

Summary

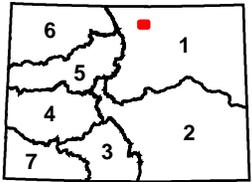

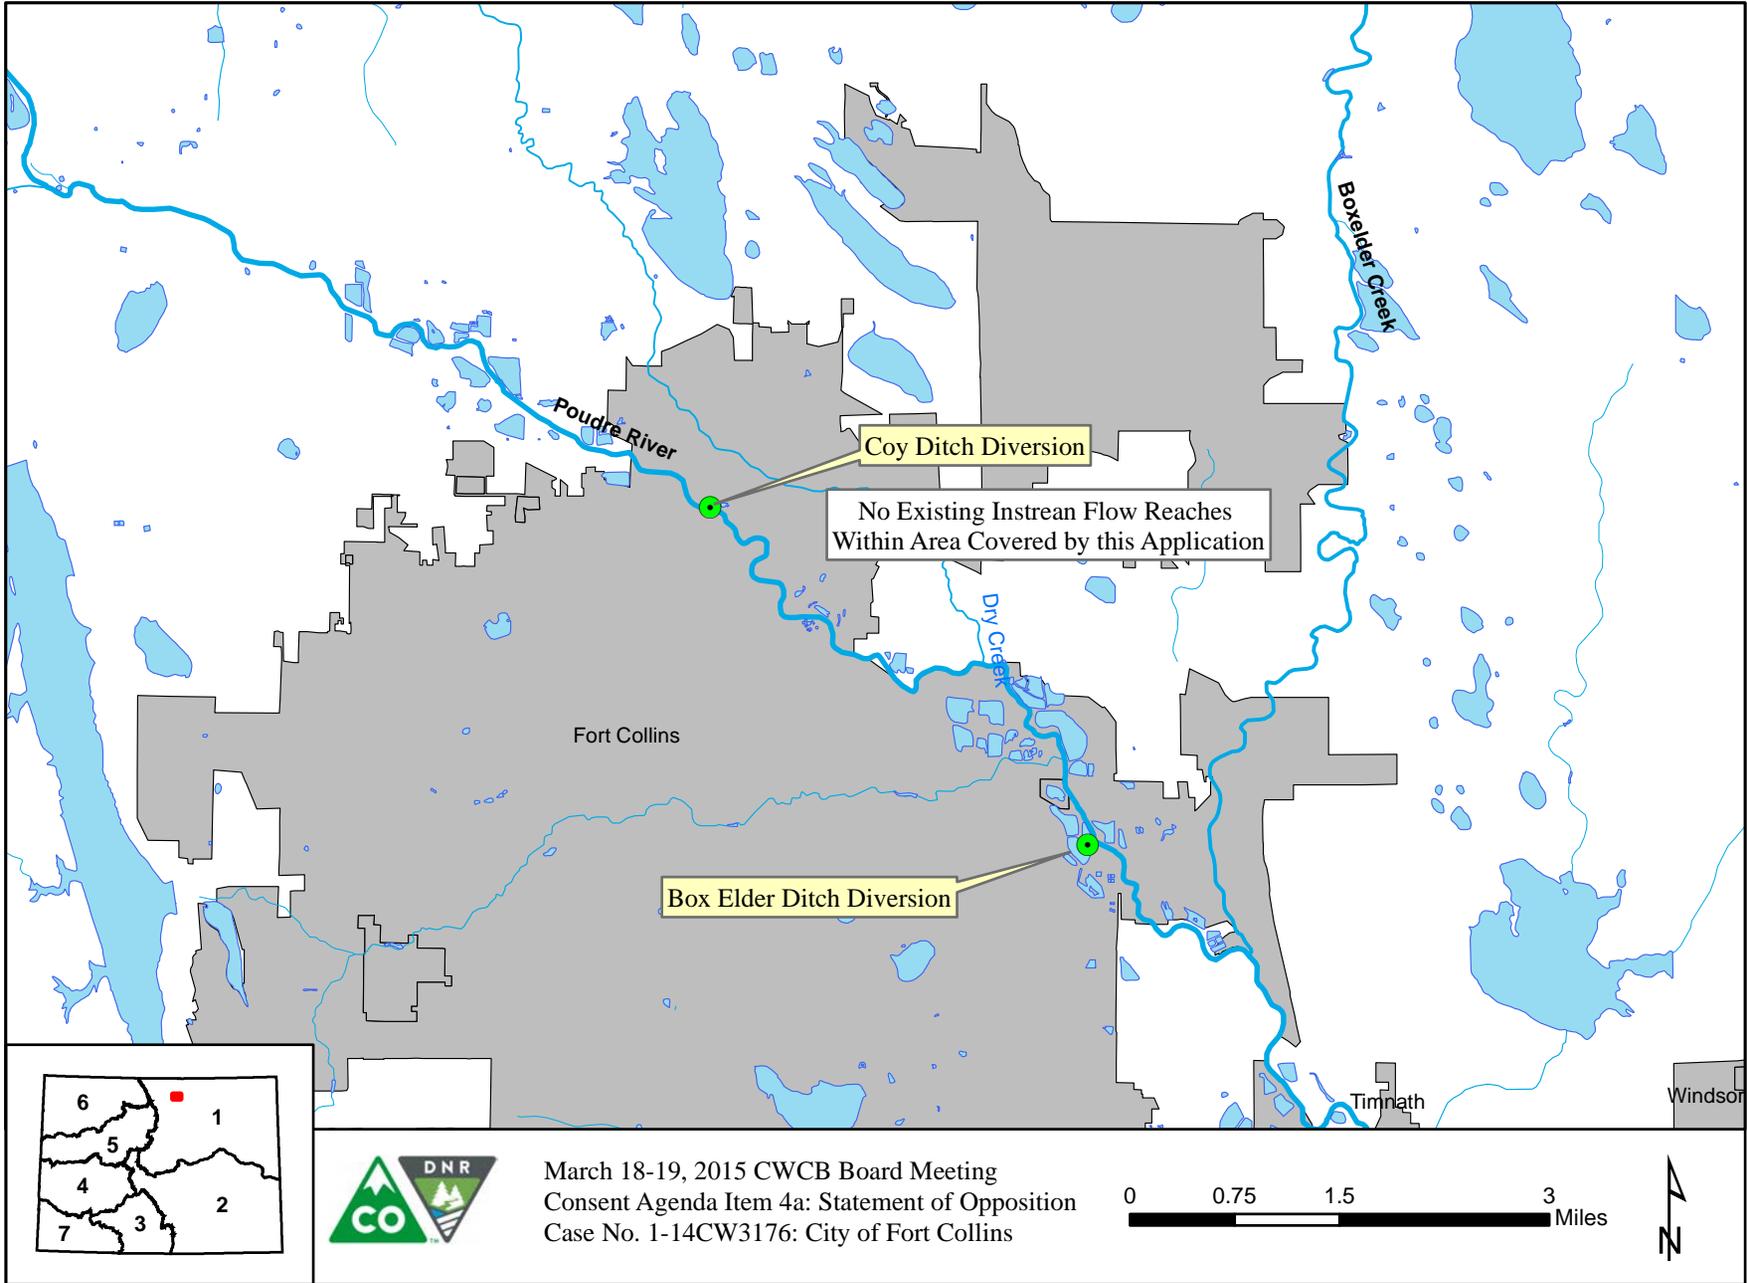

The Applicant seeks new absolute water rights, a plan for augmentation, and to change an irrigation right to storage and alternate points of diversion for all municipal uses and to instream flow water use, pursuant to an agreement with the CWCB. The historical and proposed alternate points of diversion are downstream of CWCB's existing instream flow water rights.

Potential for Injury

The proposed application will require coordination and agreements with the CWCB for the instream flow use of the water right, as proposed by applicant.

 Consent Agenda Item 4a: Statement of Opposition
 Case No. 1-14CW3176: City of Fort Collins

Summary

The Applicant seeks four new underground water rights associated with a potato packing and storage facility and a plan for augmentation to replace the out of priority depletions. The augmentation water is to be provided by historical consumptive use credits from the Gabino Gallegos Ditch.

CWCB Instream Flow Water Rights

The CWCB holds the following instream flow water rights that could be injured by this application:

CWCB Case No.	Stream/Lake	Amount (cfs)	Approp. Date	Watershed	County
3-13CW3013*	Alamosa River	2.5	4/15/1870	Alamosa River	Conejos
3-13CW3014*	Alamosa River	0.5	4/10/1870	Alamosa River	Conejos

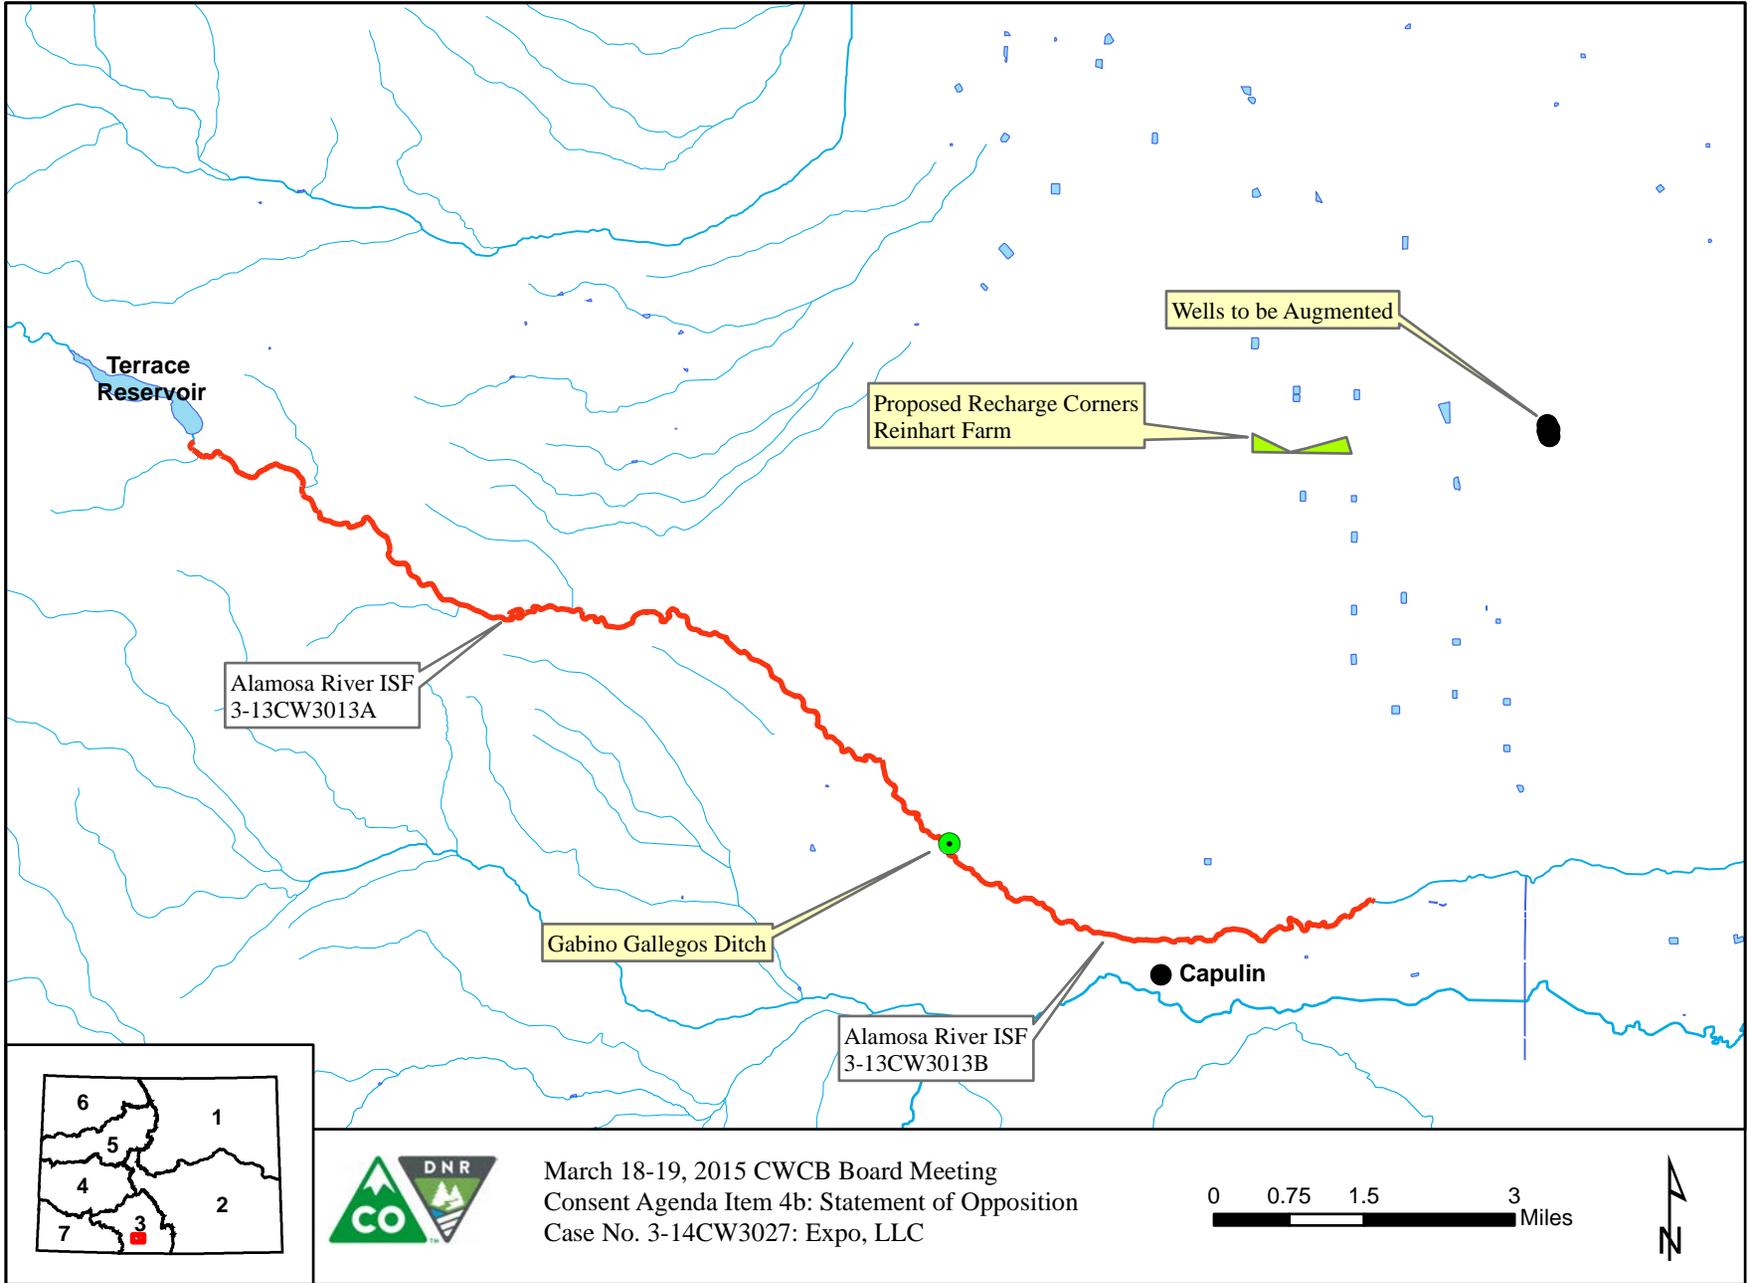

* Decree pending.

Potential for Injury

The proposed use of Gabino Gallegos ditch water right may injure the CWCB water rights in the same ditch. The proposed plan for augmentation may not replace depletions in the proper time, place and amount, which could injure the CWCB's instream flow water rights.

Other Objectors

Statements of Opposition were also filed by Rio Grande Water Users Association, Conejos Water Conservation District, Terrace Irrigation Company.

Summary

The Applicant seeks a change of a groundwater water right to add a new point of diversion and to add new uses of commercial, industrial, washing, humidification, and fluming potatoes and other produce.

CWCB Instream Flow Water Right

The CWCB holds the following instream flow water rights that could be injured by this application:

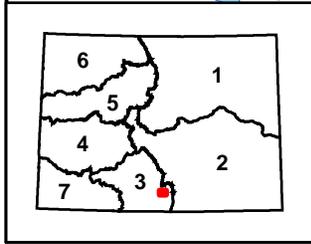

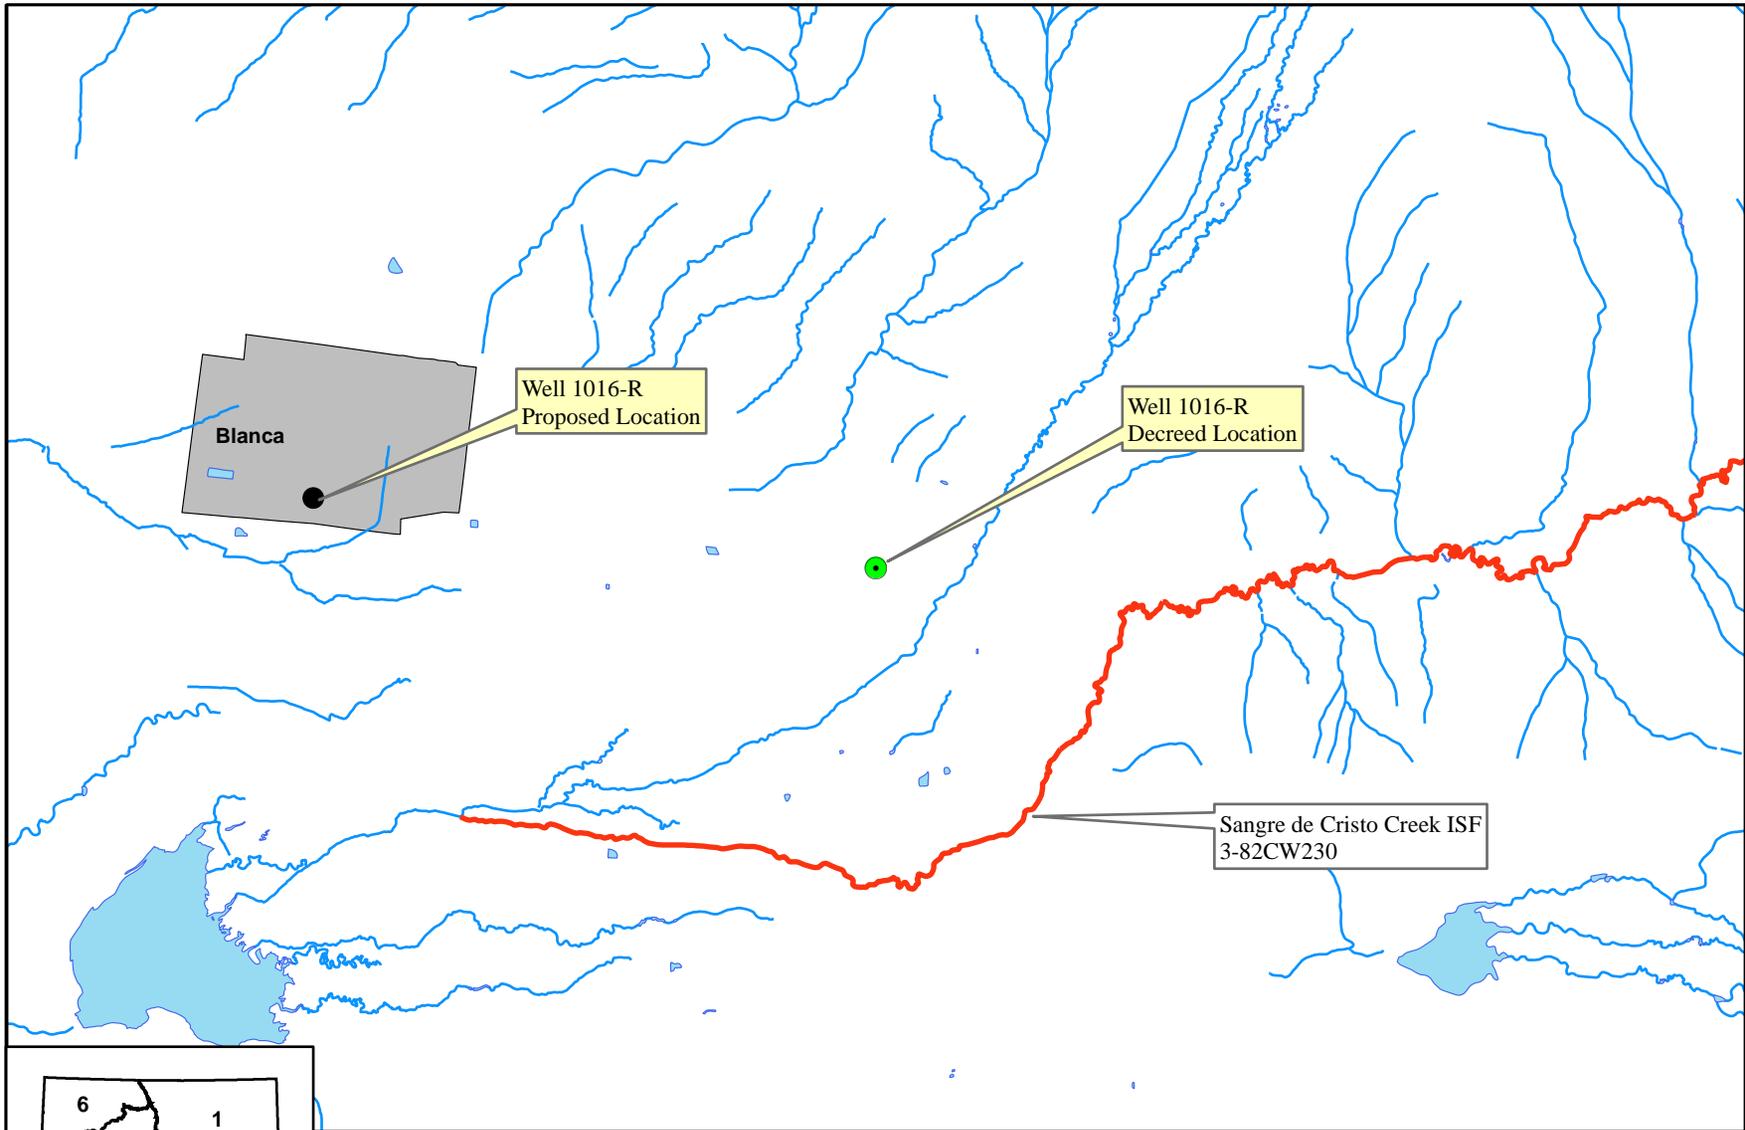

CWCB Case No.	Stream/Lake	Amount (cfs)	Approp. Date	Watershed	County
3-82CW230	Sangre de Cristo Creek	2.0	10/7/1982	Alamosa-Trinchera	Costilla

Potential for Injury

The proposed change of water rights could cause an expansion of use and could alter the time, place and amount of historical return flows, which could injure the CWCB's instream flow water rights.

Other Objectors

No other Statements of Opposition were filed.

March 18-19, 2015 CWCB Board Meeting
Consent Agenda Item 4c: Statement of Opposition
Case No. 3-14CW3030: Blanca Potato, LLC

Summary

The Applicant seeks a change of use and approval of plan for augmentation as well as new conditional storage rights and an absolute storage right.

CWCB Instream Flow Water Rights

The CWCB holds the following instream flow water rights that could be injured by this application:

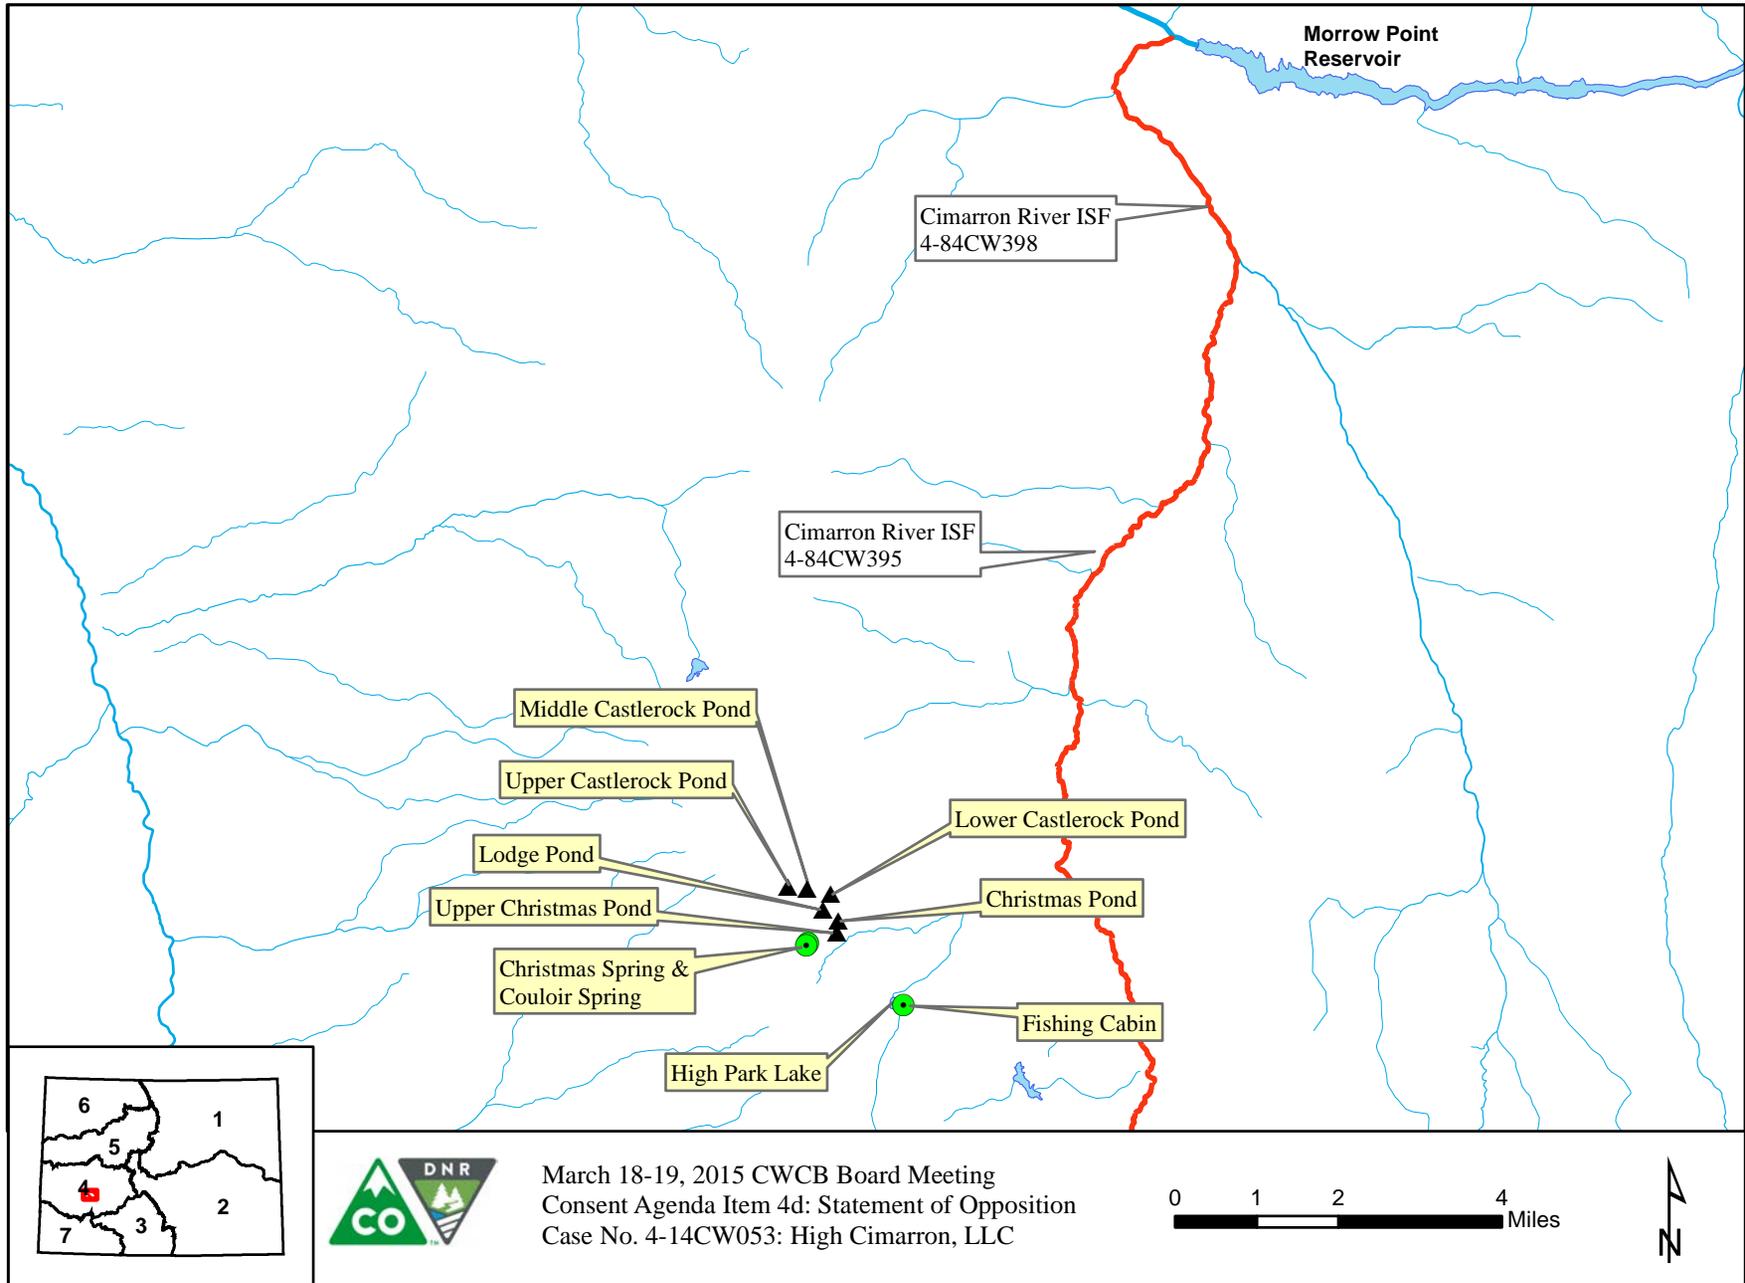

CWCB Case No.	Stream/Lake	Amount (cfs)	Approp. Date	Watershed	County

4-83CW228	East River	27/50	6/3/1982	East-Taylor	Gunnison

Potential for Injury

The proposed plan for augmentation may not replace depletions in the time, place or amount at which they occur, which could injure the CWCB's instream flow water rights. The administrative exchange under Applicant's proposed augmentation plan should be defined clearly with a reference to intervening instream flow water rights so that the CWCB's instream flow water rights are not injured.

Other Objectors

No other Statements of Opposition were filed.

Summary

The Applicant seeks an alternate point of diversion and a plan for augmentation.

CWCB Instream Flow Water Right

6-77W1328	Silver Creek	5	9/23/1977	Upper Yampa	Routt

Potential for Injury

The proposed plan for augmentation and exchange may not replace depletions in the time, place or amount at which they occur, which could injure the CWCB's instream flow water rights.

Other Objectors

Statements of Opposition were also filed by the State and Division Engineers, and Flying Diamond Resources Ltd.

Summary

The Applicant seeks a plan for augmentation, as well as new conditional and absolute direct flow surface and storage rights. The system includes a pond flow-through system that diverts within the Florida River instream flow water right.

CWCB Instream Flow Water Rights

The CWCB holds the following instream flow water rights that could be injured by this application:

CWCB Case No.	Stream/Lake	Amount (cfs)	Approp. Date	Watershed	County
7-77W1763	Florida River	14/7	1/19/1977	Animas	La Platta
7-77W1764	Florida River	20/12	1/19/1977	Animas	La Platta

Potential for Injury

The proposed plan for augmentation may not replace depletions in the time, place or amount, which could injure the CWCB's instream flow water rights. The proposed flow through water right could injure the CWCB's instream flow water right because the flow through system appears to be fully depletive to a segment of the intervening instream flow water right.

Other Objectors

No other Statements of Opposition were filed.
