 1. 7 points conceptual agreement: does this belong in the state water plan? If this does, should every issue (IPPs, conservation, environmental) have a set of points accompanying the discussion?
 2. Municipal conservation: high goal is 420k (representing the gap), medium is 350k. Which level and are we agreeing that is this for both east & west slope?
 3. Agriculture conservation v. efficiency: Should we convene Ag needs group in each RT? Regarding both subjects, if we save water where does the water go, i.e. Front Range or water bank?
 4. Didn't get to NC at this meeting, where do we want to get?
 5. How does Colorado deal with conditional water rights?
 6. Gunnison v. Yampa discrepancies- is the issue negotiated equitable apportionment?
 7. Next step: more meetings with west slope with all invited to talk NC & consumptive needs together?
