

SOUTH PLATTE RIVER BASIN

WATER DEVELOPMENT CONCEPT WORKSHOPS

WHO: Water providers and stakeholders in the South Platte River basin interested in a regional water management and storage project.

WHAT: Workshops detailing various project concepts to develop renewable, in-basin water supplies for municipal, agricultural, environmental, and recreational purposes.

WHEN & WHERE:

May 10
1:30 PM – 4:00 PM
Denver Water*
Cheesman Conference Room
1600 W. 12th Avenue, Denver

OR

May 15
3:00 PM – 5:30 PM
Northern Colorado Water
Conservancy District
220 Water Avenue, Berthoud

WHY: As outlined in the South Platte/Metro Basin Implementation Plan, regional cooperative, multi-purposed projects will need to be developed to help reduce the gap between existing water supplies and future water demands even after currently planned projects have been constructed.

For more information please contact:

Lisa Darling at South Metro Water Supply Authority (720-216-5158) or
Jim Hall at Northern Colorado Water Conservancy District (800-369-7246)

*Please arrive early at Denver Water to allow time for parking, checking in at the Administration Building, and walking to the Cheesman Room located in the Three Stones Building.
