<p>This project will: 1) Modernize an irrigation dam and reservoir that have been in use continuously since 1937; 2) Replace old and worn gates; 3) Increase the reliability of water supplies in the irrigation reservoir; 4) Improve infrastructure that makes future SCADA projects possible; 5) Continue to provide bird habitat and birdwatching activities.</p>	

Tasks
<u>Task 1 - Design</u>
Description of Task: The Grantee will: <ul style="list-style-type: none"> Contract with the United States Bureau of Reclamation, Engineering Division, to provide technical assistance for engineering work to include design, specifications, and creation of all necessary drawings to complete the project, oversight of the implementation and provide personnel for project inspections as required. Contract to be in place within 6 months of funding approval. Design/Specs/Drawings will take approximately 6 months to complete. Contract an environmental review with the US Bureau of Reclamation, Environmental Division, and completed within the first reporting period. This task is estimated to take 6-months from time of contract.
Method/Procedure:

Tasks
The Grantee will hire an engineering firm to prepare the bidding process. The Grantee will negotiate with the US Bureau to produce a contract for the work listed above.
Contract will be signed between the Grantee and an engineering firm to provide construction services that will include bidding services and contract documents for award of construction work.
Grantee Deliverable: (Describe the deliverable the grantee expects from this task)
Completed contract between the Grantee and the US Bureau of Reclamation spelling out deliverables: design, specifications, drawings, and time frames: a completed National Environmental Policy Act and Cultural Resource report that will meet all State and Federal requirements.
CWCB Deliverable: (Describe the deliverable the grantee will provide CWCB documenting the completion of this task)
A progress/status report will be provided to the Gunnison Basin Roundtable and CWCB at least every 6 months that will include invoices, reporting of any major issues and how they were resolved.

Tasks
<u>Task 2 - Construction</u>
Description of Task:
<p>The Grantee will:</p> <ul style="list-style-type: none"> • Hire a contractor to perform related work for the project. This task is estimated to take 2 months. • Purchase materials as spelled out in project specifications. This task is estimated to take 3 months to complete. • Upgrade of the gate valves will require the water in the lake to be isolated from the outlet works. The reservoir will be drained to accomplish this requirement. Water coming from the tributaries upstream must be collected by a coffer dam and pumped over the spillway. Once the new valves and gates are installed the coffer dam will be removed. • Install gate isolation mechanism & install new gates. This task is estimated to take 3 weeks. • Purchase & install a SCADA system.
Method/Procedure:
<p>The Grantee will:</p> <ul style="list-style-type: none"> • Provide interested contractors with all final drawings and specifications for competitive bidding for the project award. • Place orders for materials and monitor delivery. • Drain the reservoir. The water coming from the tributaries upstream of the dam will be collected by a coffer dam and pumped over the spillway to eliminate the flow of water through the outlet works. The type of coffer dam used will be approved by the Grantee. Depending on coffer dam style, pumping the water during gate installation will likely require an environmental analysis. This procedure will be inspected by US Bureau of Reclamation and reviewed by the Grantee. The Grantee will work with the Army Corp of Engineers to secure any necessary permits. • Place a concrete pad and pre-cast concrete building over the gate chamber access hatch. Electric service will be brought in to supply power. A control panel will be installed for the motor operations and position indicator on the regulating gate. This task is estimated to take 30 days.
Grantee Deliverable: (Describe the deliverable the grantee expects from this task)

- Complete bid package from contractors that have been reviewed by the US Bureau of Reclamation for accuracy.
- Procurement of gates, valves and housing as required by specification provided by US Bureau of Reclamation and approved by the Grantee.
- Removal of degraded gates; Installation of a coffer dam, gates and valves as defined in the specifications and drawings. Removal of the coffer dam and required pumps.
- A concrete pad and prefab building to be installed and wired for electrical equipment/fixtures.

CWCB Deliverable: (Describe the deliverable the grantee will provide CWCB documenting the completion of this task)

Grantee to provide CWCB staff with copies of the construction contract and copies of any needed permits.

Budget and Schedule

Exhibit B - Budget and Schedule: This Statement of Work shall be accompanied by a combined Budget and Schedule that reflects the Tasks identified in the Statement of Work and shall be submitted to CWCB in excel format. A separate excel formatted Budget is required for engineering costs to include rate and unit costs.

Reporting Requirements

Progress Reports: The grantee shall provide the CWCB a progress report every 6 months, beginning from the date of issuance of a purchase order, or the execution of a contract. The progress report shall describe the status of the tasks identified in the statement of work, including a description of any major issues that have occurred and any corrective action taken to address these issues. The CWCB may withhold reimbursement until satisfactory progress reports have been submitted.

Final Report: At completion of the project, the grantee shall provide the CWCB a Final Report on the grantee's letterhead that:

- Summarizes the project and how the project was completed.
- Describes any obstacles encountered, and how these obstacles were overcome.
- Confirms that all matching commitments have been fulfilled.
- Includes photographs, summaries of meetings and engineering reports/designs.

Payments

Payment will be made based on actual expenditures, must include invoices for all work completed and must be on grantee's letterhead. The request for payment must include a description of the work accomplished by task, an estimate of the percent completion for individual tasks and the entire Project in relation to the percentage of budget spent, identification of any major issues, and proposed or implemented corrective actions.

The CWCB will pay the last 10% of the entire water activity budget when the Final Report is completed to the satisfaction of CWCB staff. Once the Final Report has been accepted, and final payment has been issued, the water activity and purchase order or contract will be closed without any further payment.
