Re: Request for Administration of the CWCB's Instream Flow Water Rights on Beaver Creek

Date: September 9, 2022

On behalf of the Colorado Water Conservation Board, I am requesting administration of the Board's instream flow water rights on the following segment of Beaver Creek, in Water District 37, to preserve the natural environment to a reasonable degree. Information about the specific ISF water right is shown below.

Case No.	Upper Terminus	Lower Terminus	Amount	Appropriation Date	WDID
75W2719	outlet Beaver Lake	confl Eagle River	4 (10/1 - 4/30) 12 (5/1 - 9/30)	5/1/1975	3702048

The BEAVER CREEK AT AVON, CO gage is located in the ISF reach and demonstrates that flow conditions are below the decreed ISF water right. We are requesting administration to ensure that water up to the full decreed amount of these water rights are made available based on the priority system. The effective date of this call is September 9, 2022 and the call is to be in effect until the end of the current irrigation year.

Signed:

Robert Viehl
Chief, Stream and Lake Protection Section
Colorado Water Conservation Board
(303) 866-3441 x3237

CC: Joe Zupancic, District 37 Water Commissioner
