RE: Upper Yampa Water Conservancy District Yampa River CDSS Modeling grant

To CWCB

The Yampa/White Basin Roundtable unanimously approved the Upper Yampa Water Conservancy District's, (UYWCD) Colorado Water Conservation Board WSRA basin funds grant request during the July 23, 2014 meeting.

The UYWCD is requesting \$25,000 of basin funds for further development of the Yampa River CDSS model used in the Yampa/White Roundtable's "Projects and Methods (P&M) Study". This is needed in order to refine proposed projects and their operations as discussed in the Draft Basin Implementation Plan (BIP) for use in the Upper Yampa Water Conservancy District's Master Plan.

Sincerely,

Jon Hill
Yampa/White Basin Roundtable Chairperson
