Title: *President of Robinson Ditch*

Signature: *Joe Meade*

- water conservation due to increased ditch efficiency.

**Threshold and Evaluation Criteria**

The application meets all four Threshold Criteria.

**Discussion:**

There was significant discussion at the roundtable about this project. Many roundtable members believed that the project had potential to be a multi-purpose project by using the efficiency savings for other needs. Other members believed that the project could be expedited through a combination of grants and loans. Some members believed this project was primarily a safety project and not appropriate for WSRA funding. There was also concern raised about the cottonwoods along the ditch dying and there not being a vegetation management plan or outreach to the
