ITEM: AGENDA ITEM #21: Water Plan Progress Report

This is an informational item with no Board action required.

Staff will provide an overview on the newly released Water Plan Progress Report (Progress Report) to the Colorado Water Conservation Board (the Board). It has been two years since the release of the updated Colorado Water Plan (2023), and the Progress Report highlights some of the most inspiring work that CWCB staff and our stakeholder partners have done using CWCB funds to meet the goals and vision of the Water Plan. The Progress Report includes a special emphasis on projects that were awarded Water Plan Grants, but it also features other agency efforts that move the Water Plan forward.
