

# Notice of Proposed Rulemaking

**Tracking number**

2025-00122

**Department**

400 - Department of Natural Resources

**Agency**

408 - Colorado Water Conservation Board

**CCR number**

2 CCR 408-2

**Rule title**

RULES CONCERNING THE COLORADO INSTREAM FLOW AND NATURAL LAKE  
LEVEL PROGRAM

**Rulemaking Hearing****Date**

07/16/2025

**Time**

09:00 AM

**Location**

Salida, Colorado

**Subjects and issues involved**

Date: July 16-17, 2025 at the regularly scheduled CWCB Board meeting

Time: 9:00 am (or as otherwise directed by the Hearing Officer)

Location: At the regularly scheduled CWCB Board meeting in Salida, Colorado (specific location to be announced) in person and via video conference, with specific location and participation information to be available at a later date on the Boards website at <https://cwcb.colorado.gov>

Description:

The proposed revisions to the Rules will amend ISF Rule 6k, which addresses temporary loans of water for instream flow use. These revisions are to implement Section 2 of Senate Bill 24-197, which allows CWCB to accept temporary loans of stored water for ISF use in stream reaches where CWCB does not hold a decreed ISF water right.

**Statutory authority**

Section 37-60-108, C.R.S., 37-83-105, C.R.S., and section 37-92-102(3), C.R.S.

**Contact information****Name**

Kaylea White

## DEPARTMENT OF NATURAL RESOURCES

### Colorado Water Conservation Board

#### RULES CONCERNING THE COLORADO INSTREAM FLOW AND NATURAL LAKE LEVEL PROGRAM *[EXCERPT]*

##### 2 CCR 408-2

#### 4. DEFINITIONS.

##### 4c. Board Office.

The Colorado Water Conservation Board's office is located at 1313 Sherman Street, 7th Floor, Denver, CO 80203. The phone number is (303) 866-3441. The facsimile number is (303) 866-4474. The Board's website is <https://cwcb.colorado.gov>.

#### 6. ACQUISITION OF WATER, WATER RIGHTS OR INTERESTS IN WATER FOR INSTREAM FLOW PURPOSES.

The Board may acquire water, water rights, or interests in water for ISF purposes by the following procedures:

##### 6a. Means of Acquisition.

The Board may acquire, by grant, purchase, donation, bequest, devise, lease, exchange, or other contractual agreement, from or with any Person, including any governmental entity, such water, water rights, or interests in water that are not on the Division Engineer's abandonment list in such amounts as the Board determines are appropriate for stream flows or for natural surface water levels or volumes for natural lakes to preserve or improve the natural environment to a reasonable degree.

##### 6b. 120 Day Rule.

At the request of any Person, including any governmental entity, the Board shall determine in a timely manner, not to exceed one hundred twenty days, unless further time is granted by the requesting Person, what terms and conditions the Board will accept in a contract or agreement for the acquisition. The 120-day period begins on the day the Board first considers the proposed contract or agreement at a regularly scheduled or special Board meeting.

##### 6c. Stacking Evaluation.

The Board shall evaluate whether to combine or stack the acquired water right with any other ISF appropriation or acquisition, based upon the extent to which the acquired water will provide flows or lake levels to preserve or improve the natural environment to a reasonable degree.

If the Board elects to combine or stack the acquired water right, the details of how the water rights are to be combined or stacked with other existing ISF appropriations or acquisitions must be set forth in the application for a decree to use the acquired right for instream flow purposes.

##### 6d. Enforcement of Acquisition Agreement.

Pursuant to section 37-92-102(3), C.R.S., any contract or agreement executed between the Board and any Person which provides water, water rights, or interests in water to the Board shall be enforceable by

either party thereto as a water matter in the water court having jurisdiction over the water right according to the terms of the contract or agreement.

**6e. Appropriateness of an Acquisition.**

The Board shall evaluate the appropriateness of any acquisition of water, water rights, or interests in water to preserve or improve the natural environment. Such evaluation shall include, but need not be limited to consideration of the following factors:

- (1) The reach of stream or lake level for which the use of the acquired water is proposed, which may be based upon any one or a combination of the following: the historical location of return flow; the length of the existing instream flow reach, where applicable; whether an existing instream flow water right relies on return flows from the water right proposed for acquisition; the environment to be preserved or improved by the proposed acquisition; or such other factors the Board may identify;
- (2) The natural flow regime;
- (3) Any potential material injury to existing decreed water rights;
- (4) The historical consumptive use and historical return flows of the water right proposed for acquisition that may be available for instream flow use;
- (5) The natural environment that may be preserved or improved by the proposed acquisition, and whether the natural environment will be preserved or improved to a reasonable degree by the water available from the proposed acquisition;
- (6) The location of other water rights on the subject stream(s);
- (7) The effect of the proposed acquisition on any relevant interstate compact issue, including whether the acquisition would assist in meeting or result in the delivery of more water than required under compact obligations;
- (8) The effect of the proposed acquisition on the maximum utilization of the waters of the state;
- (9) Whether the water acquired will be available for subsequent use or reuse downstream;
- (10) The cost to complete the transaction or any other associated costs; and
- (11) The administrability of the acquired water right when used for instream flow purposes.

The Board shall determine how to best utilize the acquired water, water rights or interest in water to preserve or improve the natural environment.

**6f. Factors Related to Loans and Leases.**

In addition to considering the factors listed above, for loans and leases of water, water rights and interests in water for ISF purposes under section 37-92-102(3),

- (1) The Board shall consider the extent to which the leased or loaned water will preserve or improve the natural environment to a reasonable degree, including but not limited to:
  - (a) Whether the amount of water available for acquisition is needed to provide flows to meet a decreed ISF amount in below average years; and

- (b) Whether the amount of water available for acquisition could be used to and would improve the natural environment to a reasonable degree, either alone or in combination with existing decreed ISF water rights.
- (2) In considering the extent to which the leased or loaned water will preserve or improve the natural environment to a reasonable degree, the Board will request and review a biological analysis from Colorado Parks and Wildlife (CPW), and will review any other biological or scientific evidence presented to the Board.
- (3) If other sources of water are available for acquisition on the subject stream reach(es) by purchase or donation, the Board shall fully consider each proposed acquisition and give preference first to the donation and then to a reasonable acquisition by purchase.
- (4) The Board shall obtain confirmation from the Division Engineer that the proposed lease or loan is administrable and is capable of meeting all applicable statutory requirements.
- (5) The Board shall determine, through negotiation and discussion with the lessor, the amount of compensation to be paid to the lessor of the water based, in part, upon the anticipated use of the water during and after the term of the lease.
- (6) The Board shall consider evidence of water availability based upon the historical record(s) of diversion, the beneficial use of the subject water right, the location and timing of where return flows have historically returned to the stream, and the reason(s) the water is available for lease or loan.

**6g. Recording Requirements.**

- (1) All contracts or agreements for leases or loans of water, water rights or interests in water under section 37-92-102(3) shall require the Board to:
  - (a) Maintain records of how much water the Board uses under the contract or agreement each year it is in effect; and
  - (b) Install any measuring device(s) deemed necessary by the Division Engineer (1) to administer the lease or loan of water, (2) to measure and record how much water flows out of the reach after use by the Board under the lease or loan; and (3) to meet any other applicable statutory requirements.
- (2) All contracts or agreements for leases or loans of water shall provide for the recording of the actual amount of water legally available and capable of being diverted under the leased or loaned water right during the term of the lease or loan, with such records provided to the Division of Water Resources for review and publication.

**6h. Water Reuse.**

All contracts or agreements for the acquisition of water, water rights or interests in water under section 37-92-102(3) shall provide that the Board or the seller, lessor, lender or donor of the water may bring about beneficial use of the historical consumptive use of the acquired water right downstream of the ISF reach as fully consumable reusable water, pursuant to the water court decree authorizing the Board to use the acquired water.

- (1) The bringing about of beneficial use of the historical consumptive use of the water may be achieved by direct use, sale, lease, loan or other contractual arrangement by the Board or the seller, lessor, lender or donor.

- (2) The contract or agreement also shall provide that the Division Engineer must be notified of any agreement for such beneficial use downstream of the ISF reach prior to the use.
- (3) Prior to any beneficial use by the Board of the historical consumptive use of the acquired water right downstream of the ISF reach, the Board shall find that such use:
  - (a) Will be consistent with the Board's statutory authority and with duly adopted Board policies and objectives; and
  - (b) Will not injure vested water rights or decreed conditional water rights.

**6i. Applications for a Decreed Right to Use Water for ISF Purposes.**

The Board shall file a change of water right application or other applications as needed or required with the water court to obtain a decreed right to use water for ISF purposes under all contracts or agreements for acquisitions of water, water rights or interests in water under section 37-92-102(3), including leases and loans of water. The Board shall file a joint application with the Person from whom the Board has acquired the water or a Person who has facilitated the acquisition, if requested by such Person. The Water Court shall determine matters that are within the scope of section 37-92-305, C.R.S. In a change of water right proceeding, the Board shall request the Water Court to:

- (1) Verify the quantification of the historical consumptive use of the acquired water right;
- (2) Verify the identification, quantification and location of return flows to ensure that no injury will result to vested water rights and decreed conditional water rights;
- (3) Include terms and conditions providing that:
  - (a) The Board or the seller, lessor, lender, or donor of the water may bring about the beneficial use of the historical consumptive use of the changed water right downstream of the ISF reach as fully consumable reusable water, subject to such terms and conditions as the water court deems necessary to prevent injury to vested water rights and decreed conditional water rights; and
  - (b) When the Board has not identified such downstream beneficial use at the time of the change of water right, the Board may amend the subject change decree, if required by the Division Engineer, to add such beneficial use(s) of the historical consumptive use downstream of the ISF reach at the time the Board is able to bring about such use or reuse, without requiring requantification of the original historical consumptive use calculation; and
- (4) Decree the method by which the historical consumptive use should be quantified and credited during the term of the agreement for the lease or loan of the water right pursuant to section 37-92-102(3), C.R.S.

**6j. Limitation on Acquisitions.**

The Board may not accept a donation of water rights that were acquired by condemnation, or that would require the removal of existing infrastructure without approval of the current owner of such infrastructure.

**6k. Temporary (Expedited and Renewable) Loans of Water to the Board.**

Section 37-83-105, C.R.S., authorizes the Board to accept and exercise two types of temporary loans of water for ISF use: (1) expedited loans; and (2) renewable loans. Expedited loans have a term of up to one year and may be used to preserve the natural environment to a reasonable degree on a decreed

instream flow reach. Renewable loans, which can be used to preserve or improve the natural environment on a decreed instream flow reach, may be exercised for up to five years in a ten-year period and for no more than three consecutive years, and may be renewed for up to two additional ten-year periods. In the case of loans made pursuant to Section 37-83-105(1)(c), C.R.S., an owner of a decreed storage water right may loan water to the CWCB to preserve or improve the natural environment to a reasonable degree for stream reaches in which the Board does not hold a decreed instream flow water right. The Board may exercise both expedited and renewable temporary loans of water for instream flow use for a period not to exceed 120 days in a single calendar year, in accordance with the procedures and subject to the limitations set forth in section 37-83-105, C.R.S. The owner of a decreed water right who has offered water to the Board for an expedited or renewable loan is referred to herein as an "applicant."

(1) Expedited Loans.

- (a) An expedited loan approved to preserve the natural environment to a reasonable degree has a term of up to one year, with instream flow use not to exceed 120 days in a single calendar year. The loan period begins when the State Engineer approves the expedited loan. If an expedited loan is approved, the applicant may not reapply for an additional expedited loan of the subject water right.
- (b) Within five working days after receiving an offer of an expedited loan of water to the Board for temporary instream flow use, the Director will provide a response to the applicant. If the proposed loan appears to be appropriate for instream flow use, staff will coordinate with the applicant to:
  - i. prepare and submit the necessary documentation to the State Engineer required by sections 37-83-105(2)(a)(I) and (2)(b)(I), C.R.S., In the case of loans made pursuant to Section 37-83-105(1)(c), C.R.S., such documentation shall include an analysis of historical releases of the loaned water right for its decreed beneficial uses;
  - ii. provide the written notice required by section 37-83-105(2)(b)(II), C.R.S., and access to all documentation provided to the State Engineer under Rule 6k.(1)(b)i, to: (1) all parties on the substitute water supply plan notification list established pursuant to section 37-92-308(6), C.R.S., for the water division in which the proposed loan is located; and (2) a registered agent of a ditch company, irrigation district, water users' association, or other water supply or delivery entity within whose system the water rights fall; and
  - iii. provide notice to all Persons on the ISF Subscription Mailing List for the relevant water division.
- (c) Provided that the State Engineer has made a determination of no injury pursuant to section 37-83-105(2)(a)(III), C.R.S., the Board hereby delegates authority to the CWCB Director to accept expedited loans of water for instream flow use in accordance with the procedures and subject to the limitations set forth in section 37-83-105, C.R.S., to execute an agreement for the loan of the water, and to take any administrative action necessary to put the loaned water to instream flow use. The purpose of this delegation is to expedite the Board's exercise of a temporary loan of water for instream flow use under this Rule 6k.(1).
- (d) The CWCB's use of loaned water for instream flows shall not exceed the CWCB's decreed instream flow rate(s), time period(s), and reach(es) at any time during the expedited loan term. For any expedited loan, the CWCB ~~and~~ shall comply with any terms and conditions imposed by the State Engineer to prevent injury. In addition, for loans made pursuant to Section 37-83-105(1)(c), C.R.S., of stored water for use in stream

reaches in which the Board does not hold a decreed instream flow water right, the Board will:

- i. request and review a biological analysis from CPW concerning the extent to which the proposed loan will preserve or improve the natural environment to a reasonable degree, and review any other biological or scientific evidence presented to the Board; and
    - ii. make findings on flow rate(s), time period(s), and reach(es) of stream appropriate to preserve or improve the natural environment to a reasonable degree with the loaned water.
  - (e) At the first regular or special Board meeting after the Director accepts, or rejects over applicant's objection, an offer of an expedited loan of water to the Board for temporary instream flow use under (b) and (c) above, the Board shall vote either to ratify or overturn the Director's decision.
  - (f) The Board, Director and staff will expedite all actions necessary to implement Rule 6k.(1).
- (2) Renewable Loans.
- (a) A renewable loan approved to preserve or improve the natural environment must not be exercised for more than five years in a ten-year period and for no more than three consecutive years, for which only a single approval by the State Engineer is required. Instream flow use may not exceed 120 days in a single calendar year. The ten-year period begins when the State Engineer approves the loan. If an applicant for a renewable loan has previously been approved for and has exercised an expedited loan using the same water right(s) that are the subject of the pending application, the one-year loan period of the expedited loan counts as the first year of the five-year allowance for the subsequent renewable loan.
  - (b) The Board will use a two-Board meeting process to review, consider public comment, and direct Staff whether to move forward with proposed renewable loans of water for instream flow use to preserve or improve the natural environment to a reasonable degree.
  - (c) Any Person may request the Board to hold a hearing on a proposed renewable loan. Such a request must be submitted to the Board in writing within twenty days after the first Board meeting at which the Board considers the proposed renewable loan, and must include a brief statement, with as much specificity as possible, of why a hearing is being requested. The Board shall conduct all hearings on renewable loans pursuant to Rule 6m.(5).
  - (d) For renewable loans to improve the natural environment to a reasonable degree, or loans to preserve or improve the natural environment to a reasonable degree made pursuant to Section 37-83-105(1)(c), C.R.S., of stored water for use in stream reaches in which the Board does not hold a decreed instream flow water right, the Board will:
    - i. request and review a biological analysis from CPW concerning the extent to which the proposed loan will improve the natural environment to a reasonable degree, or loans to preserve or improve the natural environment to a reasonable degree made pursuant to Section 37-83-105(1)(c), C.R.S., and review any other biological or scientific evidence presented to the Board;

- ii. make findings on flow rates appropriate to improve the natural environment to a reasonable degree, and for loans made pursuant to Section 37-83-105(1)(c), C.R.S., make findings on the flow rate(s), time period(s), and reach(es) of stream to preserve or improve the natural environment to a reasonable degree with the loaned water; and
  - iii. for loans made pursuant to Section 37-83-105(1)(b), C.R.S., give preference to loans of stored water, when made available, over loans of direct flow water.
- (e) When evaluating a proposed renewable loan, the Board shall consider any potential injury to decreed water rights, decreed exchanges of water, or other water users' undeclared existing exchanges of water to the extent that the undeclared existing exchanges have been administratively approved before the date of the Board's consideration.
- (f) If the Board directs Staff to move forward with a proposed renewable loan, staff will coordinate with the applicant to:
- i. prepare and submit the necessary documentation to the State Engineer required by sections 37-83-105(2)(a)(I) and (2)(b)(I), C.R.S. In the case of loans made pursuant to Section 37-83-105(1)(c), C.R.S., such documentation shall include an analysis of historical releases of the loaned water right for its decreed beneficial uses;
  - ii. provide the written notice required by section 37-83-105(2)(b)(II), C.R.S., and access to all documentation provided to the State Engineer under Rule 6k.(2)(f)i, to: (1) all parties on the substitute water supply plan notification list established pursuant to section 37-92-308(6), C.R.S., for the water division in which the proposed loan is located; and (2) a registered agent of a ditch company, irrigation district, water users' association, or other water supply or delivery entity within whose system the water rights fall;
  - iii. provide notice to all Persons on the ISF Subscription Mailing List for the relevant water division; and
  - iv. make best efforts to publish notice of the proposed plan in an appropriate legal newspaper of general circulation in each county in which the loan will be implemented and from which the loaned water has been historically used.
- (g) Board direction to Staff to move forward with a proposed renewable loan will include authorizing Staff to execute an agreement for the loan of water and to take any administrative action necessary to put the loaned water to instream flow use, provided that the State Engineer determines that no injury will result from the proposed loan.
- (h) The CWCB's instream flow use of loaned water shall not extend beyond the CWCB's decreed instream flow reach(es), or in the case of loans made pursuant to Section 37-83-105(1)(c), C.R.S., of stored water, such rate(s), time period(s), and reach(es) as determined by the Board to be necessary to preserve or improve the natural environment to a reasonable degree, at any time during the renewable loan term, and shall comply with any terms and conditions imposed by the State Engineer to prevent injury.
- (i) In each year that a renewable loan is exercised, the applicant, coordinating with Staff if necessary, shall provide the written notice described in section 37-83-105(2)(b)(II), C.R.S.

- (j) The applicant may reapply for a renewable loan, and the State Engineer may approve such loan for up to two additional ten-year periods. Prior to any such reapplication, at a properly noticed public meeting, Staff will inform the Board about the exercise of the loan during the previous ten-year period and request approval for the loan to continue for the additional ten-year period. The Board shall consider any public comment and objections to the renewal provided at the public meeting. If the Board authorizes renewal of the loan, staff will coordinate with the applicant to: (1) prepare and submit the necessary documentation to the State Engineer required by sections 37-83-105(2)(a)(I) and (2)(b)(I), C.R.S.; and (2) provide the written notice required by section 37-83-105(2)(b)(II), C.R.S.
- (3) Water rights loaned to the Board pursuant to expedited or renewable loans are not precluded from concurrent or subsequent inclusion in other programs, such as water conservation, demand management, compact compliance, or water banking programs or plans, as are or may be subsequently defined or described in statute. The applicant will inform the Board of inclusion of the loaned water right in any such program during the loan period.

**6l. Funds for Water Right Acquisitions.**

The Board may use any funds available to it for costs of the acquisition of water rights and their conversion to ISF use. The Board shall spend available funds for such costs in accordance with section 37-60-123.7, C.R.S. and any other applicable statutory authority, and with applicable Board policies and procedures.

**6m. Public Input on Proposed Acquisitions.**

The Board shall follow the public review process in Rules 11a. - 11c. when acquiring water, water rights or interests in water, except for expedited and renewable temporary loans or leases as provided in Rule 6k. above and except as provided below.

- (1) Prior to Board consideration of any proposed acquisition, Staff shall mail notice of the proposed acquisition to all Persons on the ISF Subscription Mailing List and the State Engineer's Substitute Supply Plan Notification List for the relevant water division, and shall provide Proper Notice. Such notice shall include:
  - (a) The case number adjudicating the water right proposed to be acquired, and the appropriation date, adjudication date, priority, decreed use(s), and flow amount of the water right proposed to be acquired, and approximately how much of the water right the Board will consider acquiring;
  - (b) The location of the stream reach or lake that is the subject of the proposal, including, when available, the specific length of stream reach to benefit from the proposed acquisition;
  - (c) Any available information on the purpose of the acquisition, including the degree of preservation or improvement of the natural environment to be achieved;
  - (d) Any available scientific data specifically supporting the position that the acquisition will achieve the goal of preserving or improving the natural environment to a reasonable degree; and
  - (e) In addition to (a) - (d) above, for leases and loans of water, water rights or interests in water under section 37-92-102(3), C.R.S., such notice shall include the proposed term of the lease or loan and the proposed season of use of the water under the lease or loan.

- (2) At every regularly scheduled Board meeting subsequent to the mailing of notice, and prior to final Board action, Staff will report on the status of the proposed acquisition and time will be reserved for public comment.
- (3) Any Person may address the Board regarding the proposed acquisition prior to final Board action. Staff shall provide any written comments it receives regarding the proposed acquisition directly to the Board.
- (4) Any Person may request the Board to hold a hearing on a proposed acquisition. Such a request must be submitted to the Board in writing within twenty days after the first Board meeting at which the Board considers the proposed acquisition, and must include a brief statement, with as much specificity as possible, of why a hearing is being requested.
- (5) At its next regularly scheduled meeting after receipt of the request for a hearing, or at a special meeting, the Board will consider the request and may, in its sole discretion, grant or deny such a request. All hearings scheduled by the Board shall be governed by the following procedures:
  - (a) A hearing on a proposed acquisition, except for renewable loans, must be held within the 120 day period allowed for Board consideration of an acquisition pursuant to Rule 6b., unless the Person requesting the Board to consider the proposed acquisition agrees to an extension of time.
  - (b) The Board shall appoint a Hearing Officer to establish the procedures by which evidence will be offered.
  - (c) For hearings on acquisitions other than renewable loans, at least thirty days prior to the hearing date(s), the Board shall provide written notice of the hearing(s) to the Person proposing the acquisition, all interested parties known to the Board, and all Persons on the ISF Subscription Mailing List and the State Engineer's Substitute Supply Plan Notification List for the relevant water division. The Board also shall provide Proper Notice, as defined in ISF Rule 4n.
  - (d) For hearings on renewable loans, at least thirty days prior to the hearing date, the Board shall provide written notice of the hearing to the owner of the water right to be loaned and to: (1) all parties on the substitute water supply plan notification list established pursuant to section 37-92-308(6), C.R.S., for the water division in which the proposed loan is located; (2) a registered agent of a ditch company, irrigation district, water users' association, or other water supply or delivery entity within whose system the water rights fall; and (3) provide notice to all Persons on the ISF Subscription Mailing List for the relevant water division. Such notice shall include the process and deadlines for participating in the hearing.
  - (e) Any Person who desires party status shall become a Party upon submission of a written Notice of Party Status to the Board Office. The Notice shall include the name and mailing address of the Person and a brief statement of the reasons the Person desires party status. The Board Office must receive Notice of Party Status within seven days after notice of the hearing is issued.
  - (f) The Hearing Officer shall set timelines and deadlines for all written submissions. Prehearing statements will be required, and shall include, but not be limited to, the following: 1) a list of all disputed factual and legal issues; 2) the position of the Party regarding the factual and legal issues; 3) a list identifying all of the witnesses that will testify for the Party, and a summary of the testimony that those witnesses will provide; and 4) copies of all exhibits that the Party will introduce at the hearing(s).

- (g) Any Party may present testimony or offer evidence identified in its prehearing statement regarding the proposed acquisition.
- (h) The Hearing Officer shall determine the order of testimony for the hearing(s), and shall decide other procedural matters related to the hearing(s). The Hearing Officer does not have authority to rule on substantive issues, which authority rests solely with the Board.
- (i) The Board will not apply the Colorado Rules of Evidence at hearings on proposed acquisitions.
- (j) The Board may permit general comments from any Person who is not a Party; however, the Board may limit these public comments to five minutes per Person.
- (k) The Board may take final action at the hearing(s) or continue the hearing and/or deliberations to a date certain.
- (l) Board hearings may be recorded by a reporter or by an electronic recording device. Any Party requesting a transcription of the hearing(s) shall be responsible for the cost of the transcription.
- (m) When necessary, the Board may modify this hearing procedure schedule or any part thereof as it deems appropriate.

**6n. Board Action to Acquire Water, Water Rights or Interests in Water.**

The Board shall consider the acquisition during any regular or special meeting of the Board. At the Board meeting, the Board shall consider all presentations or comments of Staff or any other Person. After such consideration, the Board may acquire, acquire with limitations, or reject the proposed acquisition.

## **NOTICE OF PROPOSED RULEMAKING HEARING BEFORE THE COLORADO WATER CONSERVATION BOARD**

### **I. NATURE OF PROPOSED RULEMAKING HEARING**

Pursuant to section 24-4-103, C.R.S., this is a Notice of Proposed Rulemaking Hearing before the Colorado Water Conservation Board (“Board”) for consideration of amendments to the Board’s Rules Concerning the Colorado Instream Flow and Natural Lake Level Program, 2 CCR 408-2 (“ISF Rules”). The amendments affect Rule 6k (Temporary Loans of Water to the Board).

The Board is amending Rule 6k of the ISF Rules to address the requirements of Section 2 of Senate Bill 24-197.

### **II. DESCRIPTION OF THE SUBJECTS AND ISSUES INVOLVED**

SB 24-197 amends section 37-83-105, C.R.S., which governs temporary loans of water for instream flow (“ISF”) use, which allows temporary loans of stored water to CWCB for use in stream reaches where CWCB does not hold a decreed ISF water right. SB 24-197 also directs the Board to promulgate rules to implement certain provisions of the bill, as needed.

Board Staff (“Staff”) drafted proposed changes to the ISF Rules, solicited written comments from interested parties, and held public (a.k.a. stakeholder) meetings on December 17, 2024 and January 29, 2025, to allow interested parties to provide input on the proposed changes. At its March 19-20, 2025 meeting, the Board appointed a hearing officer and authorized Staff and the Hearing Officer to proceed with the formal rulemaking process. The formal rulemaking process is initiated by filing a notice of rulemaking hearing with the Secretary of State and publication in the Colorado Register.

Staff will retain a record of the rulemaking pursuant to section 24-4-103(8.1), C.R.S. The initial proposed rule amendments submitted to the Secretary of State are available on the Board’s website.

The proposed revisions amend ISF Rule 6k. to implement SB 24-197, and include:

- A. Revisions to the descriptions of expedited and renewable loans; and
- B. Revisions to the procedure for evaluating, requesting approval, and making findings for both types of loans when the loan involves the new law regarding stored water releases for use in a stream reach, in which the board does not hold a decreed instream flow water right.

The language of the proposed amendments to the ISF Rules, and a proposed statement of basis and purpose and specific statutory authority for the amendments, are available on the Board’s website at <https://cwcb.colorado.gov>, and are available upon request of Staff. Please contact Kaylea White at (720) 854-3240 or at [kaylea.white@state.co.us](mailto:kaylea.white@state.co.us) for further information.

### III. SPECIFIC STATUTORY AUTHORITY

The statutory authority for promulgating the ISF Rules and any amendments thereto is found at section 37-60-108 and 37-83-105(3), C.R.S. The Board's authority for the Colorado Instream Flow and Natural Lake Level Program is found at section 37-92-102(3), C.R.S.

SB 24-197 revised section 37-83-105, C.R.S., pertaining to temporary loans of water to the Board for ISF use, and directed the Board to promulgate rules to implement certain provisions of the bill.

### IV. PARTY STATUS

The Notice of Rulemaking Hearing will be published in the Colorado Register on April 10, 2025. Applications for party status will be accepted through May 1, 2025. Applications for party status should be submitted to the Board's Hearing Officer, Jackie Calicchio, by email to [jackie.calicchio@coag.gov](mailto:jackie.calicchio@coag.gov). Applications for party status shall include: (1) the name of the person, persons or entity seeking party status; (2) a contact person, if different from IV.(1); (3) the appropriate mailing address, phone number, and email address for the contact person listed in IV.(2); (4) the interest of the person(s) or entity in the proposed amendments to the ISF Rules; and (5) a description of the general nature of the evidence or information to be presented in the course of the proceedings. Staff is automatically a party to the rulemaking proceeding and need not file an application for party status.

### V. PRE-HEARING CONFERENCE

Prior to the rulemaking hearing, the Hearing Officer will hold a pre-hearing conference. After May 1, 2025, when all party status applications have been received, the Hearing Officer will issue an order notifying all parties of the final date, time, and location or call-in information for the first pre-hearing conference. The order will also provide any other deadlines and procedures that are appropriate at the time. Participation in the pre-hearing conference may be available by telephone or video conference at the Hearing Officer's discretion; participation will likely only be available by remote participation.

Each applicant for party status must submit a pre-hearing statement in order to participate in the pre-hearing conference.

### VI. RULEMAKING HEARING

#### Date, Time, and Location

DATE: July 16-17, 2025 at the regularly scheduled CWCB Board meeting

TIME: 9:00 am (or as otherwise directed by the Hearing Officer)

LOCATION: At the regularly scheduled CWCB Board meeting in Salida, Colorado (specific location to be announced) in person and via video conference, with specific location and

participation information to be available at a later date on the Board's website at <https://cwebb.colorado.gov>.

### Procedures

The role of the Board's Hearing Officer is to provide orderly procedures for the rulemaking; ruling on substantive issues is a Board responsibility. The Hearing Officer will issue orders designed to streamline and clarify processes consistent with this Notice of Proposed Rulemaking and as permitted by law.

The Board may ask questions of any person appearing before it.

The Board will consider alternative proposals related to the proposed amendments, subject to the procedures established by the Hearing Officer.

The Board may modify the proposed amendments to the ISF Rules from those published in the Colorado Register.

After the conclusion of the rulemaking hearing and after consideration of the relevant matters presented, the Board, through its Hearing Officer, will render its decision to the parties to the hearing.

### Hearing Participation

At the hearing, parties shall be afforded the opportunity to submit written data, views, or arguments, and to present the same orally, unless the Board deems it unnecessary. The submittal of such material and summations, either in writing or orally, shall be as directed by the Hearing Officer or the Board.

If alternative amendments to the proposed amendments to the ISF Rules are requested by a party, the Board encourages those amendments to be included in the written materials, along with a proposed statement of basis and purpose of the alternative amendments.

Once any written material is submitted, the material becomes part of the administrative rulemaking record and the property of the Board and will not be returned to the person(s) or entity submitting the material.

The Hearing Officer will decide the timing and order of oral presentations by the parties, if any. Any person who is not a party to the hearing but wishes to provide comment may do so in writing prior to the date of the hearing. The Board strongly encourages all interested persons to submit comments in writing; however, a short period of time at the rulemaking hearing (a total of 30 minutes or less) will be reserved for oral comments by interested persons who do not have party status.

## VII. ADOPTION OF THE ISF RULES

The Board will consider all information presented at the hearing.

The Board may modify the proposed amendments to the ISF Rules in adopting amendments to the ISF Rules.

The final amended ISF Rules, as adopted by the Board, shall become effective no sooner than twenty (20) days after publication in the Colorado Register.

## VIII. ADMINISTRATIVE RULEMAKING RECORD

The Administrative Rulemaking Record, including the proposed ISF Rule amendments, submitted applications for party status, pre-hearing statements, and all other written materials to be considered by the Board in this rulemaking, will be available following the conclusion of these proceedings on the Board's website at <https://cwcb.colorado.gov>, upon request to [kimberly.ricotta@state.co.us](mailto:kimberly.ricotta@state.co.us), and at the Board's office at 1313 Sherman Street, Room 718, Denver, CO 80203.

DATED this 21st day of March, 2025.
