Western Resource Advocates (WRA) will prepare a recommendations report or roadmap to expand landscape and irrigation certification or licensing in Colorado. WRA is partnering with CSU Extension and the Colorado Water Center to complete this report.

In this report, WRA will synthesize the following information: landscape and/or irrigation professional licensure in the 10 states with existing programs, how certification and training programs currently available in Colorado could be incorporated into a state-level program, and input from diverse stakeholders in the landscape and irrigation industry to understand their perspectives on how certification programs and/or a state licensing program would affect their efforts.

As a part of this agreement, please refer to Exhibit A (dated 4/3/2024) for a complete Statement of Work and Budget.
