Re: Davis Point Pipeline
Pay Request #3 (final)
Grand Contract Number POGG1, PDAA,202100002073

Dear Mr. Funk:

Project is complete as of the above date. Pipeline and all structures were completed as of January 11, 2021. Installation of the replacement fencing completed the entire project. One design issue was experienced during construction; upon on-site consultation with engineer two additional 22-degree fittings were required to best position the pipeline within the confines of the ditchbed. Finished photos were included with the interim report dated January 11, 2021

Sincerely,

Linda S. Hansen

Linda S. Hansen, Secretary
