Explanation

See list of media hits at: <http://www.coloradomesa.edu/watercenter/RoundtableEducationProject.html>

Placement of media stories exceeds number archived on website, since editors often do not inform us when they print our articles, and not all are easily accessible on the internet. I know of several published in the Delta Independent, Montrose Daily Press and Gunnison County papers that are not available via web; Also, the GJ Free Press just updated their website, breaking many links.

Basic ppt established; can be updated on demand.

Outreach plans completed.

So far, between the Gunnison and Colorado Basin Roundtables, we've logged 44 community presentations to approximately 1,000 people. In the Colorado Basin, recent presentations include a pair of Rotary presentations in Eagle County; we have plans for a presentation at an upcoming NW COG meeting.

See archived newsletters at <http://www.coloradomesa.edu/watercenter/News.html> - distribution list now exceeds 900 ; also our facebook (<https://www.facebook.com/WaterCenter.CMU>) and twitter

We've done two rounds of the 3-evening Water Course + one "State of the River" seminar since the grant started; Next one is coming up 5/13

Not yet started

We haven't been getting many evaluation forms back, but general feedback has been positive.

Here we are...

Given that this project was already behind schedule, we decided to further delay it until spring in order to have it reflect whether the drought was still on – which it seems to be. Most of the stories are collected.

See note above for Colorado Basin Roundtable.

Basic ppt established; can be updated on demand.

Outreach plans completed.

So far, between the Gunnison and Colorado Basin Roundtables, we've logged 44 community presentations to approximately 1,000 people. Recent presentations include a pair of Surface Creek Valley community meetings organized with the Grand Mesa Water Conservancy District and several presentations in the Upper Gunnison, including a Gunnison County Mayor-Manager-Commissioner meeting.

See note above for Colorado Basin Roundtable.

The State of the River seminar happened last year and is scheduled for early June this year.

We haven't been getting many evaluation forms back, but general feedback has been positive.
