**Stream and Lake Protection – Uncontested 2011 Instream Flow**  
**Appropriations**

### Summary

At its January 25, 2011 meeting, the CWCB formed its intent to appropriate instream flow ("ISF") water rights on 8 new stream segments in Water Divisions 2, 4, and 5. Seven of the 8 segments were uncontested and are ready for final Board action pursuant to Rule 5h of the Instream Flow and Natural Lake Level Rules ("ISF Rules").

### Staff Recommendation

Staff requests that the Board make the following determinations and take the following actions on each of the appropriations, based on the information contained in this memo as well as the information presented by staff both in writing and orally at the January 25, 2011 Board meeting.

(1) Determine, pursuant to section 37-92-102(3), C.R.S., and based upon the recommendations of the Colorado Division of Wildlife (CDOW), Trout Unlimited (TU) and/or the United States Forest Service (USFS), a review of the data and other information presented by Staff, in this memo and orally, that:

- (a) There is a natural environment that can be preserved to a reasonable degree with the recommended water rights, if granted;
- (b) Water is available in each stream for appropriation;
- (c) The natural environment will be preserved to a reasonable degree by the water available for the recommended appropriations; and
- (d) Such natural environment can exist without material injury to water rights.

(2) Pursuant to ISF Rule 5f., establish January 25, 2011 as the appropriation date for these instream flow water rights.

(3) Direct staff to request the Attorney General's Office to file the necessary water rights applications.

## Discussion

On January 25, 2011, the CWCB formed its intent to appropriate ISF water rights on 8 stream segments. Seven of the segments, shown in the table below, are being recommended by staff for final action. The CDOW, TU, and/or the USFS recommended these streams for inclusion into the CWCB's Instream Flow and Natural Lake Level Program. On March 31, 2011, Montrose County and the Farmers Water Development Company filed a Notice to Contest the San Miguel River appropriation. As a result, the San Miguel River appropriation will be addressed in the coming months pursuant to the procedural rules for contested ISF appropriations as outlined in ISF Rules 5j.—5q. Pursuant to ISF Rule 5h., the remaining 7 stream segments, which were not contested, are being recommended to the Board for Final Action.

## Technical Investigations

The Board was provided detailed information regarding all field data, studies and analyses for each stream segment at the January 25, 2011 Board meeting.

## Natural Environment Studies

The CDOW, TU, and/or the USFS have conducted field surveys on these streams and found natural environments that can be preserved. To quantify the resources and to evaluate instream flow requirements, the CDOW, TU, and/or USFS staff collected biologic and hydraulic data, and the CWCB staff reviewed and analyzed this data. Based on the results of these reviews and analyses, the CWCB staff prepared recommendations for the amount of water necessary to preserve the natural environment to a reasonable degree for each of the streams.

## **Water Availability Studies**

The CWCB Staff has conducted evaluations of water availability for these streams. To determine the amount of water physically available for the Board's appropriations, staff analyzed available USGS gage records, available streamflow models, and/or utilized appropriate standard methods to develop a hydrograph of mean daily flows for each recommendation. Staff also relied upon the flow measurements made as part of the field survey, and/or used pressure transducers to further verify the amount of water physically available in these streams. In addition, staff analyzed the water rights tabulation and consulted with the Division Engineer's Office to identify any potential water availability problems. Based upon its analysis, staff has determined that water is available for appropriation on each stream to preserve the natural environment to a reasonable degree without limiting or foreclosing the exercise of valid water rights.

## **Relevant Instream Flow Rules**

5f. Date of Appropriation. The Board may select an appropriation date that may be no earlier than the date the Board declares its intent to appropriate. The Board may declare its intent to appropriate when it concludes that it has received sufficient information that reasonably supports the findings required in Rule 5i.

5h. Final Board Action on an ISF Recommendation. The Board may take final action on any uncontested Staff Recommendation(s) at the May Board meeting or any Board meeting thereafter. If a Notice to Contest has been filed, the Board shall proceed under Rule 5j-5q.

5i. Required Findings. Before initiating a water right filing to confirm its appropriation, the Board must make the following determinations:

- (1) Natural Environment. That there is a natural environment that can be preserved to a reasonable degree with the Board's water right if granted.
- (2) Water Availability. That the natural environment will be preserved to a reasonable degree by the water available for the appropriation to be made.
- (3) Material Injury. That such environment can exist without material injury to water rights.

These determinations shall be subject to judicial review in the water court application and decree proceedings initiated by the Board, based on the Board's administrative record and utilizing the criteria of section 24-4-106(6) and (7), C.R.S. (2008).

## **Staff Recommendation**

Staff requests that the Board make the following determinations and take the following actions on each of the appropriations, based on the information contained in this memo as well as the information presented by staff both in writing and orally at the January 25, 2011 Board meeting.

Determine, pursuant to section 37-92-102(3), C.R.S., and based upon the recommendations of the CDOW, TU, and/or the USFS, a review of the data and other information presented by Staff, in this memo and orally, that:

- (a) There is a natural environment that can be preserved to a reasonable degree with the recommended water rights, if granted;
  - (b) Water is available in each stream for appropriation;
  - (c) The natural environment will be preserved to a reasonable degree by the water available for the recommended appropriations; and
  - (d) Such natural environment can exist without material injury to water rights.
- (3) Pursuant to ISF Rule 5f., establish January 25, 2011 as the appropriation date for these instream flow water rights.
- (3) Direct staff to request the Attorney General's Office to file the necessary water rights applications.

**Attachments:** ATT1261250.dat

Pursuant to ISF Rule 5c of the Rules Concerning the Colorado Instream Flow and Natural Lake Level Program, this notice identifies the streams to be considered for instream flow appropriations in 2011. At the January 2011 meeting of the Colorado Water Conservation Board (CWCB), staff may request that the Board form its intent to appropriate instream flow water rights for the streams listed on the attached Instream Flow Appropriation List. The attached list contains a description of the Instream Flow (ISF) Recommendations including stream name, watershed, county, upper terminus, lower terminus, length, and USGS quad sheet name(s).

Copies of the Instream Flow Recommendations and Appendices of data submitted into the Official CWCB Record are available for review by the public during regular business hours (8:00 a.m. - 5:00 p.m.) at the Colorado Water Conservation Board's Office, located at 1313 Sherman Street, Room 723, Denver, Colorado, 80203. In addition to the CWCB office, copies of the Instream Flow and Natural Lake Level Recommendations are available on the [CWCB website](#).

In addition to the above Instream Flow Recommendations and Appendices, staff may rely on any additional data, exhibits, testimony, or other information submitted by any party as part of the Official CWCB Record to support its Instream Flow Recommendations.

It should also be noted that pursuant to the ISF Rules:

(a) The Board may change flow amounts of contested ISF appropriations based on information received during the public notice and comment period.

(b) Staff will maintain, pursuant to Rule 5e.(3), an ISF Subscription Mailing List for each water division composed of the names of all persons who have sent notice to the Board Office that they wish to be included on such list for a particular water division. Any person desiring to be on the ISF Subscription Mailing List(s) must send notice to the Board Office.

(c) Any meetings held between Staff and members of the public will be open to the public. Staff may provide Proper Notice prior to any such meetings and may provide notice to persons on the ISF Subscription Mailing List(s).

(d) Any Notice to Contest must be received at the Board office no later than March 31, 2011, or the first business day thereafter. All Notices of Party status and Contested Hearing Participant status must be received at the Board office no later than April 30, 2011 or the first business day thereafter.

(e) Staff will announce its Final Staff ISF Recommendation concerning contested appropriations at the September 2011 Board meeting and will send notice of the Final Staff Recommendation to all persons on the Contested Hearing Mailing List.

(f) The Board may take final action on any uncontested ISF appropriations at the May 2011 Board meeting.

Should you wish to comment on the proposed Instream Flow Recommendations, you may do so by writing Jeff Baessler of the Board's staff at the address given above or by sending your comments by email to [jeffrey.baessler@state.co.us](mailto:jeffrey.baessler@state.co.us), [owen.williams@state.co.us](mailto:owen.williams@state.co.us), or [rob.viehl@state.co.us](mailto:rob.viehl@state.co.us). It should be noted that while your appearance at any meeting is welcome, such an appearance is not necessary for your concerns to be recognized. Staff will take your comments into account and, if you so request, will present them to the Board in your absence. If you are not currently on the Board's Instream Flow Subscription Mailing List and you would like to be, please contact the Board's Office at the address given above.
