

Direct contact with at least 100 people through these events, as documented via registrations and sign-in sheets. Electronic contact with participants will be maintained via the electronic communication tools developed in Task 3.

TASK 4 – Evaluation.

Description of Task

Water Center staff will seek to continuously improve the Gunnison Basin Roundtable Education Program through rigorous, ongoing evaluation.

Method/ Procedure

Evaluation of the impact of this program will occur at several levels, designed to ensure that we are meeting our volume targets for public contact and that we are increasing the knowledge and understanding of those we contact:

- A. We will consistently track the numbers set out in our planned deliverables to ensure that we are on track for meeting our commitments.
- B. We will track comments to articles distributed through media outlets and posted electronically on the Water Center website, as well as more interactive media, such as Facebook and Linked-In.
- C. At each civic presentation, the presenter will distribute and collect:
 - a. Short pre- and post- quizzes (anonymous).
 - b. Evaluation forms assessing how the participants liked the program and the impact it had on their thinking about water issues.
- D. We will periodically survey newsletter recipients on how well they like the service and its impact on how they think about water issues and water policy.

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Deliverable

Water Center staff will process this information and prepare reports to the Basin Roundtable and the CWCB every 6 months.

REPORTING AND FINAL DELIVERABLE

Reporting: The applicant shall provide the CWCB a progress report every 6 months, beginning from the date of the executed contract. The progress report shall describe the completion or partial completion of the tasks identified in the statement of work including a description of any major issues that have occurred and any corrective action taken to address these issues.

Final Deliverable: At completion of the project, the applicant shall provide the CWCB a final report that summarizes the project and documents how the project was completed. This report may contain photographs, summaries of meetings and engineering reports/designs.

BUDGET

Provide a detailed budget by task including number of hours and rates for labor and unit costs for other direct costs (i.e. mileage, \$/unit of material for construction, etc.). A detailed and perfectly balanced budget that shows all costs is required for the State's contracting and purchase order processes. Sample budget tables are provided below. Please note that these budget tables are examples and will need to be adapted to fit each individual application. Tasks should correspond to the tasks described above.

SEE ATTACHED EXCEL SPREADSHEETS

SCHEDULE

Provide a project schedule including key milestones for each task and the completion dates or time period from the Notice to Proceed (NTP). This dating method allows flexibility in the event of potential delays from the procurement process. Sample schedules are provided below. Please note that these schedules are examples and will need to be adapted to fit each individual application.

Gunnison Basin Roundtable Education Plan Schedule

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Task	First Year				Second Year			
	1 st Qtr	2 nd Qtr	3 rd Qtr	4 th Qtr	1 st Qtr	2 nd Qtr	3 rd Qtr	4 th Qtr
Task 1 Create and publish overview publication.								
Task 2 Coordinate media stories.								
Task 3A Establish core messages + resources.								
Task 3B Create detailed outreach plan for six areas.								
Task 3C&D Implement plan & collect feedback.								
Task 3E Sustain electronic contact.								
Task 4 Organize & publicize water events.								
Task 5 Evaluation								
Task 6 Reporting & final deliverable.								

PAYMENT

Payment will be made based on actual expenditures and invoicing by the applicant. Invoices from any other entity (i.e. subcontractors) cannot be processed by the State. The request for payment must include a description of the work accomplished by major task, and estimate of the percent completion for individual tasks and the entire water activity in relation to the percentage of budget spent, identification of any major issues and proposed or implemented corrective actions. The last 5 percent of the entire water activity budget will be withheld until final project/water activity documentation is completed. All products, data and information

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

developed as a result of this grant must be provided to the CWCB in hard copy and electronic format as part of the project documentation. This information will in turn be made widely available to Basin Roundtables and the general public and help promote the development of a common technical platform.

The above statements are true to the best of my knowledge:

Signature of Applicant:

Attachment 2
Insurance Requirements

NOTE: The following insurance requirements taken from the standard contract apply to WSRA projects that exceed \$25,000 in accordance with the policies of the State Controller's Office. Proof of insurance as stated below is necessary prior to the execution of a contract.

13. INSURANCE

Grantee and its Sub-grantees shall obtain and maintain insurance as specified in this section at all times during the term of this Grant: All policies evidencing the insurance coverage required hereunder shall be issued by insurance companies satisfactory to Grantee and the State.

A. Grantee

i. Public Entities

If Grantee is a "public entity" within the meaning of the Colorado Governmental Immunity Act, CRS §24-10-101, et seq., as amended (the "GIA"), then Grantee shall maintain at all times during the term of this Grant such liability insurance, by commercial policy or self-insurance, as is necessary to meet its liabilities under the GIA. Grantee shall show proof of such insurance satisfactory to the State, if requested by the State. Grantee shall require each Grant with Sub-grantees that are public entities, providing Goods or Services hereunder, to include the insurance requirements necessary to meet Sub-grantee's liabilities under the GIA.

ii. Non-Public Entities

If Grantee is not a "public entity" within the meaning of the GIA, Grantee shall obtain and maintain during the term of this Grant insurance coverage and policies meeting the same requirements set forth in §13(B) with respect to sub-Grantees that are not "public entities".

B. Sub-Grantees

Grantee shall require each Grant with Sub-grantees, other than those that are public entities, providing Goods or Services in connection with this Grant, to include insurance requirements substantially similar to the following:

i. Worker's Compensation

Worker's Compensation Insurance as required by State statute, and Employer's Liability Insurance covering all of Grantee and Sub-grantee employees acting within the course and scope of their employment.

ii. General Liability

Commercial General Liability Insurance written on ISO occurrence form CG 00 01 10/93 or equivalent, covering premises operations, fire damage, independent Grantees, products and completed operations, blanket Grantual liability, personal injury, and advertising liability with minimum limits as follows:

(a) \$1,000,000 each occurrence; **(b)** \$1,000,000 general aggregate; **(c)** \$1,000,000 products and completed operations aggregate; and **(d)** \$50,000 any one fire. If any aggregate limit is reduced below \$1,000,000 because of claims made or paid, Sub-grantee shall immediately obtain additional insurance to restore the full aggregate limit and furnish to Grantee a certificate or other document satisfactory to Grantee showing compliance with this provision.

iii. Automobile Liability

Automobile Liability Insurance covering any auto (including owned, hired and non-owned autos) with a minimum limit of \$1,000,000 each accident combined single limit.

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

iv. Additional Insured

Grantee and the State shall be named as additional insured on the Commercial General Liability and Automobile Liability Insurance policies (leases and construction Grants require additional insured coverage for completed operations on endorsements CG 2010 11/85, CG 2037, or equivalent).

v. Primacy of Coverage

Coverage required of Grantee and Sub-grantees shall be primary over any insurance or self-insurance program carried by Grantee or the State.

vi. Cancellation

The above insurance policies shall include provisions preventing cancellation or non-renewal without at least 45 days prior notice to the Grantee and the State by certified mail.

vii. Subrogation Waiver

All insurance policies in any way related to this Grant and secured and maintained by Grantee or its Sub-grantees as required herein shall include clauses stating that each carrier shall waive all rights of recovery, under subrogation or otherwise, against Grantee or the State, its agencies, institutions, organizations, officers, agents, employees, and volunteers.

C. Certificates

Grantee and all Sub-grantees shall provide certificates showing insurance coverage required hereunder to the State within seven business days of the Effective Date of this Grant. No later than 15 days prior to the expiration date of any such coverage, Grantee and each Sub-grantee shall deliver to the State or Grantee certificates of insurance evidencing renewals thereof. In addition, upon request by the State at any other time during the term of this Grant or any sub-grant, Grantee and each Sub-grantee shall, within 10 days of such request, supply to the State evidence satisfactory to the State of compliance with the provisions of this §13.

Water Supply Reserve Account – Grant Application Form

Form Revised March 2009

Attachment 3

Water Supply Reserve Account Standard Contract

NOTE: The following contract is required for WSRA projects that exceed \$100,000. (Projects under this amount will normally be funded through a purchase order process.) Applicants are encouraged to review the standard contract to understand the terms and conditions required by the State in the event a WSRA grant is awarded. Significant changes to the standard contract require approval of the State Controller's Office and often prolong the contracting process.

It should also be noted that grant funds to be used for the purchase of real property (e.g. water rights, land, conservation easements, etc.) will require additional review and approval. In such cases applicants should expect the grant contracting process to take approximately 3 to 6 months from the date of CWCB approval.

Attachment 4
W-9 Form

NOTE: A completed W-9 form is required for all WSRA projects prior execution of a contract or purchase order. Please submit this form with the completed application.
