### Grant Details

#### Water Project Justification

The project will install measuring devices on the Park Ditch enabling the Park Ditch Company to accurately measure the water going into and coming out of the ditch from property to be used for the San Juan Headwaters Project. Accurate measurement will facilitate managing overall ditch operations and ditch safety for the benefit of the agricultural and municipal users of the ditch. The project advances the Southwest Basin goal of supporting agriculture. It also advances the objective of the State Engineer to enhance water measurement in the State. Measuring will help Park Ditch Company to make more efficient use of available water.
