Re: Efficiency Film Progress Report – 50% Completion

The Water Efficiency Film is moving along, and we have completed our Purchase Requisition at MSU Denver to make our first payment to Havey Productions, Inc.

Jim Havey has been working on scheduling interviews for May 10th in Denver and later that month elsewhere as needed.

Kevin Reidy was included to request recommendations for interviews in the Roaring Fork Valley, and also Hannah Holm and Chris Treese. Jim held off contacting Eagle folks until he met with the Roaring Fork people.

I connected Jim with Elizabeth Gardener, formerly of Denver Water, and also with contacts at Fort Collins Water.

Here are our interview categories thus far:

1. Single Family Homeowner
2. Urban Parks Manager
3. Landscaper
4. Developer
5. Urban Efficiency Expert
6. Brewer
7. Big Picture Water Future Expert
8. Another Expert or Category

Thank you again for funding this important work.
