

Colorado River Subcommittee formerly the DCP/DM Workgroup: Workgroup Meeting next Wednesday July 1 at 1:30 PM

All,

I would like to invite you to a subcommittee Zoom meeting next **Wednesday July 1 at 1:30 PM** at the link below. I apologize for the late notice, but several schedules are conspiring to limit the available windows.

Historically, we started this group to look into DCP / DM related issues affecting the SWBRT. We had historically met just ahead of our in person SWBRT meetings until the whole COVID-19 restrictions changed all meeting formats. Back in April this group was scheduled separately from our virtual SWBRT so I volunteered to set this one up ahead of the July 23 SWBRT for Ed & Mike so hope you can make it next week. I'm also trying to avoid the week of the July 16 CWCB meeting and some other local water meetings. The proliferation of Zoom meetings has been astounding and a mixed blessing.

Several items I'll have on an agenda that I'll get out late this week will include changing the name of the subcommittee to "Colorado River Subcommittee" (thanks Laura) to reflect the wide ranging related topics. We also need to select a new Subcommittee Chair as Mike wants to transition out of this duty and Ed is focused on the full SWBRT and CWP/BIP update.

I'd like to hear about other topics from you relative to the CWCB workgroup updates and other current CR activities & topics. WAM activities in the Grand Valley (<https://www.aspenjournalism.org/2020/05/29/western-colorado-water-purchases-stir-up-worries-about-the-future-of-farming/>) seems to be one worth discussing. I'll add an item for the group to discuss how they want to go forward scheduling meetings, duration, picking topics and presenters we should seek.

Laura will send out to the full Roundtable email list and it will be open to all. Laura has also offered to help run the meeting which we can record if others are interested.

Please send me your topic ideas and hope to see you there.
