4. Initial Issue Identification
5. Opportunity for Public Comment
6. Next Meeting Date and Topics for Discussion
7. Lunch [Adjourn at 12:00 pm with opportunity for working lunch through 1:00pm]

Initial Workgroup Description from the 2019 Work Plan for Demand Management Feasibility Investigations – approved by the CWCB at the March Board meeting:

Economic Considerations – Research, test (as needed), and identify potential economic impacts that may need to be considered in any demand management program within Colorado. Tasks for this workgroup will include, but may not be limited to, consideration of both primary and secondary economic impacts and short-term and long-term economic considerations. This workgroup will also work with the PM Team to note potential mechanisms and considerations that could economically incentivize or obstruct demand management participation in various parts of the state.
