

Colorado – Kendall Rehabilitation Improvements Project POGG1 2019-2445

November 2, 2018

Kendall Reservoir Company Attn: Harold Teff, President 977 Mancos Way Fruita, CO 81521

Dear Grantee:

We are pleased to inform you that the Colorado Department of Natural Resources, Colorado Water Conservation Board (CWCB) has approved your application for funding pursuant to the WSRF Grant Program ("Program") in the amount of \$18.900.00. This letter authorizes you to proceed with the Investigations & Engineering Design of Kendall Rehabilitation Improvements Project ("Project") in accordance with the terms of this Grant Award Letter.

Attached to this letter are the terms and conditions of your Grant. Please review these terms and conditions, as they are requirements of this Grant to which you, Kendall Reservoir Company, agree by accepting the Grant Funds.

The WSRF Criteria & Guidelines can be located on our website for additional information.

If you have any questions or concerns regarding the project, please contact Craig Godbout, Project Manager at 303-866-3441 or at Craig.Godbout@state.co.us. Please send the 6-month progress reports and invoices directly to the Project Manager and cc me at <u>Dori.vigil@state.co.us</u>.

Thank you.

Sincerely,

//s//

Doriann Vigil Program Assistant II O 303-866-3441 ext. 3250 1313 Sherman Street, Rm. 719, Denver, CO 80203 Dori.vigil@state.co.us / cwcb.state.co.com

The Reservoir Company and US Forest Service have a and coordinate regularly to maintain access to and condition of the reservoir. e conducted an inspection of Kendall Dam in June 2016 and identified oving the condition and safety of the structure and extending the useful life of ort). Conditions observed during the inspection resulted in an overall rating of tisting storage level of zero storage. The zero storage restriction has since hange in the dam's classification from a jurisdictional dam to a non-jurisdictional n of the reservoir still need to occur to support the agricultural and recreational clude field survey, investigation and testing, planning and engineering design uction drawings and specifications for construction of the identified dam						
<b>Objectives:</b> (List the ob	vjectives of the project) g services to develop construction drawings and specifications to rehabilitate						
the Kendall Reservoir dam							
	Tasks						

#### Task 1 - Conduct Field Investigations

Description of Task:

- 1. Conduct field survey to support the engineering design
- 2. Conduct geotechnical survey and soils analysis

Method/Procedure:

1. Retain field services to investigate the outlet pipe, develop site survey data and topography, and geotechnical surveys and soils analysis to support the engineering designs.

Grantee Deliverable: (Describe the deliverable the grantee expects from this task)

Site-specific data that will inform the detailed engineering designs for the necessary reservoir rehabilitation.

- 1. Test fill results, updated leak data
- 2. Soil survey results

CWCB Deliverable: (Describe the deliverable the grantee will provide CWCB documenting the completion of this task)

Specific survey reports will be included in the engineering drawings and specifications package for the reservoir rehabilitation design.

COLORADO Colorado Water Conservation Board Department of Natural Resources

#### Tasks

Provide a detailed description of each task using the following format:

# Task 2 - Engineering Design and Construction Drawings and Specifications Package (Bid Documents, Technical Only)

Description of Task:

- 1. Hire an engineering firm to assist in completion of the project
- 2. Develop 60% Design Drawings
- 3. Meet with the USFS and Reservoir owners to obtain buy-in and support of the 60% Design
- 4. Coordinate and communicate with the US Forest Service regarding the project permitting and schedule (access, etc.)
- 5. Develop 100% Design Drawings and Specifications for Construction
- 6. Develop Engineer's Estimate of Probable Construction Costs

#### Method/Procedure:

- 1. Communicate within the ownership group to develop plans and objectives for the project.
- 2. Identify and retain the engineering firm best capable to develop the design drawings.
- 3. Conduct a site visit and meet with the engineering firm to provide information and answer questions.
- 4. Meet with US Forest Service representatives to assure easement requirements are met and any requirements are satisfied. Inform the engineering firm about any design, access, and/or construction restrictions, etc.

Grantee Deliverable: (Describe the deliverable the grantee expects from this task)

1. 100% Design Drawings and Technical Specifications for the reservoir rehabilitation.

2. Permitting documents and access recommendations from USFS

CWCB Deliverable: (Describe the deliverable the grantee will provide CWCB documenting the completion of this task)

- 1. 100% Design Drawings and Technical Specifications for the reservoir rehabilitation.
- 2. Construction Cost estimate based upon final design.
- 3. Copy of engineering documents
- 4. Status on permitting and access
- 5. Status on contracting and processes

## Tasks

Provide a detailed description of each task using the following format:

Task 3 – Reservoir Leak Test and Project Management/Grant Administration

Description of Task:

- 1. Conduct a test fill of the reservoir for leak and operational analysis
- 2. Provide Grant Administration and Project Management of the engineering investigations and design

Method/Procedure:

1. Conduct a reservoir leak test to determine the water losses from the reservoir and locations.

Grantee Deliverable: (Describe the deliverable the grantee expects from this task)

1. Leak Test Data

CWCB Deliverable: (Describe the deliverable the grantee will provide CWCB documenting the completion of this task)

- 1. Leak Test Summary report
- 2. Invoice and Progress Reporting Submittals to CWCB

### **Budget and Schedule**

**Exhibit B - Budget and Schedule:** This Statement of Work shall be accompanied by a combined <u>Budget</u> and <u>Schedule</u> that reflects the Tasks identified in the Statement of Work and shall be submitted to CWCB in <u>excel format</u>. A separate <u>excel formatted</u> Budget is required for engineering costs to include rate and unit costs.

## **Reporting Requirements**

**Progress Reports:** The grantee shall provide the CWCB a progress report every 6 months, beginning from the date of issuance of a purchase order, or the execution of a contract. The progress report shall describe the status of the tasks identified in the statement of work, including a description of any major issues that have occurred and any corrective action taken to address these issues. The CWCB may withhold reimbursement until satisfactory progress reports have been submitted.

**Final Report:** At completion of the project, the grantee shall provide the CWCB a Final Report on the grantee's letterhead that:

- Summarizes the project and how the project was completed.
- Describes any obstacles encountered, and how these obstacles were overcome.
- Confirms that all matching commitments have been fulfilled.
- Includes photographs, summaries of meetings and engineering reports/designs.

#### **Payments**

Payment will be made based on actual expenditures, must include invoices for all work completed and must be on grantee's letterhead. The request for payment must include a description of the work accomplished by task, an estimate of the percent completion for individual tasks and the entire Project in relation to the percentage of budget spent, identification of any major issues, and proposed or implemented corrective actions.

The CWCB will pay the last 10% of the <u>entire</u> water activity budget when the Final Report is completed to the satisfaction of CWCB staff. Once the Final Report has been accepted, and final payment has been issued, the water activity and purchase order or contract will be closed without any further payment. Any entity that fails to complete a satisfactory Final Report and submit to CWCB within 90 days of the expiration of a purchase order or contract may be denied consideration for future funding of any type from CWCB.

## **Performance Requirements**

Performance measures for this contract shall include the following:

(a) Performance standards and evaluation: Grantee will produce detailed deliverables for each task as specified. Grantee shall maintain receipts for all project expenses and documentation of the minimum inkind contributions (if applicable) per the budget in Exhibit B. Per Grant Guidelines, the CWCB will pay out the last 10% of the budget when the final deliverable is completed to the satisfaction of CWCB staff. Once the final deliverable has been accepted, and final payment has been issued, the purchase order or grant will be closed without any further payment.

(b) Accountability: Per the Grant Guidelines full documentation of project progress must be submitted with each invoice for reimbursement. Grantee must confirm that all grant conditions have been complied with on each invoice. In addition, per the Grant Guidelines, Progress Reports must be submitted at least once every 6 months. A Final Report must be submitted and approved before final project payment.
(c) Monitoring Requirements: Grantee is responsible for ongoing monitoring of project progress per Exhibit A. Progress shall be detailed in each invoice and in each Progress Report, as detailed above. Additional inspections or field consultations will be arranged as may be necessary.

(d) Noncompliance Resolution: Payment will be withheld if grantee is not current on all grant conditions. Flagrant disregard for grant conditions will result in a stop work order and cancellation of the Grant Agreement.

**EXHIBIT B - BUDGET AND SCHEDULE** 

Date: 7-30-18

Water Activity Name: Investigations & Engineering Design of Kendall Reservoir Rehabilitation Improvements

Grantee Name: Kendall Reservoir Company

<u>Γask No.<sup>(1)</sup></u>	<u>Description</u>	<u>Start Date<sup>(2)</sup></u>	End Date	<u>Matching Funds</u> (cash & in-kind) <sup>(3)</sup>	<u>WSRF Funds</u> (Basin & Statewide combined) <sup>(3)</sup>	<u>Total</u>
1	Conduct Field Investigations	11/1/2018	8/1/2019	\$0.00	\$4,900.00	\$4,900.00
2	Engineering Design and Construction Drawings and Specifications Package	6/1/2019	9/1/2019	\$8,200.00	\$14,000.00	\$22,200.00
3	Leak testing and Grant Administration	11/1/2018	11/30/2019	\$2,300.00	\$0.00	\$2,300.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00
						\$0.00
			Total	\$10,500.00	\$18,900.00	\$29,400.00

(1) The single task that include costs for Grant Administration must provide a labor breakdown (see Indirect Costs tab below) where the total WSRF Grant contribution towards that task does not exceed 15% of the total WSRF Grant amount.

(2) Start Date for funding under \$100K - 45 Days from Board Approval; Start Date for funding over \$100K - 90 Days from Board Approval.

(3) Round values up to the nearest hundred dollars.

• Reimbursement eligibility commences upon the grantee's receipt of a Notice to Proceed (NTP)

• NTP will not be accepted as a start date. Project activities may commence as soon as the grantee enters contract and receives formal signed State Agreement.

The CWCB will pay the last 10% of the entire water activity budget when the Final Report is completed to the satisfaction of the CWCB staff project manager. Once the Final Report has been accepted, the final payment has been issued, the water activity and purchase order (PO) or contract will be closed without any futher payment. Any entity that fails to complete a satisfactory Final Report and submit to the CWCB with 90 days of the expiration of the PO or contract may be denied consideration for future funding of any type from the CWCB.

• Additonally, the applicant shall provide a progress report every 6 months, beginning from the date of contract execution
