Water Plan Grant - Exhibit A

Statement Of Work

Date:	April 12, 2021
Name of Grantee:	Genesee Water & Sanitation District
Name of Water Project:	Enlargement of Genesee Reservoir No. 1
Funding Source:	Colorado Water Plan Grant for Water Storage and Supply Projects

Water Project Overview:

The project involves increasing the storage capacity in the Genesee Water and Sanitation District's (District's) existing Genesee Reservoir No. 1 by enlarging the existing embankment dam and modifying inlet and outlet piping so that active, treatable storage capacity can be increased by 46 acre-feet. Genesee Reservoir No. 1 is an existing off-channel reservoir that is filled with water pumped from Bear Creek near Kittredge, CO. The Colorado Water Plan Grant will be used to offset final design engineering, permitting, and construction costs associated with the reservoir enlargement. Construction is currently scheduled for 2022. The water provided by the enlargement will increase drought protection and protect the health and safety of more than 3,900 people who are dependent on a reliable, high quality municipal water supply within the District's boundaries. The enlargement will also increase the District's operational reliability and protect the District's existing conditional water rights. In extreme drought conditions, the project would allow the District to reuse treated sewage effluent when legally allowed to do so, to provide emergency water supplies. The additional water storage could also be made available to other Bear Creek water users through temporary leases or water purchases. The additional water supply could also provide water based recreation for the local citizens.

Project Objectives:

The project objective is to increase the District's existing raw water storage capacity by about 50 percent to provide additional drought protection, increase its operational reliability and flexibility, and protect its existing water rights. The enlarged reservoir could also provide limited water-based recreation activities.

Tasks
Task 1 – Final Design Engineering & Permitting & Project Management
Description of Task: Complete a final design package of drawings, specifications, and engineering calculations for approval by the Colorado Dam Safety Department of the Colorado Division of Water Resources and obtain local, state, and federal permits for the project.
Method/Procedure:
The final design includes documenting hydrologic analysis, hydraulic calculations, site geology evaluations, geotechnical analysis, and structural analysis to support the construction drawings and specifications. The permitting will involve obtaining local grading and stormwater permits from Jefferson County and a Nationwide 404 Permit from the U.S. Army Corps of Engineers.
Deliverable:
Approved construction documents from the Colorado Dam Safety Department and local and federal permits for the construction. This work will be documented in monthly engineering invoices.

Tasks
Task 2 – Reservoir Enlargement Construction
Description of Task: Construction Cost Reimbursement for Reservoir Enlargement
Method/Procedure:
The existing dam will be enlarged with additional fill and an upstream crest parapet wall that will provide additional flood routing storage for the raised normal high water line. The enlargement will also involve modifying the existing side channel spillway and provide a new membrane liner for the enlarged reservoir. The inlet and outlet piping will also be revised to allow complete use of the dead storage in the reservoir as a raw water drinking water treatment source. See Exhibit B for the anticipated construction bid tab.
Deliverable:
Monthly construction contractor pay estimates and construction engineering invoices will be provided for reimbursement during the construction period. At the end of construction, a letter accepting the construction will be required from the Colorado Dam Safety Department.

Budget and Schedule
This Statement of Work shall be accompanied by a combined Budget and Schedule that reflects the Tasks identified in the Statement of Work and shall be submitted to CWCB in excel format.
