**AGENDA ITEM:** Consent Agenda Item 6a - Change of Fiscal Agent: Lower South Boulder Creek - Watershed Restoration Phase II

---

**Staff Recommendation:**

Staff recommends changing the fiscal agent for the Lower South Boulder Creek - Watershed Restoration Phase II project from Trout Unlimited to Colorado Trout Unlimited.

**Background:**

Colorado Trout Unlimited was approved for \$250,000 for their Watershed Restoration Phase II project, which includes the development of construction-ready designs for two diversion structures and the development of preliminary designs for two additional diversion structures within South Boulder Creek, all informed through the South Boulder Creek Stream Management Plan. The application for this project came in on December 1, 2021 and was approved at the March 2022 Board Meeting (Agenda Item 26z). Unfortunately, during contracting, the fiscal agent was mistakenly written as the National Trout Unlimited, rather than the local Colorado Trout Unlimited, which both entities would like to change.

## March 15 - 16, 2022 Board Meeting Agenda

---

A meeting of the CWCB will be held on Tuesday, March 15, 2022 commencing at 8:30 AM and continuing through Wednesday, March 16, 2022. The meeting will be held at the Denver Marriott West 1717 Denver West Boulevard Golden 80401 and virtually on Zoom.

The CWCB posts notice 30 days in advance of each regularly scheduled meeting. Notices for special meetings are posted on the website typically within five business days and not less than 24 hours of such a meeting. Notices of regular and special meetings may also be received by email. To receive notices by email please visit: <https://dwr.state.co.us/Portal/Login/>.

Although dates and times are indicated in this notice and in the following agenda, the CWCB may address and take action on noticed items in any order. Any known changes to the agenda will be announced at the beginning of the meeting. This notice, any late notice(s) of additional items, and briefing memos prepared for the CWCB will be on our website at <https://cwcb.colorado.gov/>.

The CWCB's meetings are made available through live audio streaming on YouTube, although Board workshops are not. To listen to the proceedings, click the "Listen to the meeting LIVE!" link on the CWCB website homepage and select the link for the proper day and time. The link will be posted just prior to the start of the meeting.

The CWCB encourages citizens to express their views and provide feedback to the Board on the agenda items. This can be done by sending an email to [viola.bralish@state.co.us](mailto:viola.bralish@state.co.us) by sending a letter to a Board member or to the Chair of the Board, or by attending the meeting. If you want to make a public comment during the meeting you must fill out a [comment sheet](#) prior to the meeting date and email it to the [Board Coordinator](#). The Board will appreciate hearing your views when it reaches that agenda item. If you have any questions, need special accommodations as a result of a disability, or require further information on any CWCB activity, please contact [Viola Bralish](#) at 303-866-3441, ext. 3206. All programs, services, and activities of the CWCB are operated in compliance with the Federal Americans with Disabilities Act (ADA).

## CWCB Consent Agenda March 15 -16, 2022

Matters may be placed on the Consent Agenda when the recommended action follows established policy or precedent, there has been a negotiated settlement, or the matter is uncontested and non-controversial. Staff provides memos to CWCB members explaining the matters on the Consent Agenda. Matters on the Consent Agenda are noticed for hearing in the same manner as other agenda items. If a member of the CWCB requests further consideration of an item on the Consent Agenda, the item will be withdrawn from the Consent Agenda and discussed during the meeting or at the next meeting, with action taken after discussion of the item. If a member of the CWCB requests further consideration of an item on the Consent Agenda that pertains to a pending or imminent court action, the matter will be withdrawn from the Consent Agenda and may be discussed during executive session of the same meeting, and any action on that item will be taken in public session. The Consent Agenda may be voted on without reading or discussing individual items. Any CWCB member may request clarification about any matter on the Consent Agenda.

Measurable Result: 100% designs on 2 ditches and preliminary designs on 2 ditches	

The current Phase I of this project has focused on preliminary designs for high priority structures with modifications that are primarily to allow low flow passage and administration, but also incorporate modifications to improve channel connectivity and habitat. In preparing the conceptual designs in Phase I, the project team prioritized modifications needed to address:

- Low flow management/passage
- Restoring channel connectivity for fish/aquatic organism passage
- Improving operational efficiency, where possible
- Improving stream resilience and proximate habitat

Phase II will focus on progressing engineering designs and associated permitting for four priority structures. Designs will also include automated gate actuators and upstream/downstream/down-ditch networked flow measurement design elements. All efforts have been and continue to be in partnership with local stakeholders, including the City of Boulder, City of Lafayette, Denver Water, City of Louisville, Boulder County, and the four targeted ditch owners

This project will accomplish the following:

- Develop 100% design of modifications for two diversion structures: New Dry Creek Carrier and Howard
- Permitting required for a future construction phase of work
- Develop preliminary engineering design for modifications of two additional structures to the level required to commence RFP process(es) required for a final design and permitting future phase of work: Goodhue and Marshallville
- All work will be accomplished using sound design incorporating the latest knowledge of the local species and passage techniques. Appropriate aquatic management practices will be followed to maximize fish passage goals, with realistic expectations of barrier operators, and in accordance with practices supported by Colorado Parks and Wildlife and US Fish and Wildlife Service.
