

Summary

The Applicant seeks to move 100 acre-feet of its conditional Stillwater Reservoir storage right to upstream places of storage in five new ponds. New uses will include stock watering, wildlife watering and enhancement, and fire protection.

CWCB Appropriations

The CWCB holds the following instream flow water rights that could be injured by this application:

CWCB Case No.	Stream/Lake	Amount (cfs)	Approp. Date	Watershed	County
5-77W3652G	Miller Creek	10	11/15/1977	Upper White	Rio Blanco
5-77W3652B	South Fork White River	80	11/15/1977	Upper White	Rio Blanco
5-77W3652C	White River	200	11/15/1977	Upper White	Rio Blanco

Potential for Injury

The proposed change of water rights could cause an expansion of use which could injure the CWCB's instream flow water rights.

The proposed change in places of storage and points of diversion to upstream locations could injure the CWCB's intervening instream flow water rights.

Other Objectors

A Statement of Opposition was also filed by the Oil Shale Corporation.
