To Whom It May Concern:

This letter contains a progress report on the Olesen Ditch Project POGG1 2018-757 for May 2020.

The entire length of pipe has been fused, installed and buried. The requisite intake and outlet structures are complete. Irrigation water was introduced to the system on Monday, May 4, 2020 and performed flawlessly. Stephen Jaouen from the NRCS was present. His Certificate of Completion is attached. I am requesting the 10% retainage of \$2,500.

Very truly yours,

Wendy S. Sacks- Treasurer
