Ladies and Gentlemen:

We are attorneys admitted to practice in the State of Colorado and we have acted as general counsel to the **DENVER SOUTHEAST SUBURBAN WATER AND SANITATION DISTRICT** (the "District"), of the State of Colorado, which has entered into a Loan Contract (as hereinafter defined) with the **COLORADO WATER CONSERVATION BOARD** ("CWCB"), and have acted as such in connection with the authorization, execution and delivery by the District of its Loan Contract, Promissory Note and Security Agreement (as hereinafter defined).

In so acting we have examined the Constitution and laws of the State of Colorado. We have also examined originals, or copies certified or otherwise identified to our satisfaction, of the following:

- (a) four Loan Contracts C150411A, C150411B, C150411C, and C150411D, dated as of August 13, 2014 (the "Loan Contracts"), by and between the District and CWCB;
- (b) the four Promissory Notes, all dated as of August 13, 2014 (the "Promissory Notes") and the four Security Agreements, all dated as of August 13, 2014 (the "Security Agreements"), executed by the District to evidence the loan from CWCB to the District;
- (c) the proceedings of the governing body of the District relating to the Loan Contracts, Promissory Notes and Security Agreements (the "Loan Documents") and the execution, issuance and delivery thereof to CWCB; and
- (d) all outstanding instruments relating to the bonds, notes or indebtedness of the District.

We have also examined and relied upon originals, or copies certified or otherwise authenticated to our satisfaction, of such other records, documents, certificates and other instruments, and

made such investigation of law as in our judgment we have deemed necessary or appropriate to enable us to render the opinions as expressed below.

Based upon the foregoing, we are of the opinion that:

- (1) The District is a quasi-municipal corporation and political subdivision of the State of Colorado with full legal right and authority to execute the Loan Documents.
- (2) The proceedings of the District's governing body approving the Loan Documents and authorizing their execution, issuance and delivery on behalf of the District have been duly and lawfully adopted and approved in accordance with applicable Colorado law, at meetings duly called pursuant to necessary public notice and held in accordance with applicable Colorado law, and at which quorums were present and acting throughout.
- (3) To the best of our knowledge, after such investigation we have deemed appropriate, there are no provisions in the Colorado Constitution or any applicable state or local law of any governmental agency having competent jurisdiction over the District that prevent the Loan Documents from binding the District, subject to the application of equitable principles, and to the reasonable future exercise of the State of Colorado of the police power inherent in the sovereignty of the State of Colorado and its governmental bodies.

This opinion is rendered on the basis of the laws of the State of Colorado as enacted and construed on the date hereof. We express no opinion as to any matter not set forth in the numbered paragraphs herein.

Yours truly,

Re: Denver Southeast Suburban Water and Sanitation District -
Parity Calculations in Relation to the 2014 CWCB Water Project
Loan Program - \$9,926,280 Loan – Parity Certificate

Dear Ms. Mason:

This report summarizes the results of procedures performed related to certain additional covenants and requirements related to the above referenced loan. In addition to the 2014 Colorado Water Conservation Board Loan (CWCB Loan), the District also has outstanding its 2002 and 2005 Colorado Water Resources and Power Development Authority Loans (CWRPD Loans) and its 2010 Wells Fargo Enterprise Revenue Refunding Note (Wells Fargo Note).

The CWCB Loan requires that the District's net revenues for any 12 consecutive months out of the 18 months immediately preceding the date of issuance of any parity debt are sufficient to pay its annual operating and maintenance expenses, annual debt service on all outstanding indebtedness having a lien on pledged revenue, and all required deposits to any reserve funds required by any lenders of any indebtedness having a lien on pledged revenues. Additionally, no more than 10% of total revenues may originate from tap and/or connection fees.

The CWRPD Loans require that no obligations on a parity with the CWRPD Loans may be issued unless the net revenues for any 12 consecutive months out of the 18 months preceding the month in which such obligations are to be issued are at least equal to the sum of 110% of the maximum annual debt service of the CWRPD Loans and 100% of the maximum annual debt service of all other indebtedness. Additionally, the 2005 CWRPD loan requires that the amount available for debt service be reduced by one half of the average annual total tap fees, net of cost recovery payments, for the three prior years.

The Wells Fargo Note requires that the District must meet a minimum pro forma debt service coverage ratio of 110% in each of the previous two fiscal years, calculated by using the new pro forma debt service (existing debt plus new debt) as the denominator and pledged revenues (net revenues – available for debt service) as the numerator.

The calculations for the additional debt covenants are displayed on Exhibit A. Financial information used in these calculations was obtained from the District's 2012 and 2013 audited financial statements. The most restrictive covenant of each loan program has been used for these calculations. Therefore, annual debt service has been calculated at 110% and tap/connection fee revenue has been reduced by 50% of the average annual total tap fees, net of cost recovery payments, for the three prior years. Based upon these calculations, the District was able to pay all its annual operating expenses and meet its debt service obligations in 2012 and 2013, with excess revenues of \$2,434,261 and \$1,448,714, respectively. The District had additional debt capacity of \$1,759,817 and \$1,470,357 in 2012 and 2013, respectively.

Exhibit B provides calculations based only on the covenants for the 2014 CWCB Loan. Based upon these calculations, the District was able to pay all its annual operating expenses and meet its debt service obligations in 2012 and 2013, with excess revenues of \$2,601,965 and \$1,682,758, respectively. The District had additional debt capacity of \$2,198,395 and \$1,943,511 in 2012 and 2013, respectively.

We were not engaged to, and did not conduct, an examination in accordance with generally accepted auditing standards in the United States of America, the objective of which would be the expression of an opinion on the financial statements of the District. Accordingly, we do not express such an opinion. We performed our engagement as a consulting service under the American Institute of Certified Public Accountants' ("AICPA") Statement of Standards for Consulting Services. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are not independent with respect to Denver Southeast Suburban Water and Sanitation District.

1. The first thing I noticed when I stepped out of the plane was the cold, crisp air. It felt like a fresh blanket after a long, hot journey. The ground below was a patchwork of green fields and small villages, each with its own unique charm. The sun was just rising, painting the sky in soft, golden hues. I took a deep breath, feeling the world around me. It was a beautiful sight, and I knew I was in for a great experience. The first few days were a mix of excitement and nervousness. I had heard so much about the place, and now I was finally here. The people were friendly and welcoming, and the food was delicious. I was lucky to have found a great place to stay, and I was looking forward to exploring everything. The first few days were a mix of excitement and nervousness.
