Description: Alamosa Riverfront Project Phase I - CMS 187213						
The Colorado Rio Grande Restoration Foundation will finalize preliminary designs, engineering, and permitting for the multi-benefit Alamosa Riverfront Project with broad-based stakeholder involvement. The Alamosa Riverfront Project will result in new public river access, recreation infrastructure, diversion improvements at the Westside Ditch, and enhanced aquatic habitat and water quality on a reach of the Rio Grande River through the City of Alamosa. The Project will also reduce flood risks through the construction of a low-flow channel in the Rio Grande through Alamosa.						
As a part of this agreement, please refer to Exhibit A (dated 6/30/23) for a complete Statement of Work and Budget.
