<b>Description:</b> WPG Land Use; Landscape Change Prog Impact analysis						
The results will inform Resource Central's water provider partners, and allow Resource Central to continue to innovate and refine our programs to maximize the benefits. Throughout this project, they will bring together experts across research fields, including Peter Mayer from Water Demand, GIS experts, to build on established best practices to ensure our analysis is rigorous and comprehensive. Resource Central has a goal of making Waterwise Landscapes the new norm in Colorado, quantifying our impact-both tangibly and intangibly--is an important step in achieving their mission.
