Dear Grantee:

We are pleased to inform you that the Colorado Department of Natural Resources, Colorado Water Conservation Board (CWCB) has approved your request for funding pursuant to the WSRF Grant Program (“Program”). This letter authorizes you to proceed with the Cottonwood Pass Day Use Area Vault Toilet Project (“Project”) in accordance with the terms of this Grant Award Letter.

Attached to this letter are the terms and conditions of your Grant. Please review these terms and conditions, as they are requirements of this Grant to which you, Gunnison Angling Society, agree by accepting the Grant Funds.

If you have any questions or concerns regarding the project, please contact Craig Godbout, Project Manager at 303-866-3441 or at Craig.Godbout@state.co.us. Please send all grant correspondence directly to Craig and please, cc me on your invoice billing requests.

Thank you.

Sincerely,

//s//

Colorado Water Conservation Board

Water Supply Reserve Fund

Exhibit A - Statement of Work

Date:	11/20/2018
Water Activity Name:	Cottonwood Pass Day Use Area Vault Toilet
Grant Recipient:	Gunnison Angling Society local TU chapter
Funding Source:	WSRF \$10,000

Water Activity Overview: (Please provide brief description of the proposed water activity (no more than 200 words). Include a description of the overall water activity and specifically what the WSRF funding will be used for.

This project will address water quality with a vault toilet at Cottonwood Pass day use area. The proposed vault toilet will be installed at the day use area on Cottonwood Pass on the Taylor Park side of the pass. Cottonwood Pass is scheduled for partial opening in 2019. The new pass will be paved from Buena Vista, CO to Taylor Park Reservoir. As part of the road contract package, there will be a day use area pullout created. The day use area is 11 miles from the Taylor Park Reservoir and in the same watershed as the Reservoir. Currently there are no restroom on the entire pass.

This is a water quality related to recreation project. Based on observations of use, previous to the road improvement, there are large numbers of travelers over the pass which will result in impacts to the forest and watershed, particularly near the viewing area/day use pullout. These impacts will certainly include contamination of water resources from human waste containing E. coli. Without a restroom, human waste and E. coli will contaminate the watershed above Taylor Park Reservoir, creating a risk for downstream water users as well as the health of the watershed. Environmental Compliance- Clean Water Act.

Objectives: (List the objectives of the project)

This project has two parts. Part one is to purchase a concrete vault toilet and have it installed on Cottonwood pass at the day use area. The second will install signs to point out the day use area and let travelers know this is the only toilet on the entire Cottonwood pass road. Forest Service will also provide picnic tables to encourage people to stop and use the restroom.

Tasks	
Provide a detailed description of each task using the following format:	
<u>Task 1 -</u>	Purchase and install concrete vault toilet
<u>Description of Task:</u>	
<p>The Forest Service will purchase the concrete toilet from Boom Concrete. They will make the structure off site and deliver to Cottonwood Pass. Project partners will hire a local contractor to dig the foundation, and Boom Concrete will set the toilet upon arrival and make adjustment so it is ready for use.</p>	
<u>Method Procedure:</u>	
<p>This will be done by a contractor that has a good standing reputation of installing vault toilets.</p>	
<u>Grantee Deliverable: (Describe the deliverable the grantee expects from this task)</u>	
<p>Project partners expect to have a completed concrete toilet for public use on Cottonwood pass.</p>	
<u>CWCB Deliverable: (Describe the deliverable the grantee will provide CWCB documenting the completion of this task)</u>	
<p>Project partners will provide documentation and photos of the toilet installation and completed toilet.</p>	

Tasks	
Provide a detailed description of each task using the following format:	
<u>Task 2 - (Name)</u>	Signage and Picnic Tables
Description of Task:	
<p>The second phase is installing signs to direct travelers to the day use area and let them know this is the only toilet on the Cottonwood pass road. Forest service is also planning to install picnic tables at the day use area.</p>	
Method/Procedure:	
<p>We will order the signs and use partner's in-kind time to install signs and picnic tables.</p>	
Grantee Deliverable: (Describe the deliverable the grantee expects from this task)	
<p>2-3 hwy sized signs and 3-4 picnic tables.</p>	
CWCB Deliverable: (Describe the deliverable the grantee will provide CWCB documenting the completion of this task)	
<p>Project Partners will provide photos and documentation of completed signs and picnic tables</p>
