The NPBRT has decided to create two subcommittees to dig into the details of the BIP update. One of those subcommittees will focus on Environment and Recreation (E&R). Many of you were stakeholders or contacts for projects proposed for non-consumptive or mixed non-consumptive/consumptive projects in the 2015 NPBRT BIP. In addition, you may well have recommendations for projects to be added to the existing list. There may be other voting members of the Roundtable on the subcommittee as well, which will be determined soon by Ty Wattenberg, our Chair.

Kara Sobieski will be contacting you with a Doodle poll to determine when we can meet to start the work. These meetings will be held virtually due to the current COVID-19 restrictions. The work of this subcommittee will be limited to developing recommendations on projects and other aspects of the BIP update which will then be presented to the full roundtable for consideration and potential adoption.

Kara will lead our meeting. The materials she had created for the May meeting of the full Roundtable (which was cancelled) are attached. Once we have our first meeting date determined, please plan have your copy of the 2015 BIP available and review the attached materials in preparation for the meeting.

Regards,
Barbara Vasquez
