

Summary

Applicant seeks to change direct flow irrigation water rights to “storage and augmentation,” and to change points of diversion to an alternate point upstream of the instream flow water right. Applicant has apparently not sought approval of a plan for augmentation.

CWCB Appropriations

The CWCB holds the following instream flow water rights that could be injured by this application:

CWCB Case No.	Stream/Lake	Amount (cfs)	Approp. Date	Watershed	County
3-94CW43	North Fork Carnero Creek	0.25 /0.5	3/9/1994	Saguache Creek	Saguache

Potential for Injury

1. The proposed change of water rights could cause an expansion of use and a change in the amount, location and timing of historical return flows, which could injure the CWCB’s instream flow water rights.
2. The proposed change to augmentation use could injure the CWCB’s instream flow water right.
3. The application does not present sufficient information to fully evaluate the extent to which the Board’s instream flow rights may be injured.

Other Objectors

No other objections were filed.
