08:31:22 From Terri Fead (CWCB) to Everyone : If you have joined after the session began, please enter your name and affiliation in the Chat for our records. Thank you!

08:41:54 From Pam Cherry to Everyone : Pam Cherry - Morgan County

08:41:54 From Jeremy Hamer (Denver) to Everyone : Interested in more detail on Rule 8 please

08:43:05 From Andrew Fisher to Everyone : Can you further clarify the Rule 12.J revision. I understand it is not intended to circumvent FEMA rules, but I do not understand formally documenting a position that is less restrictive than federal regs.

08:56:23 From Pam Cherry to Everyone : Talk about Agriculture Structures a bit and what does that really mean to the regulations.

08:57:28 From Pam Cherry to Everyone : What if it is a shouse? shed/house and the residential portion is on a second floor?

09:01:39 From Jeremy Hamer (Denver) to Everyone : @pam check out this guidance: https://www.fema.gov/sites/default/files/2020-09/fema_agricultural-structures_policy-guidance_08-20-20.pdf

09:03:01 From Jeremy Hamer (Denver) to Everyone : and the FEMA Policy: https://www.fema.gov/sites/default/files/2020-09/fema_agricultural-structures-policy_02-2020.pdf

09:06:26 From Pam Cherry to Everyone : I have seen them. In rural Colorado we have numerous shouses with residence on second floor, ground floor is vented, etc, so exclusive?

09:06:54 From Stacey Thompson to Everyone : It would be helpful to discuss Rule 14 - Designation and Approval of changes to Regulatory Changes. For streams that are designated by the State, but not incorporated into the FEMA products, is the intent to update after projects (development or capital) or watershed level?

09:07:51 From Pam Cherry to Everyone : Good point - accessory structures ie garages, sheds, etc.

09:08:58 From Jeremy Hamer (Denver) to Everyone : Agreed to just reference FEMA

09:15:47 From Jim Kaiser, to Everyone : I'd like to join in on Marsha's and Stacey's conversation with Kevin and Terri

09:16:20 From carrie gudorf to Everyone : I would like to join in on that conversation as well. Mesa County has many "non-regulatory" floodplains.

09:16:45 From Jim Kaiser, to Everyone : Having Jeremy on the call would be good, too.

09:22:31 From Pam Cherry to Everyone : How would irrigation ditches be regulated?

09:23:07 From Pam Cherry to Everyone : An exception for agricultural channels?

09:28:48 From carrie gudorf to Everyone : great suggestion!

09:31:39 From Pam Cherry to Everyone : ok

09:32:13 From David to Everyone : It would be helpful to have further clarification in the definition of Flood Control Structure to specify facilities used to attenuate peak flows within floodplain modeling only. Otherwise this could imply all Stormwater detention ponds.

09:37:17 From carrie gudorf to Everyone : for the definition of floodplain: you might add Special in front of Flood Hazard Area. for SFHA

09:39:40 From Diana to Everyone : Will there be a definition for Accessory Structure?

09:39:59 From Robert Jacobs to Everyone : I think under purpose it is clear that these regulations apply to regulatory floodplains

09:41:42 From Matt Jones to Everyone : So is that more for hydrology?

09:41:43 From Jennifer Waters to Everyone : I wish "maintenance" would be included in the definition of floodplain management. This might help justify the expense and give credibility to the importance of maintaining drainage systems.

09:42:38 From Nicole Mosby to Marta Blanco Castano (CWCB) (Direct Message) : Is the July 9th meeting a repeat of this meeting or a meeting with additional information that attendees of this meeting need to attend as well?

09:43:30 From Marta Blanco Castano (CWCB) to Nicole Mosby (Direct Message) : Hi Nicole. The next meeting will be similar to this one where we go over the same presentation and information, to give those who maybe couldn't attend today a chance to discuss things with us

09:44:01 From Marta Blanco Castano (CWCB) to Nicole Mosby (Direct Message) : I'll try to remember to mention that later in the meeting so people don't think we'll talk about different information

09:46:04 From Monica Bortolini to Everyone : I think you should add a 3rd workshop. I have to leave at 10:00 today and can't make the next meeting.

09:46:42 From Matt Jones to Everyone : Will there be a recording of 7/29 meeting made available?

09:50:46 From Pam Cherry to Everyone : Lowest floor discussion interesting, especially in respect to shouses, where ground floor is for farm equipment, and upper floor for residence.

09:53:30 From Pam Cherry to Everyone : Lowest floor discussion interesting, especially in respect to shouses, where ground floor is for farm equipment, and upper floor for residence.

09:54:10 From Pam Cherry to Everyone : follow up. and we have barnominiums too.

09:54:15 From Pam Cherry to Everyone : follow up ok.

09:57:37 From Carrie Herbolsheimer to Everyone : In rule 7.G is there a need or desire to discuss the use of higher dimensional modeling to develop floodplains, or do you refer back to FEMA on use of hydraulic models

09:58:25 From Carrie Herbolsheimer to Everyone : my mic isn't up sorry, do we want to talk about 2D and 3D models

09:59:04 From Carrie Herbolsheimer to Everyone : OK, that sounds good

10:04:01 From Marsha Hilmes-Robinson (City of Ft. Collins) to Everyone : Kevin - Please add me to the extra discussion on 12 D, as well. Thanks.

10:06:21 From Todd Hepworth to Everyone : (5) references "dame" safety and should that be "dam"

10:07:07 From Todd Hepworth to Everyone : also, seems incorporation by reference should be at the start versus end of the rules

10:08:33 From Pam Cherry to Everyone : Rule 14 intro paragraph line 3, reference to "Board"

10:09:31 From Pam Cherry to Everyone : ok

10:09:46 From Pam Cherry to Everyone : No definition for board

10:14:55 From Marta Blanco Castano (CWCB) to Everyone : The draft rules are found here: <https://cwcb.colorado.gov/floodplain-rules-revisions>

10:17:17 From Audrey Prince - City of Lakewood to Everyone : If we have additional questions after this whom should we contact?

10:18:02 From Jeremy Hamer (Denver) to Everyone : Great work CWCB folks!

10:18:14 From Stacey Thompson to Everyone : Thank you!

10:18:15 From Jeremy Hamer (Denver) to Everyone : Thanks for involving us!

10:18:51 From Doug Mahan, CWCB to Everyone : Thank you, all, for joining us and providing feed back!

10:18:54 From Todd Hepworth to Everyone : thank you!

10:18:55 From Andy Stewart to Everyone : Thank you!

10:18:59 From Audrey Prince - City of Lakewood to Everyone : thank you!

10:19:00 From Matt Adams to Everyone : Thanks!

10:19:01 From Matt Jones to Everyone : Thank you

10:19:03 From Marsha Hilmes-Robinson (City of Ft. Collins) to Everyone : Thanks!
