1. PARTIES

This Agreement is entered into by and between Grantee named on the Cover Page for this Agreement (the “Grantee”), and the STATE OF COLORADO acting by and through the State agency named on the Cover Page for this Agreement (the “State”). Grantee and the State agree to the terms and conditions in this Agreement.

2. TERM AND EFFECTIVE DATE

A. Effective Date

This Agreement shall not be valid or enforceable until the Effective Date, and the Grant Funds shall be expended by the Fund Expenditure End Date shown on the Signature and Cover Page for this Agreement. The State shall not be bound by any provision of this Agreement before the Effective Date, and shall have no obligation to pay Grantee for any Work performed or expense incurred before the Effective Date, except as described in §5.D, or after the Fund Expenditure End Date.

B. Initial Term

The Parties’ respective performances under this Agreement shall commence on the Agreement Performance Beginning Date shown on the Cover Page for this Agreement and shall terminate on the Initial Agreement Expiration Date shown on the Cover Page for this Agreement (the “Initial Term”) unless sooner terminated or further extended in accordance with the terms of this Agreement.

C. Extension Terms - State’s Option

The State, at its discretion, shall have the option to extend the performance under this Agreement beyond the Initial Term for a period, or for successive periods, at the same rates and under the same terms specified in this Agreement (each such period an “Extension

Term”). In order to exercise this option, the State shall provide written notice to Grantee in a form substantially equivalent to Sample Option Letter attached to this Agreement.

D. End of Term Extension

If this Agreement approaches the end of its Initial Term, or any Extension Term then in place, the State, at its discretion, upon written notice to Grantee as provided in **§14**, may unilaterally extend such Initial Term or Extension Term for a period not to exceed two months (an “End of Term Extension”), regardless of whether additional Extension Terms are available or not. The provisions of this Agreement in effect when such notice is given shall remain in effect during the End of Term Extension. The End of Term Extension shall automatically terminate upon execution of a replacement Agreement or modification extending the total term of this Agreement.

E. Early Termination in the Public Interest

The State is entering into this Agreement to serve the public interest of the State of Colorado as determined by its Governor, General Assembly, or Courts. If this Agreement ceases to further the public interest of the State, the State, in its discretion, may terminate this Agreement in whole or in part. A determination that this Agreement should be terminated in the public interest shall not be equivalent to a State right to terminate for convenience. This subsection shall not apply to a termination of this Agreement by the State for breach by Grantee, which shall be governed by **12.A.i.**

i. Method and Content

The State shall notify Grantee of such termination in accordance with **§14**. The notice shall specify the effective date of the termination and whether it affects all or a portion of this Agreement, and shall include, to the extent practicable, the public interest justification for the termination.

ii. Obligations and Rights

Upon receipt of a termination notice for termination in the public interest, Grantee shall be subject to the rights and obligations set forth in **§12.A.i.a.**

iii. Payments

If the State terminates this Agreement in the public interest, the State shall pay Grantee an amount equal to the percentage of the total reimbursement payable under this Agreement that corresponds to the percentage of Work satisfactorily completed and accepted, as determined by the State, less payments previously made. Additionally, if this Agreement is less than 60% completed, as determined by the State, the State may reimburse Grantee for a portion of actual out-of-pocket expenses, not otherwise reimbursed under this Agreement, incurred by Grantee which are directly attributable to the uncompleted portion of Grantee’s obligations, provided that the sum of any and all reimbursement shall not exceed the maximum amount payable to Grantee hereunder.

Any other term used in this Agreement that is defined in an Exhibit shall be construed and interpreted as defined in that Exhibit.

4. STATEMENT OF WORK

Grantee shall complete the Work as described in this Agreement and in accordance with the provisions of Exhibit A and Exhibit C. The State shall have no liability to compensate Grantee for the delivery of any goods or the performance of any services that are not specifically set forth in this Agreement.

5. PAYMENTS TO GRANTEE

A. Maximum Amount

Payments to Grantee are limited to the unpaid, obligated balance of the Grant Funds. The State shall not pay Grantee any amount under this Agreement that exceeds the Agreement Maximum shown on the Cover Page of this Agreement.

B. Payment Procedures

i. Invoices and Payment

- a. The State shall pay Grantee in the amounts and in accordance with the schedule and other conditions set forth in Exhibit A and Exhibit C.
- b. Grantee shall initiate payment requests by invoice to the State, in a form and manner approved by the State.
- c. The State shall pay each invoice within 45 days following the State's receipt of that invoice, so long as the amount invoiced correctly represents Work completed by Grantee and previously accepted by the State during the term that the invoice covers. If the State determines that the amount of any invoice is not correct, then Grantee shall make all changes necessary to correct that invoice.
- d. The acceptance of an invoice shall not constitute acceptance of any Work performed or deliverables provided under this Agreement.

ii. Interest

Amounts not paid by the State within 45 days of the State's acceptance of the invoice shall bear interest on the unpaid balance beginning on the 45th day at the rate of 1% per month, as required by §24-30-202(24)(a), C.R.S., until paid in full; provided, however, that interest shall not accrue on unpaid amounts that the State disputes in writing. Grantee shall invoice the State separately for accrued interest on delinquent amounts, and the invoice shall reference the delinquent payment, the number of day's interest to be paid and the interest rate.

iii. Payment Disputes

If Grantee disputes any calculation, determination or amount of any payment, Grantee shall notify the State in writing of its dispute within 30 days following the earlier to occur of Grantee's receipt of the payment or notification of the determination or calculation of the payment by the State. The State will review the information presented by Grantee and may make changes to its determination based on this review. The calculation, determination or payment amount that results from the State's review shall not be subject to additional dispute under this subsection. No payment subject to a dispute under this subsection shall be due until after the State has concluded its review, and the State shall not pay any interest on any amount during the period it is subject to dispute under this subsection.

iv. Available Funds-Contingency-Termination

The State is prohibited by law from making commitments beyond the term of the current State Fiscal Year. Payment to Grantee beyond the current State Fiscal Year is contingent on the appropriation and continuing availability of Grant Funds in any subsequent year (as provided in the Colorado Special Provisions). If federal funds or

funds from any other non-State funds constitute all or some of the Grant Funds, the State's obligation to pay Grantee shall be contingent upon such non-State funding continuing to be made available for payment. Payments to be made pursuant to this Agreement shall be made only from Grant Funds, and the State's liability for such payments shall be limited to the amount remaining of such Grant Funds. If State, federal or other funds are not appropriated, or otherwise become unavailable to fund this Agreement, the State may, upon written notice, terminate this Agreement, in whole or in part, without incurring further liability. The State shall, however, remain obligated to pay for Services and Goods that are delivered and accepted prior to the effective date of notice of termination, and this termination shall otherwise be treated as if this Agreement were terminated in the public interest as described in §2.E.

C. Matching Funds

Grantee shall provide Matching Funds as provided in §5.A and Exhibit A and Exhibit C.. Grantee's obligation to pay all or any part of any matching funds, whether direct or contingent, only extend to funds duly and lawfully appropriated for the purposes of this Agreement by the authorized representatives of Grantee and paid into Grantee's treasury or bank account. Grantee represents to the State that the amount designated "Grantee's Matching Funds" in Exhibit A and Exhibit C has been legally appropriated for the purposes of this Agreement by its authorized representatives and paid into its treasury or bank account.

D. Reimbursement of Grantee Costs

The State shall reimburse Grantee's allowable costs, not exceeding the maximum total amount described in Exhibit A and Exhibit C and §5.A for all allowable costs described in this Grant and shown in the Budget, except that Grantee may adjust the amounts between each line item of the Budget without formal modification to this Agreement as long as the Grantee provides notice to the State of the change, the change does not modify the total maximum amount of this Agreement or the maximum amount for any state fiscal year, and the change does not modify any requirements of the Work. However, any costs incurred by Grantee prior to the Effective Date shall not be reimbursed. Grantee's costs for Work performed after the Fund Expenditure End Date shown on the Signature and Cover Page for this Agreement, or after any phase performance period end date for a respective phase of the Work, shall not be reimbursable. The State shall only reimburse allowable costs described in this Agreement and shown in the Budget if those costs are:

- i. Reasonable and necessary to accomplish the Work and for the Goods and Services provided; and
- ii. Equal to the actual net cost to Grantee (i.e. the price paid minus any items of value received by Grantee that reduce the cost actually incurred).

E. Close-Out

Grantee shall close out this Award within 45 days after the Fund Expenditure End Date shown on the Signature and Cover Page for this Agreement. To complete close-out, Grantee shall submit to the State all deliverables (including documentation) as defined in this Agreement and Grantee's final reimbursement request or invoice. The State will withhold ten percent (10%) of allowable costs until all final documentation has been submitted and accepted by the State as substantially complete.

6. REPORTING - NOTIFICATION

A. Quarterly Reports

In addition to any reports required pursuant to §16 or pursuant to any other Exhibit, for any Agreement having a term longer than three months, Grantee shall submit, on a quarterly basis, a written report specifying progress made for each specified performance measure and standard in this Agreement. Such progress report shall be in accordance with the procedures developed and prescribed by the State. Progress reports shall be submitted to the State not later than five Business Days following the end of each calendar quarter or at such time as otherwise specified by the State.

B. Litigation Reporting

If Grantee is served with a pleading or other document in connection with an action before a court or other administrative decision making body, and such pleading or document relates to this Agreement or may affect Grantee's ability to perform its obligations under this Agreement, Grantee shall, within ten days after being served, notify the State of such action and deliver copies of such pleading or document to the State's Principal Representative identified on the Cover Page for this Agreement.

C. Performance and Final Status

Grantee shall submit all financial, performance and other reports to the State no later than 45 calendar days after the end of the Initial Term if no Extension Terms are exercised, or the final Extension Term exercised by the State, containing an evaluation and review of Grantee's performance and the final status of Grantee's obligations hereunder.

7. GRANTEE RECORDS

A. Maintenance

Grantee shall make, keep, maintain, and allow inspection and monitoring by the State of a complete file of all records, documents, communications, notes and other written materials, electronic media files, and communications, pertaining in any manner to the Work or the delivery of Services (including, but not limited to the operation of programs) or Goods hereunder. Grantee shall maintain such records for a period (the "Record Retention Period") of three years following the date of submission to the State of the final expenditure report, or if this Award is renewed quarterly or annually, from the date of the submission of each quarterly or annual report, respectively. If any litigation, claim, or audit related to this Award starts before expiration of the Record Retention Period, the Record Retention Period shall extend until all litigation, claims, or audit findings have been resolved and final action taken by the State. The State may notify Grantee in writing that the Record Retention Period shall be extended. For records for real property and equipment, the Record Retention Period shall extend three years following final disposition of such property.

B. Inspection

Grantee shall permit the State, the federal government, and any other duly authorized agent of a governmental agency to audit, inspect, examine, excerpt, copy and transcribe Grantee Records during the Record Retention Period. Grantee shall make Grantee Records available during normal business hours at Grantee's office or place of business, or at other mutually agreed upon times or locations, upon no fewer than two Business Days' notice from the State, unless the State determines that a shorter period of notice, or no notice, is necessary to protect the interests of the State.

C. Monitoring

The State will monitor Grantee's performance of its obligations under this Agreement using procedures as determined by the State. The federal government and any other duly authorized agent of a governmental agency, in its discretion, may monitor Grantee's performance of its obligations under this Agreement using procedures as determined by that governmental entity. The State shall have the right, in its sole discretion, to change its monitoring procedures and requirements at any time during the term of this Agreement. The State shall monitor Grantee's performance in a manner that does not unduly interfere with Grantee's performance of the Work.

D. Final Audit Report

Grantee shall promptly submit to the State a copy of any final audit report of an audit performed on Grantee's records that relates to or affects this Agreement or the Work, whether the audit is conducted by Grantee or a third party.

8. CONFIDENTIAL INFORMATION-STATE RECORDS

A. Confidentiality

Grantee shall keep confidential, and cause all Subcontractors to keep confidential, all State Records, unless those State Records are publicly available. Grantee shall not, without prior written approval of the State, use, publish, copy, disclose to any third party, or permit the use by any third party of any State Records, except as otherwise stated in this Agreement, permitted by law or approved in writing by the State. Grantee shall provide for the security of all State Confidential Information in accordance with all policies promulgated by the Colorado Office of Information Security and all applicable laws, rules, policies, publications, and guidelines.

B. Other Entity Access and Nondisclosure Agreements

Grantee may provide State Records to its agents, employees, assigns and Subcontractors as necessary to perform the Work, but shall restrict access to State Confidential Information to those agents, employees, assigns and Subcontractors who require access to perform their obligations under this Agreement. Grantee shall ensure all such agents, employees, assigns, and Subcontractors sign agreements containing nondisclosure provisions at least as protective as those in this Agreement, and that the nondisclosure provisions are in force at all times the agent, employee, assign or Subcontractor has access to any State Confidential Information. Grantee shall provide copies of those signed nondisclosure provisions to the State upon execution of the nondisclosure provisions.

C. Use, Security, and Retention

Grantee shall use, hold and maintain State Confidential Information in compliance with any and all applicable laws and regulations in facilities located within the United States, and shall maintain a secure environment that ensures confidentiality of all State Confidential Information wherever located. Grantee shall provide the State with access, subject to Grantee's reasonable security requirements, for purposes of inspecting and monitoring access and use of State Confidential Information and evaluating security control effectiveness. Upon the expiration or termination of this Agreement, Grantee shall return State Records provided to Grantee or destroy such State Records and certify to the State that it has done so, as directed by the State. If Grantee is prevented by law or regulation from returning or destroying State Confidential Information, Grantee warrants it will guarantee the confidentiality of, and cease to use, such State Confidential Information.

D. Incident Notice and Remediation

If Grantee becomes aware of any Incident, it shall notify the State immediately and cooperate with the State regarding recovery, remediation, and the necessity to involve law enforcement, as determined by the State. Unless Grantee can establish that none of Grantee or any of its agents, employees, assigns or Subcontractors are the cause or source of the Incident, Grantee shall be responsible for the cost of notifying each person who may have been impacted by the Incident. After an Incident, Grantee shall take steps to reduce the risk of incurring a similar type of Incident in the future as directed by the State, which may include, but is not limited to, developing and implementing a remediation plan that is approved by the State at no additional cost to the State. The State may adjust or direct modifications to this plan, in its sole discretion and Grantee shall make all modifications as directed by the State. If Grantee cannot produce its analysis and plan within the allotted time, the State, in its sole discretion, may perform such analysis and produce a remediation plan, and Grantee shall reimburse the State for the reasonable costs thereof.

E. Safeguarding PII

If Grantee or any of its Subcontractors will or may receive PII under this Agreement, Grantee shall provide for the security of such PII, in a manner and form acceptable to the State, including, without limitation, State non-disclosure requirements, use of appropriate technology, security practices, computer access security, data access security, data storage encryption, data transmission encryption, security inspections, and audits. Grantee shall be a "Third-Party Service Provider" as defined in §24-73-103(1)(i), C.R.S. and shall maintain security procedures and practices consistent with §§24-73-101 *et seq.*, C.R.S.

9. CONFLICTS OF INTEREST

A. Actual Conflicts of Interest

Grantee shall not engage in any business or activities, or maintain any relationships that conflict in any way with the full performance of the obligations of Grantee under this Agreement. Such a conflict of interest would arise when a Grantee or Subcontractor's employee, officer or agent were to offer or provide any tangible personal benefit to an employee of the State, or any member of his or her immediate family or his or her partner, related to the award of, entry into or management or oversight of this Agreement.

B. Apparent Conflicts of Interest

Grantee acknowledges that, with respect to this Agreement, even the appearance of a conflict of interest shall be harmful to the State's interests. Absent the State's prior written approval, Grantee shall refrain from any practices, activities or relationships that reasonably appear to be in conflict with the full performance of Grantee's obligations under this Agreement.

C. Disclosure to the State

If a conflict or the appearance of a conflict arises, or if Grantee is uncertain whether a conflict or the appearance of a conflict has arisen, Grantee shall submit to the State a disclosure statement setting forth the relevant details for the State's consideration. Failure to promptly submit a disclosure statement or to follow the State's direction in regard to the actual or apparent conflict constitutes a breach of this Agreement.

10. INSURANCE

All insurance policies required by this Agreement that are not provided through self-insurance shall be issued by insurance companies as approved by the State.

E. Primacy of Coverage

Coverage required of Grantee and each Subcontractor shall be primary and noncontributory over any insurance or self-insurance program carried by Grantee or the State.

F. Cancellation

All commercial insurance policies shall include provisions preventing cancellation or non-renewal, except for cancellation based on non-payment of premiums, without at least 30 days prior notice to Grantee and Grantee shall forward such notice to the State in accordance with §14 within seven days of Grantee's receipt of such notice.

G. Subrogation Waiver

All commercial insurance policies secured or maintained by Grantee or its Subcontractors in relation to this Agreement shall include clauses stating that each carrier shall waive all rights of recovery under subrogation or otherwise against Grantee or the State, its agencies, institutions, organizations, officers, agents, employees, and volunteers.

H. Public Entities

If Grantee is a "public entity" within the meaning of the Colorado Governmental Immunity Act, §§24-10-101, *et seq.*, C.R.S. (the "GIA"), Grantee shall maintain, in lieu of the liability insurance requirements stated above, at all times during the term of this Agreement such

The group will use the dam safety restricted list, Basin Identified Projects and Processes (IPPs), and stakeholder networks to identify reservoirs in need of infrastructure improvements. The Grantee will contact and work with the reservoir owners to find and secure funding for reservoir rehabilitation. The purpose of the working group will be to identify how possible municipal, environmental, and industrial interests may benefit from rehabilitating specific dams and that may be willing to assist with resources.

Project Objectives:

- Inform agricultural producers about critical water resource issues: infrastructure, grants and funding, conservation, efficiency, and water quality.
- Create a document that outlines the obstacles and benefits for rehabilitating agricultural reservoirs.
- Support multiple reservoir rehabilitation projects.

Tasks

Task 1 – Irrigation Assessment

Description of Task:

The Grantee will work with and provide funds to Custer County Conservation District to create, hire and train a district coordinator who will be charged with outreach and connection with irrigators on voluntary infrastructure assessment opportunities, grant management and capacity building. The coordinator will engage with water stakeholders in the District, schedule and lead or co-lead public meetings, prepare and distribute a quarterly e-newsletter, schedule on-site visits for producer infrastructure assessments, assist in hiring a qualified professional to conduct the infrastructure assessments and/or work with the USDA-NRCS to lead the assessments, work with the District board on identifying priorities and pursuing grant funding to address needs, prepare and manage budget(s), and lead or co-lead a broad visioning effort with the board and the community focused on identifying and pursuing a permanent source of funding for the District.

The Grantee will also be providing funds to the District to help accomplish the infrastructure assessments. At the present time, the District has identified assessment interest from irrigators in the following areas: Ten diversion structures on Grape Creek with additional interest on tributaries, 10 to 15 headgates and measuring devices which could also include waste gates where applicable, 25 sections of ditches where piping is desired or of interest, and field level irrigation improvements on 15 fields.

Method/Procedure:

The Grantee will work with the District board to prepare a job description, conduct interviews and hire a contract coordinator for the District. Once hired, funds will be provided as a cost-share with District funds to pay the coordinator for an anticipated 18-month contract period. The Grantee will work with the District and access NRCS expertise to help train the contract coordinator. Training will occur over several months.

The Grantee will assist the coordinator and the District in preparing initial outreach information and conducting meetings with irrigators in the Grape Creek watershed to explain, discuss and identify interested participants in the voluntary assessment project. One-on-one meetings with individual producers at their ranches will be part of this process and will help gather input from producers regarding specific infrastructure and improvement(s) needed. The Grantee will also be helping the District hire a consulting irrigation engineering expert to conduct the identified infrastructure assessments. A brief report summarizing findings and recommendations will be generated by the engineer for each participating producer. When the assessment process is complete, results will be aggregated and the Grantee will work with the coordinator to identify and pursue grants to help fund infrastructure improvements at those ranches that confirm interest in upgrading their system.

The Grantee will also be working with the coordinator and the board over the course of the project to expand outreach to all water stakeholders within the District on water topics of relevance and in working to secure more permanent funding for the coordinator position.

Tasks
Deliverable:
<ul style="list-style-type: none"> - Placement of a contract project coordinator at the District - Agendas and notes from working group meetings and outreach materials - Aggregate results of infrastructure assessments and estimated cost to implement improvements. - Document summarizing project components and possible future direction of like projects as identified by interest expressed by the board and stakeholders.
Tasks
Task 2 – Education and Outreach
Description of Task:
<p>Outreach will be conducted over two (2) years with half of the outreach occurring in year one and the other half in year two. Outreach will focus on the following topics:</p> <p><i>Irrigation Infrastructure, Discuss Opportunities to Improve and Fund Infrastructure.</i> The Grantee will discuss ditch and irrigation inventories that have taken place around the state and helping initiate pilot irrigation assessments in the Grape Creek Watershed. The Grantee will cover the different sources of funding available for infrastructure projects, the identified projects and processes (IPPs) for the basin roundtables, and provide guidance to agricultural producers on how to navigate different funding options with emphasis on synergizing and maximizing funding through multi-benefit projects.</p> <p><i>Efficiency and Conservation</i> – Outreach in this area will focus on how specific and regionally relevant efficiency improvements can help irrigators with diminished stream flows and snowpack. Specific issues such as soil moisture monitoring, irrigation scheduling, automated gated pipe, and other research will be communicated to attendees. In areas under severe water shortages, topics will include conservation, conservation programs, deficit irrigation and highlight practices and irrigated operations that have consumed less water without negative economic impacts.</p> <p><i>Regulation 85 and related water quality issues</i> – The Grantee will discuss Regulation 85, incentives for implementing voluntary Best Management Practices (BMPs) to manage nutrients (nitrogen and phosphorus), and the results of current and recent studies to better understand water quality issues related to agriculture.</p> <p><i>Ballot Initiatives and Water Projects</i> – The Grantee will discuss recent ballot initiatives by Conservancy and Conservation districts meant to address water resources issues. Describes these processes and how the process may be a tool to support other agricultural water projects.</p> <p>Thirty-six (36) Outreach Meetings / Presentations. These meetings will be held for producers. Meetings will include at least one in each of the Basins with additional meetings in the Colorado and the South Platte. Some of these meetings will also engage Basin Roundtables to strive for ongoing consistency and focus of messaging and programmatic implementation as outlined in the proposal. These events will connect with agriculture producers and other water stakeholders around the topics identified for focus in this task (see above).</p> <p>Twenty-four (24) Trainings/ Webinars / Mini- Workshops / Publications or Exhibit Booths. The Grantee will offer interactive engagement opportunities that educate producers on topics identified as the focus of this task (as outlined above) and better equip producers to pro-actively engage in integrated water planning, local water-related irrigation multi-benefit projects, demand management, storage recovery, agricultural sustainability in the face of diminishing irrigation water supplies, water quality issues, and other elements addressed in the state water plan.</p>
Method/Procedure:

Tasks
<p>Both organizations (CCA and CAWA) have developed an extensive network among farmers and ranchers throughout the state. Every year we meet with conservancy districts, ditches, county stock growers, conservation districts, and our member groups cover every county and all the major agricultural industries. Many of our member organizations have chapter affiliates throughout the state. Part of the purpose of CAWA is to communicate and coordinate between all of these groups. This network is essential for helping us determine which organization to engage and where to host events.</p> <p>Presentations: There are many agricultural entities with which we engage on an annual basis. The Grantee will be reaching out to them to gauge and cultivate interest in discussing any of the topics that are focused on during our outreach. Interests identified in initial conversations typically lead to outreach and innovation opportunities through meetings and presentations. Often initial presentations will be at an annual meeting or a board meeting, and will be followed by more in-depth outreach engagement as interest is spurred.</p> <p>Workshops/Trainings: For larger meetings, the Grantee will partner with CAWA member organizations, conservation districts, and conservancy districts. Working with those partner organizations, the Grantee will put together workshop and training programs that meet their goals and those of the local district or organization. Many of these meetings will be planned for the winter when agricultural producers are more available. However, some meetings can take place at other times of the year depending on the agricultural season. CCA, CAWA, and its member organizations will work with the local district to help advertise the event among the agricultural community.</p> <p>Webinars: Depending on the issue and time of year, webinars have been an effective method to engage the agricultural community. This format also allows the Grantee to focus on specific locations, or provide a platform for speakers that are unable to travel to the rural locations where they typically have presentations and host workshops.</p> <p>Publications: Similar to webinars, publications allow the Grantee another method to engage the agricultural community. Publications will address specific issues and opportunities related to irrigated agriculture and the multiple water-related issues that affect irrigators. Publications will be circulated throughout CAWA's and CCA's networks and our member organizations.</p>
Deliverable:
<ul style="list-style-type: none"> -As part of this outreach, the Grantee will track the number of agricultural water users they engage and the total number of irrigated acreages they cover. Workshops, trainings, and presentations will include a survey about the quality of the outreach, importance of information provided, and the Grantee will also ask attendees for the number of acres they irrigate. - The Grantee will provide a "lessons learned" from their outreach with agricultural producers. This will cover the outreach format to information on specific water related topics.

Tasks
Task 3 –Reservoir Rehabilitation Working Group
Description of Task:
<p>The Grantee will organize a working group that represents different stakeholder groups (agricultural, municipal, environmental, and industrial) to identify agricultural reservoir rehabilitation working group. The group will use the dam safety restricted list, Basin Identified Projects and Processes (IPPs), and stakeholder networks to identify reservoirs in need of infrastructure improvements. The Grantee will contact and work with the reservoir owners to find and secure funding for reservoir rehabilitation. The purpose of the working group will be to identify how possible municipal, environmental, and industrial interests may benefit from specific proposed projects and may be willing to assist with resources.</p>
Method/Procedure:

Tasks
<p>The group will be comprised of representatives of the agricultural, environmental, and industrial communities. The group will include representation from municipal water providers, water conservation and conservancy districts, the Colorado Department of Agriculture, Colorado Division of Water Resources, National Resources Conservation Service, and consulting firms.</p> <p>The first task of the group will be to develop criteria for understanding what do other stakeholder groups need in order to participate in rehabilitating reservoirs predominantly used for agriculture. What questions do environmental organizations need answered in order to participate in a project? What questions do municipal water providers need answered in order to participate? These criteria will be essential for when the Grantee contacts reservoir owners and helps the group understand what possible partners (if any) there are for potential projects. These criteria will be part of a document that outlines the benefits of reservoir rehabilitation to other stakeholder groups.</p> <p>The group will focus on reservoirs that predominantly serve irrigated agriculture. Recent projects like Kendall Reservoir in Mesa County, Panama Reservoir in Boulder County, and Vouga Reservoir in Saguache County provide discussion examples. We will reach out to reservoir owners on the restricted list the Basin Roundtables, and CAWA member organizations. The Grantee will be open to considering projects that have issues with sedimentation. The criteria developed will also be used for the “in-take” process when CAWA engages reservoir owners. The Grantee will contact reservoir owners, and any of those interested in seeking partnerships for rehabilitation will have a meeting with CAWA. The meeting will consist of CAWA learning more about the reservoir, its conditions, and asking questions developed by the working group to assess if the project has multiple benefits. Then the results will be reviewed at the next working group meeting to assess if the project has potential partners from different sectors and possible sources of funding.</p> <p>This task will also include an analysis of the current reservoirs with restrictions: their locations, and the storage capacity that is “lost” due to current restrictions. This will be included in the resulting document with criteria for multi-beneficial reservoir rehabilitation projects.</p> <p>The ultimate goal of this working group is to help organize competitive reservoir rehabilitation projects for funding over the two-year period</p>
<p>Deliverable:</p> <ul style="list-style-type: none"> -Agendas and notes from working group meetings -Document that includes criteria for achieving multi-benefit outcomes of agricultural reservoir rehabilitation projects. This document will also include analysis of the current reservoirs with storage restrictions, and other lessons learned throughout the process. -Resulting reservoir rehabilitation projects with either funding secured in the process of securing funding.

Tasks
<p>Task 4 – Grant Administration</p>
<p>Description of Task:</p> <p>This grant will be managed by the Colorado Cattlemen’s Association. The progress report shall describe the status of the tasks identified in the statement of work, including a description of any major issues that have occurred and any corrective action taken to address these issues.

Final Report: At completion of the project, the Grantee shall provide the CWCB a Final Report on the applicant's letterhead that:

- Summarizes the project and how the project was completed.
- Describes any obstacles encountered, and how these obstacles were overcome.
- Confirms that all matching commitments have been fulfilled.
- Includes photographs, summaries of meetings and engineering reports/designs.

The CWCB will pay out the last 10% of the budget when the Final Report is completed to the satisfaction of CWCB staff. Once the Final Report has been accepted, and final payment has been issued, grant will be closed without any further payment.

Payment

Payment will be made based on actual expenditures and must include invoices for all work completed. The request for payment must include a description of the work accomplished by task, an estimate of the percent completion for individual tasks and the entire Project in relation to the percentage of budget spent, identification of any major issues, and proposed or implemented corrective actions.

Project costs not covered by this or other grants are the responsibility of the Grantee. Project costs that are eligible for CWCB funds will be disbursed at the following percentages: 72% Water Plan Grant funds to 28% matching funds.

Costs incurred prior to the effective date of this contract are not reimbursable. The last 10% of the entire grant will be paid out when the final deliverable has been received. All products, data and information developed as a result of this contract must be provided to CWCB in hard copy and electronic format as part of the project documentation.
