## Department of Natural Resources

Page 2 of 2

River Network will offer statewide peer learning opportunities; create a watershed planning roadmap; strengthen regionally-based networks of watershed groups and partners through coordination, mentoring, training, and information sharing; and provide leadership among NGO and funding partners to work together to scale up capacity for multi-benefit project implementation. These activities aim to increase the number of watershed plans in Colorado and related project implementation.

As a direct assistance pilot effort, River Network will also supply the fledgling Animas River watershed planning group with capacity, resources, technical planning, project implementation assistance, and coordination.

As a part of this agreement, please refer to Exhibit A (dated 4/15/2024) for a complete Statement of Work and Budget.
