AGENDA ITEM: Consent Agenda Item 4. May 19-20, 2020 Board Meeting - Limited Use License - The Pint Room

Background:

As the non-federal sponsor for the Chatfield Downstream Channel Construction Project, the CWCB owns and operates a federally constructed flood control project from the outlet of Chatfield Reservoir to the confluence of Bear Creek. The CWCB has also developed lands management and access processes. The Board has authority to grant requests for easements and special use permits in the CWCB right-of-way. A 1998 Master Recreation Agreement with South Suburban Parks and Recreation covers most of the activity. However, periodically there are other requests to access the CWCB-owned parcels.

The CWCB also offers the opportunity for Limited Use Licenses to be issued, and in this case it was deemed to be the ideal method of granting The Pint Room use of CWCB property. This license will provide the CWCB a sufficient level of flexibility in determining what terms and conditions are necessary for The Pint Room's continued use of the land over multiple years, while undeniably retaining the CWCB's ability to revoke the license. It is recommended that a license be issued for no longer than three years, due to the uncertain nature of the restaurant industry.

Discussion:

The Pint Room received a one-time Special Use Permit in 2020 for use of the CWCB-owned outdoor space adjacent to the restaurant, and they reached out to staff on February 23, 2021 to request another permit for the 2021 summer months. After speaking with the Attorney General's office, it was determined that a Limited Use License would be more appropriate to grant The Pint Room use of the space. This type of license would grant the CWCB the most flexibility, while also meeting the needs of The Pint Room.

Given that The Pint Room was hoping to have access to the outdoor space on April 1, but that we wouldn't be able to get Board approval until mid-May, staff and the Director made the decision to issue an Interim Limited Use License to cover the period from April 1, 2021 to May 10, 2021, under the condition that it would be brought before the Board at the May Board Meeting, at which time it could be modified or revoked, if necessary. This was deemed important given the struggles of the restaurant industry over the past

year and the importance of access to outdoor space for patrons to feel safe while eating out, which would hopefully lead to the greater success for this local business.

The Limited Use License, which will replace the Interim Limited Use License, will cover the dates of May 20, 2021 through November 30, 2021, and then it will cover the dates from April 1 through November 30 for 2022 and 2023, at which time it will expire, and The Pint Room will need to reapply for a new license.

Staff and the Director have been advised by the AG's office throughout the process and the license has been reviewed by the State Office of Risk Management, an office within the Department of Personnel and Administration (DPA). The Limited Use License is attached, along with a map of the site.

Requested Action:

Staff requests board approval of the Limited Use License for The Pint Room.

Limited Use License Application

In the 1980s, the United States Army Corps of Engineers ("Corps") constructed the Chatfield Downstream Channel Improvement Project ("Chatfield Improvement Project"). The Chatfield Improvement Project consisted of improvements to the flow of water in the channel of the South Platte River in Arapahoe County, Jefferson County, and Douglas County to provide (1) drainage, (2) flood control, and (3) water flow. As part of its participation in the Chatfield Improvement Project, the Colorado Water Conservation Board ("CWCB") owns and controls approximately 7 miles of the South Platter River channel and floodplain through Littleton, Colorado in Arapahoe County. The CWCB management of this land is subject to the terms of a September 7, 1977 agreement and a January 29, 1980 agreement between the CWCB and the Corps, which obligate the CWCB to operate and maintain the Chatfield Improvement Project improvements. On May 5, 1997, the CWCB entered into a contract for and conveyance of easement with the South Suburban Parks and Recreation District that conveyed an easement to South Suburban for certain recreational facilities. The CWCB works in conjunction with its Chatfield Improvement Project partners, the South Suburban Parks and Recreation District, and the Mile High Flood District, to maintain the Chatfield Improvement Project and associated lands.

The Pint Room ("Applicant") located at 2620 W. Belleview Avenue, Littleton, Colorado has requested use of CWCB's Chatfield Improvement Project property depicted in the diagram attached here as Exhibit A.
