Hi Kevin,

Since I am just learning about the Flood Plain rules I didn't feel comfortable asking this question during the workgroup meeting but I was wondering what the "flood plain surcharge" is?

I thought the meeting was very informative and the other questions I had were covered by the group. I like the idea of adding a definition for "Board".

Another suggestion would be to post on the website post the tentative timeline. I know you had it on your powerpoint but it might be of value to have a separate document on the website outlining the timeline and the opportunities for involvement in the rulemaking process.

Thanks,

Robert T. Sakata
