### Water Plan Grant – Exhibit A

#### Statement of Work

#### Statement Of Work

<b>Date:</b>	<b>June 24, 2022</b>
<b>Name of Grantee:</b>	<b>Upper Arkansas Water Conservancy District</b>
<b>Name of Water Project:</b>	<b>Round Mountain Reservoir #2 Construction Project</b>
<b>Funding Source:</b>	<b>Water Plan Grant- Water Storage and Supply</b>

#### **Water Project Overview:**

The objective of this water project is to construct Round Mountain Reservoir #2, a new storage vessel in the Arkansas Basin. The feasibility study and the design have been completed and 80% construction drawings are in development. This grant is for the final engineering work, final survey, final design, and completed construction drawings, as well as the construction of a lined off-channel reservoir, diversion structure, pump station with wet well, and sediment forebay, creating 150 AF of new storage (equivalent to 1500 AF of domestic water supply) on a critical reach of Grape Creek in Custer County which is a tributary to the Arkansas River. This grant is for the construction of the reservoir on a parcel of land owned by Round Mountain Water and Sanitation District (RMWSD), drastically reducing permitting requirements.

This is a collaborative endeavor between Upper Arkansas Water Conservancy District (UAWCD) which serves over 70,000 constituents throughout the Upper Arkansas Basin, and RMWSD which serves approx. 1200 people locally in the towns of Westcliffe and Silver Cliff in Custer County. The creation of this reservoir will build long-term resilience to drought while improving water management to address the water supply and demand gap. For UAWCD, the extra storage will increase efficiency, increase operational flexibility, and increase augmentation water availability in a key area year-round. For RMWSD, building this reservoir will meet the SEO requirements of its water augmentation decree, as well as maximize the it's availability to provide water services to support a growing community while improving water quality and habitat to a critical portion of Grape Creek during low flow conditions. Meanwhile, the collaboration of UAWCD with RMWSD will increase the beneficial uses of water for municipal, commercial, agricultural, and environmental benefits in Custer County, UAWCD's entire district, and the Arkansas Basin as a whole, while ensuring the protection of water rights.

#### **Project Objectives:**

This project is intended to develop long-term drought resiliency, meet decree requirements, and address a water supply/demand gap. Upper Arkansas Water Conservancy District (UAWCD) would be able to improve operational flexibility and increase augmentation water availability in a key area year-round. While, RMWSD would be able to fulfill the requirements of the 19CW3090 decree (building an upstream reservoir to protect water rights), as well as improve its ability to supply water within its service area. In addition, the new storage would improve water quality and habitat to a critical reach of Grape Creek during low flow conditions.

Tasks
<b>Task 1 – Engineering and Permitting</b>
Description of Task:
<p>This task will complete the remaining engineering required for the final design and construction drawings of: the reservoir bay, conveyance system, outlet works, diversion structure, and pump station. This will also include a final land survey, as well as completion of the 404 permitting prior to beginning construction.</p>
