The provisions of this Section 10 shall only apply to such notated records and information.

#### **A. Confidentiality**

Grantee shall not engage in any business or personal activities or practices or maintain any relationships which conflict in any way with the full performance of Grantee's obligations hereunder. Grantee acknowledges that

with respect to this Grant, even the appearance of a conflict of interest is harmful to the State's interests. Absent the State's prior written approval, Grantee shall refrain from any practices, activities or relationships that reasonably appear to be in conflict with the full performance of Grantee's obligations to the State hereunder. If a conflict or appearance exists, or if Grantee is uncertain whether a conflict or the appearance of a conflict of interest exists, Grantee shall submit to the State a disclosure statement setting forth the relevant details for the State's consideration. Failure to promptly submit a disclosure statement or to follow the State's direction in regard to the apparent conflict constitutes a breach of this Grant.

**14. BREACH**

**A. Defined**

In addition to any breaches specified in other sections of this Grant, the failure of either Party to perform any of its material obligations hereunder in whole or in part or in a timely or satisfactory manner, constitutes a breach. The institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Grantee, or the appointment of a receiver or similar officer for Grantee or any of its property, which is not vacated or fully stayed within 20 days after the institution or occurrence thereof, shall also constitute a breach.

## **B. Notice and Cure Period**

In the event of a breach, notice of such shall be given in writing by the aggrieved Party to the other Party in the manner provided in §16. If such breach is not cured within 30 days of receipt of written notice, or if a cure cannot be completed within 30 days, or if cure of the breach has not begun within 30 days and pursued with due diligence, the State may exercise any of the remedies set forth in §15. Notwithstanding anything to the contrary herein, the State, in its sole discretion, need not provide advance notice or a cure period and may immediately terminate this Grant in whole or in part if reasonably necessary to preserve public safety or to prevent immediate public crisis.

## **15. REMEDIES**

If Grantee is in breach under any provision of this Grant, the State shall have all of the remedies listed in this §15 in addition to all other remedies set forth in other sections of this Grant following the notice and cure period set forth in §14(B). The State may exercise any or all of the remedies available to it, in its sole discretion, concurrently or consecutively.

### **A. Termination for Cause and/or Breach**

If Grantee fails to perform any of its obligations hereunder with such diligence as is required to ensure its completion in accordance with the provisions of this Grant and in a timely manner, the State may notify Grantee of such non-performance in accordance with the provisions herein. If Grantee thereafter fails to promptly cure such non-performance within the cure period, the State, at its option, may terminate this entire Grant or such part of this Grant as to which there has been delay or a failure to properly perform. Exercise by the State of this right shall not be deemed a breach of its obligations hereunder. Grantee shall continue performance of this Grant to the extent not terminated, if any.

#### **i. Obligations and Rights**

To the extent specified in any termination notice, Grantee shall not incur further obligations or render further performance hereunder past the effective date of such notice, and shall terminate outstanding orders and sub-Grants with third parties. However, Grantee shall complete and deliver to the State all Work, Services and Goods not cancelled by the termination notice and may incur obligations as are necessary to do so within this Grant's terms. At the sole discretion of the State, Grantee shall assign to the State all of Grantee's right, title, and interest under such terminated orders or sub-Grants. Upon termination, Grantee shall take timely, reasonable and necessary action to protect and preserve property in the possession of Grantee in which the State has an interest. All materials owned by the State in the possession of Grantee shall be immediately returned to the State. All Work Product, at the option of the State, shall be delivered by Grantee to the State and shall become the State's property.

#### **ii. Payments**

The State shall reimburse Grantee only for accepted performance up to the date of termination. If, after termination by the State, it is determined that Grantee was not in breach or that Grantee's action or inaction was excusable, such termination shall be treated as a termination in the public interest and the rights and obligations of the Parties shall be the same as if this Grant had been terminated in the public interest, as described herein.

#### **iii. Damages and Withholding**

Notwithstanding any other remedial action by the State, Grantee also shall remain liable to the State for any damages sustained by the State by virtue of any breach under this Grant by Grantee and the State may withhold any payment to Grantee for the purpose of mitigating the State's damages, until such time as the exact amount of damages due to the State from Grantee is determined. The State may withhold any amount that may be due to Grantee as the State deems necessary to protect the State, including loss as a result of outstanding liens or claims of former lien holders, or to reimburse the State for the excess costs incurred in procuring similar goods or services. Grantee shall be liable for excess costs incurred by the State in procuring from third parties replacement Work, Services or substitute Goods as cover.

### **B. Early Termination in the Public Interest**

The State is entering into this Grant for the purpose of carrying out the public policy of the State of Colorado, as determined by its Governor, General Assembly, and/or Courts. If this Grant ceases to further the public policy of the State, the State, in its sole discretion, may terminate this Grant in whole or in part.

Exercise by the State of this right shall not constitute a breach of the State's obligations hereunder. This subsection shall not apply to a termination of this Grant by the State for cause or breach by Grantee, which shall be governed by §15(A) or as otherwise specifically provided for herein.

**i. Method and Content**

The State shall notify Grantee of such termination in accordance with §16. The notice shall specify the effective date of the termination and whether it affects all or a portion of this Grant.

**ii. Obligations and Rights**

Upon receipt of a termination notice, Grantee shall be subject to and comply with the same obligations and rights set forth in §15(A)(i).

**iii. Payments**

If this Grant is terminated by the State pursuant to this §15(B), Grantee shall be paid an amount which bears the same ratio to the total reimbursement under this Grant as the Services satisfactorily performed bear to the total Services covered by this Grant, less payments previously made. Additionally, if this Grant is less than 60% completed, the State may reimburse Grantee for a portion of actual out-of-pocket expenses (not otherwise reimbursed under this Grant) incurred by Grantee which are directly attributable to the uncompleted portion of Grantee's obligations hereunder; provided that the sum of any and all reimbursement shall not exceed the maximum amount payable to Grantee hereunder.

**C. Remedies Not Involving Termination**

The State, its sole discretion, may exercise one or more of the following remedies in addition to other remedies available to it:

**i. Suspend Performance**

Suspend Grantee's performance with respect to all or any portion of this Grant pending necessary corrective action as specified by the State without entitling Grantee to an adjustment in price/cost or performance schedule. Grantee shall promptly cease performance and incurring costs in accordance with the State's directive and the State shall not be liable for costs incurred by Grantee after the suspension of performance under this provision.

**ii. Withhold Payment**

Withhold payment to Grantee until corrections in Grantee's performance are satisfactorily made and completed.

**iii. Deny Payment**

Deny payment for those obligations not performed, that due to Grantee's actions or inactions, cannot be performed or, if performed, would be of no value to the State; provided, that any denial of payment shall be reasonably related to the value to the State of the obligations not performed.

**iv. Removal**

Demand removal of any of Grantee's employees, agents, or Sub-grantees whom the State deems incompetent, careless, insubordinate, unsuitable, or otherwise unacceptable, or whose continued relation to this Grant is deemed to be contrary to the public interest or not in the State's best interest.

**v. Intellectual Property**

If Grantee infringes on a patent, copyright, trademark, trade secret or other intellectual property right while performing its obligations under this Grant, Grantee shall, at the State's option (a) obtain for the State or Grantee the right to use such products and services; (b) replace any Goods, Services, or other product involved with non-infringing products or modify them so that they become non-infringing; or, (c) if neither of the foregoing alternatives are reasonably available, remove any infringing Goods, Services, or products and refund the price paid therefore to the State.

**16. NOTICES and REPRESENTATIVES**

Each individual identified below is the principal representative of the designating Party. **Statement of Work**

**WATER ACTIVITY NAME - Mancos River Habitat and Diversion Project – Phase II**

**GRANT RECIPIENT – Mancos Conservation District**

**FUNDING SOURCE – WSRA Basin and Statewide**

**INTRODUCTION AND BACKGROUND**

Provide a brief description of the project. (Please limit to **no more than 200 words**; this will be used to inform reviewers and the public about your proposal)

The Mancos River Habitat and Diversion Project – Phase II is a comprehensive project to refresh the Mancos Valley Watershed Group’s watershed stewardship goals, to continue collaborative river condition monitoring begun in 2006, and to implement the findings and plans developed in the Mancos River Diversion Project- Phase I to improve the ecological and agricultural function of a 2.4 mile reach of the Mancos River.

The Mancos River Habitat and Diversion Project – Phase II will reassess the condition of the Mancos River at 17 different sites and to host a training in the Rapid Stream Riparian Assessment methodology. It will help to maintain the momentum of the Mancos Valley Watershed Group by convening the group to review progress and identify the next set of priorities for action to steward the health and productivity of the Mancos River. Finally it will implement the findings, recommendations and plans developed through the Mancos River Diversion Project - Phase I, and by the 2007 Functional Assessment of the Mancos River Watershed (Stacey 2007) through design and installation of improvements to four irrigation diversions, together with measures to improve channel function and habitat condition along the 2.4 mile South Town to Exon reach of the Mancos River.

This project not only helps meet environmental needs but also helps sustain agriculture. Assessments including the Mancos River Basin In-Stream Flow Report: Preliminary Evaluation of Flow Restoration Options (Beatie and Smith 2011), Mancos Watershed Plan (Mancos Valley Watershed Group 2011), Mancos River Watershed Diversions (Lanci 2009), and the Functional Assessment of the Mancos River Watershed: Mancos Valley and Adjacent Areas (Stacey 2007) have identified improvement of diversions and channel and riparian improvements as a priority strategy for improving the rivers functional condition. Improving diversions will assist in sustaining agriculture by reducing annual diversion maintainance costs by an estimated \$1600/year.

Many partners will collaborate to make this project a success, including the Mancos Conservation District, Natural Resources Conservation Service, Trout Unlimited, Dr. Peter Stacey at the University of New Mexico, the Wild Utah Project, irrigation ditch companies, private landowners along the Mancos River, and local volunteers. WSRA funds will specifically be used to fund the contracting of project management services, and the materials and contracted services necessary to install the river channel restoration measures and the diversion improvements.

- 1) To reassess the condition of the Mancos River after 5 years and several projects, and to provide a baseline for new river improvement efforts. This reassessment will also provide a baseline for the stream improvement efforts proposed South Town to Exon Diversion Reach. Also serves to improve the assessment protocol and support the efforts of the Mancos Watershed Group to....
- 2) To maintain and refresh the momentum of the Mancos Watershed Group by convening the group to review progress and identify the next set of priorities for action to steward the health and productivity of the Mancos River Watershed.
- 2) To further the efforts begun in the *Mancos River Diversion Project - Phase I* project to improve channel function and aquatic habitat condition on the Mancos River for on the South Town to Exon Diversion reach of the Mancos River.
- 3) To decrease time and costs incurred in diverting irrigation water at 5 diversions within the South Town to Exon Diversion reach of the Mancos River.

## **TASKS**

Provide a detailed description of each task using the following format

### **TASK 1 –Rapid Stream-Riparian Assessment training, watershed monitoring and project baseline.**

#### Description of Task

Host a local training workshop in the Rapid Stream-Riparian Assessment (RSRA) methodology to equip local staff and volunteers to complete a reassessment of the functional condition of the Mancos River Watershed, and to establish a new baseline ahead of proposed river restoration activities. The result will be an assessment of change by reach over the past 5 years, at up to 17 reaches, as well as establishment of a new baseline for condition of reaches throughout the watershed. The South Town to Exon Diversion reach proposed to be restored in this project includes two of the reaches assessed in 2006. Reassessment of these two reaches will provide a baseline by which to gauge the ecological success of this South Town to Exon Diversion project.

#### Method/Procedure

- Complete workshop to train 15 people, including MCD staff and some board members, in the RSRA protocol for assessing the functional condition and ecological health of small and medium sized rivers in the Southwest. Participants in this workshop will reassess two of 17 reaches assessed in 2006.
- Following the workshop, the Project Coordinator and watershed partners will seek permission to access the remaining 15 reaches for reassessment.
- Project Coordinator, MCD, Mancos River Watershed partners, and volunteers reassess reaches where permission is granted.

#### Deliverable

RSRA Training Workshop, results of workshop reach reassessments for 2 reaches, and results of subsequent reassessment of up to 15 remaining reaches.

## **TASK 2 – Convene Mancos River Watershed Group.**

### Description of Task

Convene the Mancos River Watershed Group through an open invitation to participate in a meeting to learn about progress to date and to review and renew priorities for action.

### Method/Procedure

- Project Manager will identify key partners, work with them to determine an agreeable place and date for the Watershed Group meeting and develop an agenda.
- Project Manager will work with key partners to line up speakers and advertise the meeting to the Mancos Valley community and other interested communities.

### Deliverable

Meeting notes, presentations and agenda posted on MCD website with links to partners websites.

## **TASK 3 - Complete baseline geomorphic survey of South Town to Exon Diversion reach.**

### Description of Task

Survey channel dimensions and profile through entire 2.4 mile reach from Mancos Town Sewage Treatment Plant downstream to County Exon Diversion.

### Method/Procedure

- Riverside landowners throughout the South Town to Exon Diversion Reach will be contacted to request permission to conduct a survey of the river channel through their properties.
- Where landowners have granted permission, MCD technicians will use GPS and Total Station surveying equipment to measure channel cross sections and channel profile in the reach.
- Channel measurements will be tied into diversion box and headgate elevations.
- Permanent photographic monitoring points will be established to supplement already established points, and baseline (or repeat) photographs will be taken.
- Volunteers may also assist in surveying the reach.
- Surveying data will be entered into AutoCad to plan view and cross-sectional maps, as well as software to assess and model hydrologic behavior.

### Deliverable

Baseline survey of stream morphology and pre-project photography of the 2.4 mile South Town to Exon Diversion reach.

## **TASK 4 – Develop reach restoration design, including 4 diversion structures in conjunction with channel and riparian restoration measures.**

### Description of Task

Design integrated channel and diversion functional restoration measures.

#### Method/Procedure

- Using the geomorphic survey, diversion elevations and hydrologic analysis from Task 3, MCD Technician will develop design drawings for specific measures designed to divert decreed irrigation water to headgates and provide for healthy channel function and aquatic condition.
- All designs will be done in AutoCad and will incorporate the results of hydrologic analyses.
- Identify storage sites and ultimate disposition for any materials generated through excavation. Determine key access points to be used in installation of the designed diversion and channel activities.
- Discuss reach restoration design with ditch operators and landowners. Revise as appropriate.
- Write and submit permit application to US Army Corps staff. Work with staff to address any concerns. Secure project permit. Permissions for access secured from landowners. US Army Corps Permit secured for implementation of designed restoration measures.

#### Deliverables

Construction-ready design drawings for South Town to Exon Diversion reach of the Mancos River. Drawings will include plan view, cross sections and profiles detailing the construction design for four irrigation diversions together with measures to improve/restore channel function and aquatic condition. Permissions for installation secured from landowners. US Army Corps Permit secured for implementation of designed restoration measures.

### **TASK 5 – Install diversion structures and channel habitat and riparian treatments.**

#### Description of Task

Implement whole reach restoration plan through installation of 4 diversion structures and channel habitat and riparian treatments as designed in Task 4.

#### Method/Procedure

1. Locate and purchase construction materials.
2. Hire local trucking company to transport materials from source to project site.
3. Hire large track excavator to install rock, concrete and log structures and to excavate pools and banks per whole reach plan.
4. Site clean-up (smooth grade disturbed areas and excavated materials).
5. Provide construction staking and construction oversight
6. Record on Construction Plans any notable changes made in the field.

#### Deliverable

Four irrigation diversion structures installed, and appropriate channel and riparian restoration measures implemented along 2 miles of the Mancos River.

### **TASK 6 – Coordinate, manage and report on all aspects of the project.**

#### Description of Task

Coordinate completion of tasks 1-5 by various partners, funders and Mancos Conservation District, as well as writing and circulating progress reports and final project report.

#### Method/Procedure

Arrange meetings, liaison with funding agencies, track billing and progress, administer grant, write and circulate progress reports to funding agencies and MCD Board, liaison with watershed partners, ditch companies, water commissioners, other stakeholders and Mancos Conservation District. Identify and apply for future implementation funding.

#### Deliverable

Coordination of Tasks 1-6, progress reports, and a final report documenting the methods, costs and outcomes of the project, including pre- and post-project photographs, and deliverables for each task.

### **REPORTING AND FINAL DELIVERABLE**
