Chatfield Reallocation Project

Phase 2 Mitigation

Centennial Water & Sanitation District

Substantially Complete November 1, 2021

Project Description

The District provides water and wastewater services to the residents and businesses of Highlands Ranch in Douglas County. The District is participating in the Chatfield Reallocation Project in order to increase the permanence and reliability of its water supply. The Chatfield Reallocation Project will reallocate a total of 20,600 AF of storage space from the flood control pool into a multipurpose pool. The District is participating in the Reallocation Project by purchasing 6,922 AF of the reallocated storage and is proportionally responsible for all Reallocation Project cost.

The current cost estimate for the Reallocation Project is \$171 million. The District has been approved for a total of \$53,486,267 in CWCB loans for the Reallocation Project which are split into three loan contracts for Phase 1, Phase 2, and First Cost of Storage. Construction of the Reallocation Project is substantially complete. The Phase 2 loan contract funded the District's portion of the Mitigation costs of the Project.
