SUBJECT: Wildlands Restoration Volunteers – Community Sub-Basin Post-Flood Source Water Restoration Project.

Dear Mr. Godbout,

The South Platte Basin Roundtable approved funding of \$25,000 from the basin fund to the Wildlands Restoration Volunteers Community Sub-Basin Post-Flood Source Water Restoration Project. The project was reviewed by the Roundtable on July 11, 2017 at our monthly meeting. There was a quorum of members present at the meeting. This project requests \$25,000 in funding from the Statewide account.

Wildlands Restoration Volunteers is a well-respected organization that mobilizes hundreds of volunteers every year to the task of restoration and protection of riparian areas. This project will focus specifically on improving flood resiliency to tributaries of the South Platte. The project goals include improving water quality and reducing erosion. The project has many committed partners ranging from volunteer groups to municipalities.

The completed grant application will be forwarded directly to you by the applicant. Please contact the applicant directly or me at 720-272-2857 -- gvarra@varracompanies.com, if you have any comments or questions.

Sincerely,

Garrett Varra
South Platte Basin Roundtable Vice-Chair
