

AGREEMENT FOR ACQUISITION OF CHATFIELD RESERVOIR REALLOCATION PROJECT SHARES FROM THE STATE OF COLORADO

THIS AGREEMENT shall be dated, for reference purposes only, as of the last date either party signs this Agreement as indicated on the signature pages hereto, is entered into by and between the State of Colorado, acting by and through the Department of Natural Resources, Colorado Water Conservation Board ("CWCB"), and Dominion Water & Sanitation District, a Title 32 Special District 1805 Shea Center Drive, Suite 140, Highlands Ranch, Colorado 80129 ("Purchaser").

1. Recitals

1.1. Section 204 of the Flood Control Act of 1950 (Public Law 81-516), as modified by Section 88 of the Water Resources Development Act of 1974 (Public Law 93-251), authorized the construction, operation, and maintenance of the Chatfield Dam and Reservoir Project, Colorado (hereinafter the "Chatfield Reservoir") for flood control and other purposes, and Chatfield Reservoir has been constructed and is operational.

1.2. Chatfield Reservoir is located in Sections 1, 2, 11, 12, 13, 14 and 23, Township 6 South, Range 69 West, 6th P.M. and Sections 6, 7 and 18, Township 6 South, Range 68 West, 6th P.M. in Douglas and Jefferson Counties, Colorado. It is owned by the United States of America, was constructed for flood control and other purposes, and is operated by the Department of the Army represented by the Assistant Secretary of the Army (Civil Works) (the "USACE").

1.3. Section 808 of the Water Resources Development Act of 1986 (Public Law 99-662), as amended by Section 3042 of the Water Resources Development Act of 2007 (Public Law 110-114), authorized the reallocation of Storage Space (as defined below) in Chatfield Reservoir for joint flood control-conservation purposes, including storage for municipal and industrial water supply, agriculture, environmental restoration, and recreation and fishery habitat protection and enhancement, upon a finding of feasibility and economic justification by the Chief of Engineers, and, in accordance with the provisions of the Water Supply Act of 1958 (Title III of Public Law 85-500) as amended (43 U.S.C. 390b), the Federal Water Project Recreation Act (16 U.S.C. 4601-12 *et seq.*), and such other federal laws as the Secretary determines appropriate, upon agreement of non-Federal interests to repay the cost allocated to such storage.

1.4. The State of Colorado by and through the CWCB and the USACE entered into the Chatfield, Cherry Creek and Bear Creek Feasibility Study (Contract No. C153882) on September 2, 1999, to study the feasibility of reallocating existing Storage Space in Chatfield Reservoir.

1.5. The CWCB entered into a series of “Letters of Commitment” with more than a dozen water provider entities (“Water Providers”) during the feasibility study.

1.6. The Letters of Commitment allocated Storage Space in Chatfield Reservoir that will be made available by the Chatfield Storage Reallocation Project (“Reallocation Project”) as “shares” in the Reallocation Project. The Letters of Commitment specified that a Water Provider may opt out of its share of Storage Space in Chatfield Reservoir at any time, provided that the Water Provider allows other participating entities an opportunity to purchase the relinquished shares. Any relinquished portion of the shares not acquired by other entities were conveyed to the CWCB, which holds the Storage Space for later redistribution. The Letters of Commitment authorized the CWCB to develop methods for distributing or selling the Storage Space to the water community.

1.7. The USACE issued its Chatfield Reservoir Storage Reallocation Final Integrated Feasibility Report and Environmental Impact Statement dated July 2013, Addendum No. 1, dated March 2014, and Addendum No. 2, dated September 2014 (collectively the “Reallocation Report”) evaluating the Reallocation Project. On May 29, 2014, the USACE issued its Record of Decision authorizing the reallocation of 20,600 acre-feet of Storage Space from the exclusive flood control pool to a joint-use flood control-conservation pool for municipal and industrial water supply and other purposes.

1.8. The USACE and the Colorado Department of Natural Resources (“CDNR”) entered into an “Agreement Between the Department of the Army and the Colorado Department of Natural Resources for Reallocation of Water Storage Space, Recreation Modifications, and Compensatory Mitigation Features at the Chatfield Dam and Reservoir, Colorado” dated October 9, 2014 (“Water Storage Agreement”), by which CDNR acquired the right to use for water storage purposes the 20,600 acre-feet of Storage Space referenced above, subject to the terms stated therein. Article VI of the Water Storage Agreement contemplates that CDNR will grant portions of the Storage Space in Chatfield Reservoir to the Water Providers to store water supplies owned or used by them, and for the performance of the recreation modifications and the compensatory mitigation features.

1.9. Section 116 of Division C, Omnibus Appropriations Act, 2009 (Public Law 111-8), as amended by Section 4013(f) of the Water Resources Reform and Development Act of 2014 (Public Law 113-121), authorizes CDNR (or a designee of CDNR) to perform facility modifications and any required mitigation for the reallocation of Storage Space in the Chatfield Project.

1.10. The Colorado General Assembly provided the CWCB the authority and ability to hold Storage Space in the Chatfield Project and to contract with, and allocate storage to, local entities who will utilize the reservoir Storage Space among

other powers and duties established in section 37-60-120.1, C.R.S. Over time, the Colorado General Assembly has appropriated more than \$62 million for the CWCB to retain Storage Space in the Reallocation Project. On October 15, 2015, the CWCB entered into a Water Provider Agreement with CDNR for 7,057 acre-feet of Storage Space in Chatfield Reservoir (the "CWCB Water Provider Agreement"). The CWCB Water Provider Agreement with CDNR has been amended to reflect sales of Storage Space to third parties prior to the sale contemplated by this Agreement.

1.11. The implementation costs for the Reallocation Project are 100% non-federal. The October 2017 estimate of all project implementation costs is \$171,000,000 ("Total Estimated Project Costs").

1.12. The non-Federal sponsor, CDNR, is responsible for construction and operational costs associated with the Reallocation Project. The Colorado Division of Parks and Wildlife currently operates and manages Chatfield State Park and associated facilities around Chatfield Reservoir. Each of the Water Providers entered into separate Water Provider Agreements with CDNR to work collaboratively with the CDNR and bear all costs of the mitigation and modification, and take the lead role in design and construction. The Water Providers formed the Chatfield Reservoir Mitigation Company ("CRMC"), a Colorado nonprofit corporation, in October 2015 to be responsible for implementation of the environmental mitigation and recreation modification activities necessary to implement the Reallocation Project. The USACE's involvement in these efforts is limited to oversight, review, and approval.

1.13. As described in Article II.F of the Water Storage Agreement, CDNR is responsible for annual Operation, Maintenance, Repair, Rehabilitation, Reconstruction and Replacement ("O&M-RRR&R") payments to the USACE in an amount proportionate to the Reallocation Project.

1.14. CRMC is funded by regular assessments collected from the Water Providers, its members. CRMC assessments are based on the number of membership units ("CRMC Units") each member owns. Each CRMC Unit corresponds to one (1) acre-foot of Storage Space in the Reallocation Project.

1.15. Purchaser wishes to acquire long-term future storage for its renewable water supplies.

1.16. By this Agreement, the parties provide for the Purchaser's acquisition of 500 acre-feet of Storage Space in the Reallocation Project from the CWCB, for Purchaser's exclusive ownership and use, by means of a single acquisition of 500 acre-feet of the CWCB's existing Storage Space under the CWCB Water Provider Agreement.

For and in consideration of the premises and the mutual covenants, conditions, and promises herein, the parties agree as follows:

2. Definitions. Terms defined in Article I of the Water Storage Agreement and used in this Agreement shall have the same meaning as in the Water Storage Agreement unless further defined in this Section 2.

2.1. *Base Water Charge* means the base cost per acre-foot of the Dominion Storage Space to be acquired pursuant to this Agreement. The Base Water Charge shall be \$8,300.97 per acre-foot. The Base Water Charge is determined by dividing the Total Estimated Project Costs (\$171,000,000) by the total number of acre-feet in the Reallocation Project (20,600).

2.2. *CRMC Assessments* means the amount charged by the CRMC to support the CRMC operations. CRMC Assessments are charged by the CRMC on a pro rata basis annually. CRMC Assessments may change over time as the CRMC's duties change based on the status of the Reallocation Project.

2.3. *Dominion Storage Space* means the 500 acre-feet in Chatfield Reservoir that will be assigned to Purchaser pursuant to this Agreement.

2.4. *Effective Date.* The Effective Date means the date that is the Loan Effective Date under the State of Colorado Intergovernmental Loan Contract between CWCB and Purchaser CT2020-3122 (the "Loan Contract."). If the Loan Contract fails to be fully executed and delivered to Purchaser, this Agreement shall be null and void, and neither party shall have any rights or obligations hereunder.

2.5. *Final Project Cost* means the total amount paid to implement the Reallocation Project in accordance with the Water Storage Agreement at the end of the period of construction of the Reallocation Project as defined in the Water Storage Agreement.

2.6. *O&M-RRR&R* means the operations and maintenance and repair, rehabilitation, reconstruction, and replacement costs of Chatfield Reservoir as further defined in Article II.F of the Water Storage Agreement.

2.7. *Reconciled Payment Obligation* means the Final Project Cost of the Reallocation Project determined following final completion of the Reallocation Project. The Final Project Cost of the Reallocation Project will be compared to the Base Water Charge and the balance shall constitute the Reconciled Payment Obligation.

2.8. *Storage Space* means storage volume in acre-feet in Chatfield Reservoir. Storage Space does not refer to a specific water right, rather, the term refers to the right to Storage Space in Chatfield Reservoir wherein the Purchaser and other Water Providers may store their respective water rights.

2.9. *Water Storage Agreement* means the Agreement Between the Department of the Army and the Colorado Department of Natural Resources for Reallocation of Water Storage Space, Recreation Modifications, and Compensatory Mitigation Features at the Chatfield Dam and Reservoir, Colorado dated October 9, 2014, by which CDNR acquired the right to use for water storage purposes the 20,600 acre-feet of Storage Space referenced above, subject to the terms stated therein.

2.10. *Water Provider Agreement* means the agreements entered into between the Colorado Department of Natural Resources and each Water Provider that has agreed to take on the responsibility to pay for some portion of the Reallocation Project and assume the rights and responsibilities of CDNR under the Water Storage Agreement in exchange for Storage Space in Chatfield Reservoir.

3. Acquisition. Purchaser will acquire the Dominion Storage Space in one lump sum purchase, subject to the following terms:

3.1. *Assumption.* Purchaser will assume and accept all of the CWCB's rights and obligations pursuant to the Water Storage Agreement to the extent applicable to the Dominion Storage Space.

3.2. *Assignment.* CWCB will execute a partial assignment granting all of the CWCB's rights and obligations pursuant to the Water Storage Agreement to the extent applicable to the Dominion Storage Space.

3.3. *Payment Amount.* The total consideration for acquisition of the Dominion Storage Space is \$4,150,485.00 (the "Purchase Price"), comprising the Base Water Charge for the volume of the Dominion Storage Space. The parties recognize that the Reallocation Project has not been completed and therefore the Final Project Cost has not yet been determined and therefore the amount set forth in this paragraph does not include the Reconciled Payment Obligation. Accordingly, Purchaser will be responsible to pay any Reconciled Payment Obligation attributable to the Dominion Storage Space Purchase subject to the terms of the Dominion Water Purchase Agreement. The parties acknowledge and agree that the Purchase Price will be funded entirely by the proceeds of the loan made pursuant to the Loan Contract (the "Loan") which proceeds will be distributed to Dominion's Escrow Agreement as required by the Dominion Water Provider Agreement. Accordingly, Purchaser shall not be required to pay any part of the Purchase Price directly to CWCB at Closing.

3.4. *Closing.* The closing of the transaction under this Agreement ("Closing") will be held on a mutually agreeable day and time within ninety (90) days after the Effective Date. Unless otherwise agreed by the parties, the Closing will be facilitated by the parties over five phases. All documents and deliveries may

be signed or conducted in counterparts or on separate days to facilitate efficient document transfers.

5.4. CWCB Warranties Regarding Water Provider Agreement. The CWCB has had exclusive ownership of the Dominion Storage Space since entering a Water Provider Agreement with CDNR on October 15, 2015. During Closing, Purchaser will enter into the Dominion Water Provider Agreement in a form reasonably acceptable to Purchaser and in a form substantially similar to all other Water Provider Agreements. In connection therewith, CWCB provides the following affirmations, representations and warranties with respect to the CWCB Water Provider Agreement have been fulfilled:

5.4.1. The CWCB has remained current in its payments of all obligations set forth in section IV of the CWCB Water Provider Agreement.

5.4.2. The CWCB has not been in a state of default under the CWCB Water Provider Agreement at any time since its execution.

5.4.3. Pursuant to section VI. Paragraph J. of the CWCB Water Provider Agreement, the CWCB received notice from CDNR that the Total Project Costs were estimated to exceed the original One Hundred Thirty-Four Million

Dollar (\$134,000,000) estimate by more than ten percent (10%) and that the CWCB had the right to terminate the Water Provider Agreement and relinquish its pro rata share of the Storage Space. The estimate at the time of the notice was one hundred seventy-one million dollars (\$171,000,000). The CWCB declined to exercise its right to relinquish its ownership interest and fully funded its escrow account with the appropriate pro rata share of the estimated increase in Total Project Costs in accordance with the CWCB Water Provider Agreement. Accordingly, Purchaser shall not have a right to terminate the Dominion Water Provider Agreement pursuant to section VI. Paragraph J. of the Dominion Water Provider Agreement.

5.4.4. Pursuant to section III, Paragraph D.1 of the CWCB Water Provider Agreement, the CWCB has provided notice of this Purchase Agreement to the other Water Providers to afford them the opportunity to exercise their right of first refusal. The time for all Water Providers to exercise their right of first refusal has passed and none have exercised the right.
