1. PARTIES

This Agreement is entered into by and between Grantee named on the Cover Page for this Agreement (the “Grantee”), and the STATE OF COLORADO acting by and through the State agency named on the Cover Page for this Agreement (the “State”). Grantee and the State agree to the terms and conditions in this Agreement.

2. TERM AND EFFECTIVE DATE

A. Effective Date

This Agreement shall not be valid or enforceable until the Effective Date, and the Grant Funds shall be expended by the Fund Expenditure End Date shown on the Signature and Cover Page for this Agreement. The State shall not be bound by any provision of this Agreement before the Effective Date, and shall have no obligation to pay Grantee for any Work performed or expense incurred before the Effective Date, except as described in **§5.D**, or after the Fund Expenditure End Date.

B. Initial Term

The Parties’ respective performances under this Agreement shall commence on the Agreement Performance Beginning Date shown on the Cover Page for this Agreement and shall terminate on the Initial Agreement Expiration Date shown on the Cover Page for this

Agreement (the “Initial Term”) unless sooner terminated or further extended in accordance with the terms of this Agreement.

C. Extension Terms - State’s Option

The State, at its discretion, shall have the option to extend the performance under this Agreement beyond the Initial Term for a period, or for successive periods, at the same rates and under the same terms specified in this Agreement (each such period an “Extension Term”). In order to exercise this option, the State shall provide written notice to Grantee in a form substantially equivalent to Sample Option Letter attached to this Agreement.

D. End of Term Extension

If this Agreement approaches the end of its Initial Term, or any Extension Term then in place, the State, at its discretion, upon written notice to Grantee as provided in **§14**, may unilaterally extend such Initial Term or Extension Term for a period not to exceed two months (an “End of Term Extension”), regardless of whether additional Extension Terms are available or not. The provisions of this Agreement in effect when such notice is given shall remain in effect during the End of Term Extension. The End of Term Extension shall automatically terminate upon execution of a replacement Agreement or modification extending the total term of this Agreement.

E. Early Termination in the Public Interest

The State is entering into this Agreement to serve the public interest of the State of Colorado as determined by its Governor, General Assembly, or Courts. If this Agreement ceases to further the public interest of the State, the State, in its discretion, may terminate this Agreement in whole or in part. A determination that this Agreement should be terminated in the public interest shall not be equivalent to a State right to terminate for convenience. This subsection shall not apply to a termination of this Agreement by the State for breach by Grantee, which shall be governed by **12.A.i**.

i. Method and Content

The State shall notify Grantee of such termination in accordance with **§14**. The notice shall specify the effective date of the termination and whether it affects all or a portion of this Agreement, and shall include, to the extent practicable, the public interest justification for the termination.

ii. Obligations and Rights

Upon receipt of a termination notice for termination in the public interest, Grantee shall be subject to the rights and obligations set forth in **§12.A.i.a**.

iii. Payments

If the State terminates this Agreement in the public interest, the State shall pay Grantee an amount equal to the percentage of the total reimbursement payable under this Agreement that corresponds to the percentage of Work satisfactorily completed and accepted, as determined by the State, less payments previously made. Additionally, if this Agreement is less than 60% completed, as determined by the State, the State may reimburse Grantee for a portion of actual out-of-pocket expenses, not otherwise reimbursed under this Agreement, incurred by Grantee which are directly attributable

to the uncompleted portion of Grantee's obligations, provided that the sum of any and all reimbursement shall not exceed the maximum amount payable to Grantee hereunder.

F. **Grantee's Termination Under Federal Requirements**

Grantee may request termination of this Grant by sending notice to the State, or to the Federal Awarding Agency with a copy to the State, which includes the reasons for the termination and the effective date of the termination. If this Grant is terminated in this manner, then Grantee shall return any advanced payments made for work that will not be performed prior to the effective date of the termination.

5. **PAYMENTS TO GRANTEE**

A. **Maximum Amount**

Payments to Grantee are limited to the unpaid, obligated balance of the Grant Funds. The State shall not pay Grantee any amount under this Agreement that exceeds the Agreement Maximum shown on the Cover Page of this Agreement.

B. **Payment Procedures**

i. **Invoices and Payment**

- a. The State shall pay Grantee in the amounts and in accordance with the schedule and other conditions set forth in Exhibit A and Exhibit C.
- b. Grantee shall initiate payment requests by invoice to the State, in a form and manner approved by the State.
- c. The State shall pay each invoice within 45 days following the State’s receipt of that invoice, so long as the amount invoiced correctly represents Work completed by Grantee and previously accepted by the State during the term that the invoice covers. If the State determines that the amount of any invoice is not correct, then Grantee shall make all changes necessary to correct that invoice.
- d. The acceptance of an invoice shall not constitute acceptance of any Work performed or deliverables provided under this Agreement.

ii. **Interest**

Amounts not paid by the State within 45 days of the State’s acceptance of the invoice shall bear interest on the unpaid balance beginning on the 45th day at the rate of 1% per month, as required by §24-30-202(24)(a), C.R.S., until paid in full; provided, however, that interest shall not accrue on unpaid amounts that the State disputes in writing. iv. Available Funds-Contingency-Termination

The State is prohibited by law from making commitments beyond the term of the current State Fiscal Year. Payment to Grantee beyond the current State Fiscal Year is contingent on the appropriation and continuing availability of Grant Funds in any subsequent year (as provided in the Colorado Special Provisions). If federal funds or funds from any other non-State funds constitute all or some of the Grant Funds, the State's obligation to pay Grantee shall be contingent upon such non-State funding continuing to be made available for payment. Payments to be made pursuant to this Agreement shall be made only from Grant Funds, and the State's liability for such payments shall be limited to the amount remaining of such Grant Funds. If State, federal or other funds are not appropriated, or otherwise become unavailable to fund this Agreement, the State may, upon written notice, terminate this Agreement, in whole or in part, without incurring further liability. The State shall, however, remain obligated to pay for Services and Goods that are delivered and accepted prior to the effective date of notice of termination, and this termination shall otherwise be treated as if this Agreement were terminated in the public interest as described in **§2.E**.

D. Reimbursement of Grantee Costs

Only with prior written approval, the State shall reimburse Grantee's allowable costs, not exceeding the maximum total amount described in Exhibit C and **§5.A** for all allowable costs described in this Grant and shown in the Budget, except that Grantee may adjust the amounts between each line item of the Budget without formal modification to this Agreement as long as the Grantee provides notice to the State of the change, the change does not modify the total maximum amount of this Agreement or the maximum amount for any state fiscal year, and the change does not modify any requirements of the Work. However, any costs incurred by Grantee prior to the Effective Date shall not be reimbursed. Grantee's costs for Work

performed after the Fund Expenditure End Date shown on the Signature and Cover Page for this Agreement, or after any phase performance period end date for a respective phase of the Work, shall not be reimbursable. The State shall only reimburse allowable costs described in this Agreement and shown in the Budget if those costs are:

To complete close-out, Grantee shall submit to the State all deliverables (including documentation) as defined in this Agreement and Grantee's final reimbursement request or invoice. The State will withhold 10% of allowable costs until all final documentation has been submitted and accepted by the State as substantially complete.

C. Performance and Final Status

Grantee shall submit all financial, performance and other reports to the State no later than 45 calendar days after the end of the Initial Term if no Extension Terms are exercised, or the final Extension Term exercised by the State, containing an evaluation and review of Grantee's performance and the final status of Grantee's obligations hereunder.

D. Violations Reporting

Grantee shall disclose, in a timely manner, in writing to the all violations of federal or State criminal law involving fraud, bribery, or gratuity violations potentially affecting the this

Grantee shall maintain such records for a period (the "Record Retention Period") of three years following the date of submission to the State of the final expenditure report, or if this Award is renewed quarterly or annually, from the date of the submission of each quarterly or annual report, respectively. If any litigation, claim, or audit related to this Award starts before expiration of the Record Retention Period, the Record Retention Period shall extend until all litigation, claims, or audit findings have been resolved and final action taken by the State, a cognizant agency for audit, oversight or indirect costs, and the State, may notify Grantee in writing that the Record Retention Period shall be extended. For records for real property and equipment, the Record Retention Period shall extend three years following final disposition of such property.

B. Inspection

Grantee shall permit the State, the federal government, and any other duly authorized agent of a governmental agency to audit, inspect, examine, excerpt, copy and transcribe Grantee Records during the Record Retention Period. Grantee shall make Grantee Records available during normal business hours at Grantee's office or place of business, or at other mutually agreed upon times or locations, upon no fewer than two Business Days' notice from the State, unless the State determines that a shorter period of notice, or no notice, is necessary to protect the interests of the State.

C. Monitoring

The State will monitor Grantee's performance of its obligations under this Agreement using procedures as determined by the State. The federal government and any other duly authorized agent of a governmental agency, in its discretion, may monitor Grantee's performance of its obligations under this Agreement using procedures as determined by that governmental entity. The State shall have the right, in its sole discretion, to change its monitoring procedures and requirements at any time during the term of this Agreement. The State shall monitor Grantee's performance in a manner that does not unduly interfere with Grantee's performance of the Work.

D. Final Audit Report

Grantee shall promptly submit to the State a copy of any final audit report of an audit performed on Grantee's records that relates to or affects this Agreement or the Work, whether the audit is conducted by Grantee or a third party.

8. CONFIDENTIAL INFORMATION-STATE RECORDS

A. Confidentiality

Grantee shall keep confidential, and cause all Subcontractors to keep confidential, all State Records, unless those State Records are publicly available. Grantee shall not, without prior written approval of the State, use, publish, copy, disclose to any third party, or permit the use by any third party of any State Records, except as otherwise stated in this Agreement, permitted by law or approved in writing by the State. Grantee shall immediately forward any request or demand for State Records to the State's Principal Representative.

B. Other Entity Access and Nondisclosure Agreements

Grantee may provide State Records to its agents, employees, assigns and Subcontractors as necessary to perform the Work, but shall restrict access to State Confidential Information to those agents, employees, assigns and Subcontractors who require access to perform their obligations under this Agreement. Grantee shall ensure all such agents, employees, assigns, and Subcontractors sign agreements containing nondisclosure provisions at least as protective as those in this Agreement, and that the nondisclosure provisions are in force at all times the agent, employee, assign or Subcontractor has access to any State Confidential Information. Grantee shall provide copies of those signed nondisclosure provisions to the State upon execution of the nondisclosure provisions.

C. Use, Security, and Retention

Grantee shall use, hold and maintain State Confidential Information in compliance with any and all applicable laws and regulations in facilities located within the United States, and shall maintain a secure environment that ensures confidentiality of all State Confidential Information wherever located. Grantee shall provide the State with access, subject to Grantee's reasonable security requirements, for purposes of inspecting and monitoring access and use of State Confidential Information and evaluating security control effectiveness. Upon the expiration or termination of this Agreement, Grantee shall return State Records provided to Grantee or destroy such State Records and certify to the State that it has done so, as directed by the State. If Grantee is prevented by law or regulation from returning or destroying State Confidential Information, Grantee warrants it will guarantee the confidentiality of, and cease to use, such State Confidential Information.

D. Incident Notice and Remediation

If Grantee becomes aware of any Incident, it shall notify the State immediately and cooperate with the State regarding recovery, remediation, and the necessity to involve law enforcement, as determined by the State. Unless Grantee can establish that none of Grantee or any of its agents, employees, assigns or Subcontractors are the cause or source of the Incident, Grantee shall be responsible for the cost of notifying each person who may have been impacted by the Incident. After an Incident, Grantee shall take steps to reduce the risk of incurring a similar type of Incident in the future as directed by the State, which may include, but is not limited to, developing and implementing a remediation plan that is approved by the State at no additional cost to the State. The State may adjust or direct modifications to this plan, in its sole discretion and Grantee shall make all modifications as directed by the State. If Grantee cannot produce its analysis and plan within the allotted time, the State, in its sole discretion,

may perform such analysis and produce a remediation plan, and Grantee shall reimburse the State for the reasonable costs thereof.

E. **Safeguarding PII**

If Grantee or any of its Subcontractors will or may receive PII under this Agreement, Grantee shall provide for the security of such PII, in a manner and form acceptable to the State, including, without limitation, State non-disclosure requirements, use of appropriate technology, security practices, computer access security, data access security, data storage encryption, data transmission encryption, security inspections, and audits. Grantee shall be a “Third-Party Service Provider” as defined in §24-73-103(1)(i), C.R.S. and shall maintain security procedures and practices consistent with §§24-73-101 *et seq.*, C.R.S. 9. CONFLICTS OF INTEREST

A. **Actual Conflicts of Interest**

Grantee shall not engage in any business or activities, or maintain any relationships that conflict in any way with the full performance of the obligations of Grantee under this Agreement. Such a conflict of interest would arise when a Grantee or Subcontractor’s employee, officer or agent were to offer or provide any tangible personal benefit to an employee of the State, or any member of his or her immediate family or his or her partner, related to the award of, entry into or management or oversight of this Agreement.

EXHIBIT A, STATEMENT OF WORK

Statement Of Work	
Date Prepared:	November 30, 2023
Name of Grantee:	Colorado Cattlemen's Association
Name of Water Project:	Scaling Up Ag Water Education & Funding Outreach
Water Project Overview:	
<p>Colorado Cattlemen's Association Ag Water NetWORK (CCA) will conduct outreach and training on ag water related topics and provide assistance in understanding and securing funding for agricultural water projects. CCA will also be assessing agricultural irrigation infrastructure, and helping irrigation entities upgrade to GIS-based mapping and maintenance tracking systems. A variety of outreach and educational methods will be used to connect with the broad swath of producers across Colorado, providing information and training to help integrate capacity-building efforts that support agriculture – especially irrigated agriculture. Two of the tools used for both these action items are targeted outreach and collaboration with other groups.</p> <p>With an overarching goal of advancing a robust and resilient agricultural future in Colorado, CCA's efforts will focus on raising awareness and understanding on ag-related water issues to better prepare individual agriculturalists and producer-oriented groups with the knowledge necessary to sustain and advance agriculture in Colorado. CCA will be engaging producers and agriculture-oriented groups with meetings and presentations on infrastructure and system improvement operational funding, conservation, efficiency, water law, Colorado River basin and other basin compact-related issues, watershed management planning and forest health / wildfire mitigation and post-wildfire planning, demand management, new technologies, water quality issues, agricultural sustainability in the face of diminishing irrigation water supplies, and other elements addressed in the state water plan. CCA will be covering a range of ag-water topics throughout each year, and those topics will be determined by input received from producers and organizations that serve agriculture. CCA's webinars will have more statewide applicability whereas some of the meetings, events and other types of outreach will be more regionally nuanced. The intent is to meet producer ag-water informational needs at the local, basin, and statewide scale.</p> <p>CCA will utilize training classes and mini-workshops, webinars, online forums, symposia and publications and exhibit booths to connect with the target audience of producers and producer-associated entities. Some of these outreach events will utilize online conferencing platforms. Others will be in-person, including in the field. These engagement activities will be coordinated with other agricultural-oriented, ag-serving organizations. Publications will be carried in agricultural outlets and other water focused media. Various formats including written, digital and social media will be used to communicate information. Where CCA deem it effective as an outreach tool, CCA will operate exhibit booths at agricultural conferences/events to provide producers with information on water issues impacting agriculture and funding sources. The exhibits will display projects related to topics of interest as identified previously. In CCA's workshops, in some cases CAA will also be discussing with producers and agricultural organizations creative opportunities for long-term and sustainable funding, such as recent efforts by the Colorado River Water Conservation District and St. Vrain and Left Hand Water Conservancy District.</p> <p>Regarding funding, CCA will continue and expand assistance to producers, irrigation entities and supporting organizations to help them obtain funding to address agricultural irrigation and storage deficiencies. This includes providing outreach and education on available grants and how different funding sources can be leveraged as match. The pursuit of funding will include projects ranging from single ditches needing to improve one critical section of a ditch, to upgrading data management and electronic storage of ditch-related information, to ditches and districts needing funding to modernize their entire systems. CCA will work with producers, ditch and reservoir entities, water conservancy districts, conservation districts and NGOs toward obtaining state, federal, local and private grants to plan and implement projects that improve agricultural water infrastructure.</p>	

This activity will include helping ag water entities aggregate and scope projects, application preparation, and navigational help throughout grant application processes. CCA will also be communicating with granting entities to ensure necessary pieces of information are provided in the desired formats.

On the reservoir rehabilitation work, some reservoir projects can be funded relatively quickly through state and local funding. CCA will continue working with reservoir owners on those projects. However, CCA is also working on some larger reservoir projects that will require a combination of state, local and federal funding. A few of these might even require some multi-benefit project arrangements to secure enough funding for construction. CCA will be supporting these projects by writing grant applications, meeting with agencies and stakeholders, and identifying sources of funds for rehabilitation.

Project Objectives:

- Deliver fifty (50) or more outreach meetings / presentations to equip producers with awareness and knowledge that will result in more flexible and profitable ag water usage and minimize permanent dry-up of irrigated agricultural land in Colorado. This includes engaging with the next generation of agricultural producers and professionals that work in agriculture (e.g., Tribal ag producers, ditch company employees, CSU Extension educators, watershed coordinators).
- Deliver thirty (30) educational trainings/ webinars / extension forums / mini-workshops / publications or exhibit booths to educate producers and ag-serving individuals and entities on topics of importance (as outlined above) and provide technical assistance where possible. This includes providing guidance and technical assistance to individual irrigation and conservation districts.
- Provide funding-focused assistance, training and grant-writing. Facilitate and work toward preparation of thirty (30) or more grant or loan applications for irrigation infrastructure improvement work that serves to dramatically accelerate the pace of ag-water improvement project funding and on-the-ground implementation. This work will include assisting ag water groups and individual irrigators through the various process elements leading up to and through preparing grant or loan applications. In a few cases CCA has and will continue to roll smaller projects into grant-funded projects that CCA applies for and administers. CCA does this in cases where ag water entities are unable or uncomfortable managing a grant themselves.
- Document attendance and connection numbers and provide review of outreach results and feedback.
- Pursue funding for at least fifteen (15) reservoir rehabilitation projects located in basins around the state, including the South Platte, Colorado, Southwest, Yampa and potentially others.

Tasks

Task 1 – Water Issue Focused Education and Outreach

Description of Task:

Fifty (50) or more outreach meetings / presentations for ag producers will be accomplished, with at least three in each of the basins with additional meetings in the Colorado and the South Platte. Some of these meetings will also engage Basin Roundtables to strive for ongoing consistency and focus of messaging and programmatic implementation. These events will connect with agriculture producers and other water stakeholders around the previously identified topics. This includes engaging with the next generation of agricultural producers and professionals that work in agriculture (e.g., Tribal ag producers, ditch company employees, CSU Extension educators, watershed coordinators). A portion of these outreach events will include identifying producers and ag water entities that need help in first understanding what improvements are possible and what upgrades would work best.

Thirty (30) educational trainings/ webinars / extension forums / mini-workshops / publications or exhibit booths will offer interactive engagement opportunities that educate producers and ag-serving individuals and entities on topics of importance (as outlined above). Some of these outreach events will utilize online conferencing platforms. Others will be in-person, including in the field. These engagement activities will be coordinated with other agricultural-oriented, ag-serving organizations.

Method/Procedure:

CCA will be engaging with CCA Affiliate member groups, Colorado Ag Water Alliance (CAWA) member associations, conservation districts, CSU Extension, irrigation groups and water conservancy districts, and watershed associations to host and/or promote events and ensure CCA meets local ag water informational needs in the various outreach and educational events. Both CCA and CAWA have developed an extensive network of farmers and ranchers throughout the state. CCA Affiliate member groups cover the state and most of the CAWA members are statewide associations. Every year CCA meets with conservancy districts, ditches, county stock growers, conservation districts, and its member groups cover every county and all major agricultural industries.

Presentations and Meetings: CCA will be collaborating with the groups, districts, and associations mentioned above on hosting, co-hosting and/or promoting meetings to engage agricultural producers and the staff and experts of organizations that serve the agricultural industry in Colorado. This process involves preliminary discussions to gauge and cultivate interest in ag water topics of local and regional interest and finding alignment with broader Water Plan goals. Interests identified in initial communications lead to event planning and the delivery of outreach.

Workshops/Trainings: These types of events will typically be coordinated with one or more of the organizations mentioned above. Working with partner organizations, CCA designs workshops and training programs that address identified educational needs in the ag water community. Many, but not all, of these events will be planned for the cooler months when agricultural producers are more available. CCA will work with the local districts to help advertise the event among the agricultural community.

Webinars: Webinars have been an effective method of engaging the agricultural community throughout the year. The online format also allows flexibility to connect with producers and ag-oriented organizations statewide, or in a more limited geographic area where CCA may focus on one or more ag water topics of regional importance. Webinars also provide a platform for speakers that are unable to travel to the rural locations where CCA normally has presentations and hosts workshops.

Interactive Online forum: This casual format will be geared toward CSU Extension staff but may not be limited to them. The forum will feature an expert presenting on a topic followed by open discussion. CSU Extension staff are local sources of agricultural connection for many people statewide. With the influx of new extension personnel, the need to transfer knowledge to these frontline information providers is great. It also broadens and strengthens informational networks enabling the exchange of questions and answers among participants, and connection to human and data resources.

Publications: Like webinars, publications provide another method to engage the agricultural community specifically and the broader water community on ag water topics. Publications will address specific issues and opportunities related to irrigated agriculture and the multiple water-related issues that affect irrigators. Publications will also highlight projects and will be circulated throughout CAWA's and CCA's networks and member organizations.

Deliverables:

- Fifty (50) or more outreach meetings / presentations for ag producers on ag water topics of importance will be accomplished. At least three in each of the basins with additional meetings in the Colorado and the South Platte
- Thirty (30) educational trainings/ webinars / extension forums / mini-workshops / publications or exhibit booths will offer interactive engagement opportunities that educate producers and ag-serving individuals and entities on topics of importance (as outlined above).
- Documentation of attendance and connection numbers and provision of narrative reviews of outreach results and feedback.

Tasks**Task 2 – Funding-Focused Assistance, Training and Grant Writing**

Description of Task:
<p>Provide funding-focused assistance, training and facilitation in working toward preparation of grant or loan applications that serve to accelerate the pace of ag-water improvement project funding and on-the-ground implementation. From this overarching effort, thirty (30) grant or loan applications for ag water entities will be submitted. Overall, work will range from fleshing out ag water improvement concepts and possibilities, to assessment, scoping, costing, and grant application preparation and submission. This will include work ranging from fleshing out project ag water improvement concepts and possibilities, to assessment, scoping, costing, and grant application preparation and submission.</p> <p>The purpose of this effort is to greatly accelerate the pace of ag-water improvement project implementation by helping ag water entities secure funding for projects. CCA will meet ag water entities at their current status point with regard to their knowledge and data related to their infrastructure improvement needs. From that point, CCA will collaboratively work with them as needed to pursue funding.</p> <p>This effort will leverage the expertise of CCA staff and contractors on the types of funding sources available, grant writing and grant process navigation, and technical assistance. A secondary benefit to this effort will be the knowledge that gets transferred and accrued by agricultural water organizations and individual producers around identifying, pursuing, and administering project grants. This technology transfer will provide long-term dividends as projects are completed and project funding and logistics are share with other farmers and ranchers. CCA will explain the different sources of funding available, with emphasis on synergizing and maximizing funding through multi-benefit projects.</p> <p>Continued engagement on reservoir rehabilitation advancement will involve continued work with ag entities on reservoir rehabilitation and capacity restoration preliminary work needs and funding. The reservoirs CCA is already working with includes Big Jumbo Reservoir (Sedgewick County), Lone Cone Reservoir (San Miguel County; \$450,000 needed), Stillwater Reservoir (Routt County; \$2.5 million needed for design and \$5 million in construction), and 10 private reservoirs in Grand County and Plateau Valley.</p>
Method/Procedure:
<p>The methods and procedures will typically entail a process-based series of steps toward securing funding. Those steps include communications, presentations, meeting on-site, grant (and sometimes loan) navigation, communications with potential funders, preparation of the application(s), discussion with funding entities, and follow-through with relevant parties (ag water entities, funders, technical service providers, other entities). Actions will include pursuit of funding from all potentially viable sources, including Federal, State, Basin, Local, and private funding entities. CCA will also be emphasizing and demonstrating the value of engaging with the broader water community on finding diverse funding sources for multi-benefit agricultural irrigation infrastructure projects.</p> <p>This grant proposal also includes a project with Rainbow Park Water Company (Fremont County). The project will replace the ditch's aging and incomplete paper map to a GIS-based geodatabase, which will include geo-mapping of the ditch system. A website and informational pamphlet for new and existing shareholders will also be developed. This work will be done in parallel with ditch infrastructure improvement work, for which separate funding will be being sought.</p> <p>Reservoirs needing rehabilitation: CCA will continue to help projects define their scope as needed, clarify cost estimates, and pursue funding from federal, state, local and private sources for improvements.</p>
Deliverables:

- Provide funding-focused assistance, training and facilitation to advance projects toward obtaining funding. From this overarching effort, thirty (30) or more grant or loan applications for ag water entities will be prepared and submitted.
- Document the types of work efforts (actions) associated with advancing each project for which obtaining funding is the primary goal.
- Document the agricultural water entities to whom CCA provides assistance toward obtaining funding.
- Document the challenges encountered and changes made through the course of providing assistance on ag water funding efforts.
- Document the accomplishments of the Rainbow Park Water Company project and identify future needs and actions.
- Pursue funding for at least fifteen (15) reservoir rehabilitation projects.
