

PROGRESS REPORT - FINAL REPORT

Arkansas River Basin Water Forum 2024 Educational and Outreach Event

PAY REQUEST No. 1 FINAL

Project Cost expended during this Pay Request are summarized below:

Company A Invoice Amount

Otero College, La Junta, CO \$18,461.49

\$000,000

Subtotal \$18,461.49

Company B Invoice Amount

Inspiration Field, La Junta, CO \$9620.65

\$000,000

<u>Subtotal</u> \$9620.65

Jean Van Pelt, Program Management \$14710.00

Invoices #56, 57, 58

\$000,000

<u>Subtotal</u> \$14710.00

Western National Parks Asso. \$360.00

\$000,000

Subtotal \$360.00

Project Update:

Task 1 – Venues

The Arkansas River Basin Water Forum (ARBWF) welcomed 231 attendees at the 2024 Forum (Attendance sheets are attached). The ARBWF required one large banquet room to accommodate keynote and plenary sessions and lunch. We also utilized the College's theater for concurrent sessions and a large conference room as an exhibitors' space. The cost for the three Otero College spaces totaled \$1400.

The Local Leaders Dinner Reception was held at Inspiration Field on the evening before the first day of the Forum, Tuesday, March 5, 2024. We had 128 local and statewide policy and decision makers attend. Senator Cleave Simpson planned to be our Keynote Speaker but had to cancel at the last minute. As a replacement, CWCB Board Chair and Chaffee County Commissioner, Greg Felt, stepped up and did a fantastic job as our evening Keynote. The ARBWF also used Inspiration Field to host the Percolation and Runoff Networking dinner. We had 143 people attend. The cost to rent Inspiration Field for the two dinners comes to \$2846.65.

The ARBWF hosted a water-related tour of Bents Old Fort. The Fort required a fee of \$10 per person. We had 36 people attend the tour and paid \$360 for the tour. Total cost for this task is \$4606.65. ARBWF is requesting \$3224.66 in reimbursement for Task1. The cash match amounts to \$1382.00.

Task 2 - Catering

The final guaranteed numbers for catering the 2024 educational and outreach events follows:

1. Tuesday, March 5th, Inspiration Field, Local Leaders Dinner – 175 attendees

- 2. Wednesday, March 6th, Inspiration Field, Social Networking Dinner 175 attendees
- 3. Wednesday, March 6th, Otero College, Morning and Break Refreshments and Lunches 250 attendees
- 4. Thursday, March 7th, Otero College, Morning and Break Refreshments and Lunches 250 attendees

The ARBWF paid \$6774 to Sweet Inspiration Catering for the Local Leaders and Percolation and Runoff Dinners. In addition, ARBWF paid \$17061.49 for catering to Otero College. <u>The total cost for Task 2 is \$23835.49</u>. ARBWF is requesting \$16684.84 in reimbursement. The <u>cash match amounts to \$7150.65</u>.

Task 3 - Program Management

ARBWF Program Manager, Jean Van Pelt, performed and successfully delivered the task deliverables, on-time, on-budget and satisfactorily according to the ARBWF Board of Directors expectations.

Ms. Van Pelt's services for the months of January, February, and March amounted to \$14710. The January invoice #56 was \$4210, February invoice #57 was \$6680 and March invoice #58 was \$3820.

The ARBWF Planning Committee met monthly from August through the end of March to plan the 2024 Water Forum (A Planning committee Time Tracker worksheet is attached). There was a total of 43 members with many being very active by attending each meeting and volunteering for leadership roles during the planning process and the forum itself. Their volunteer hours amounted to 1,083 hours. Placing a \$30 per hour value on their time amounts to \$32,490 as an in-kind match.

Total cost for Task 3 is \$14,710. ARBWF is requesting \$14,710 in reimbursement for Task 3.

Task 4 - Infographic and program design and printing

Colorado Springs Utilities' graphic designer and planning committee member, Lisa Pace designed the infographic. They spent 30 in-kind hours at \$30 an hour creating the infographic for an in-kind match amount of \$900. Colorado Springs Utilities also printed 400 copies of the infographic for a cash match of \$2000. The infographic was distributed at the Local Leaders Dinner Reception and the two-day forum. The remaining copies of the infographic were provided to the Purgatoire River Watershed Partnership, Lower Arkansas Valley Water Conservancy District, and the Arkansas River Conservation Cooperative to aid them in their water education and outreach efforts.

Jessica Mills, an ARBWF Planning Committee member, spent 30 hours at \$30 an hour creating the program for an in-kind match of \$900. Colorado Springs Utilities printed 300 copies of the program for distribution at the Forum for a cash match of \$1000.

The infographic and programs are attached. <u>There were no costs associated with this task</u> and reimbursement is not required.

Task 5 – Tour Transportation

ARBWF did not incur any costs for tour transportation because there is not a service in the lower Arkansas River valley that provides transportation services. The tour attendees carpooled to the tour locations.

PLEASE NOTE: The Arkansas River Basin Water Forum always performs a survey to evaluate the attendees' experience, what worked well and what did not work well. Attached to this report are the survey results as of March 15, 2024.

2025 ARKANSAS RIVER BASIN WATER FORUM

9 AM

Beyond Borders: A Cross-Basin Exploration for Water Preservation Strategies

Some Colorado communities have already experienced the damaging effects of dried-up land and struggling economies due to water exports. By 2050, Colorado could lose an additional 1,000 square miles of irrigated farmland now used for food production to meet demands from population growth along the Front Range. During this on-stage conversation, we will hear from presenters from the South Platte Basin, the San Luis Valley, and the Arkansas River Basin, who will discuss commonalities, differences, and solutions for water preservation strategies that help retain this essential economic building block locally for generations to come.

This informative and engaging panel conversation will explore regulatory, policy, and engagement strategies that seek to reduce outside pressures on local water supplies to support a thriving agriculture environment, vibrant economies, and a healthy ecosystem in the regions where water has historically been put to beneficial use.

- Moderator: Robert Sakata, Water Policy Advisor, Colorado Department of Agriculture
- Pat Wells, Water Strategy Specialist, Northern Water
- Heather Dutton, San Luis Valley Water Conservancy District
- Jack Goble, Lower Arkansas Valley Water Conservancy District

BREAK WITH REFRESHMENTS

CONCURRENT SESSION 1A

Groundwater Augmentation in the Arkansas River Basin – Past, Present, and Future

Location: Grand Ballroom

10:15 AM

Augmentation of tributary groundwater has been an evolving part of water management in the Arkansas Basin for the last half century. Beginning with the advent of both the Arkansas River Compact and the centrifugal pump, which both arrived on the scene at around the same time, the State of Colorado and the Arkansas Basin have faced challenges around the use and administration of tributary groundwater. Tributary groundwater is defined as those waters that reside below the ground, but which are hydraulically linked to surface waters. The panels will begin by discussing the 1969 Water Rights Determination Act, the Compact and the Kansas v. Colorado lawsuit. Included in the presentation will be the important components of water use and management in the basin, the history of well usage, the organizations that have been responsible for overseeing and managing tributary wells, the key events that have shaped well augmentation over the years, and what the future may hold for well users in the Arkansas Basin.

- Moderator: Bethany Arnold, Division of Water Resources, Division 2
- Steve Witte, Division Engineer for Division 2 from 1988 through 2018
- Daniel Tucker PE, Arkansas Groundwater and Reservoir Association, Water Resource Engineer
- Jord Gertson, Upper Arkansas Water Conservancy District, Hydrologist and Senior Water Resources Facilities Manager

CONCURRENT SESSION 1B

When the River Flowed Freely Location: Ballroom C

This session will focus on the history of Colorado water before Anglo settlement and on the Indigenous people who utilized Colorado waterways and how they used them. Ms. Storm will share interesting details regarding the first significant interventions to Indigenous people and waterways with the arrival and settlement of the land by Anglos.

- Intro: Joe Stone, Independent Journalist
- Speaker: Rachael Storm, History Colorado, Head of Curatorial Services & Curator of Business & Industry

11:15 AM

BREAK

CONCURRENT SESSION 1C

Water Law 101

Location: Grand Ballroom

Since the formation of the state of Colorado in 1876 to present day, Colorado water law continues to recognize fundamental principles regarding the use of water in our state: public water ownership, anti-speculation, beneficial use, and priority administration. The presentation will briefly touch on Colorado's Constitution and the early codification of the adjudication and administrative laws before turning to the Water Right and Administration Act of 1969. In focusing on the 1969 Act, statutorily defined terms such as "appropriation", "beneficial use," "change of water right", and "plans for augmentation" will be discussed, as well as the 1969 Act's requirements regarding water court applications and notice provisions.

Colorado's interstate compacts provide an overlay on the basic tenets of water law. The presentation will discuss the specifics of the Arkansas River Compact, the litigation with Kansas that began in 1985, and the current challenges in administering the Compact.

- Moderator, Rachel Zancanella, Colorado Division of Water Resources, Division 2 Engineer
- Rebecca Crotty, Senior Assistant Attorney General
- Daniel Steuer, Senior Assistant Attorney General

CONCURRENT SESSION 1D

Water You Planning? We can help! The Arkansas River Basin Roundtable in Action

Location: Ballroom C

Panelists will describe how the Arkansas Basin Roundtable (ABRT) functions as the local implementation entity for Colorado's Water Plan. Who serves on the Roundtable and how decisions are made to support projects will be presented.

An explanation defining the "buckets" of funding that are available through the ABRT will be provided, along with what the application process is to receive funding, and the assistance available to project proponents in completing their applications for support.

Description of several current water projects funded through Roundtable and CWCB funding, focusing on the process of securing and leveraging funding.

- Moderator: Paul Fanning, ARBWF Planning Committee
- Ariel Hacker, Division of Water Resources
- Gracy Goodwin, Upper Arkansas Water Conservancy District,
- Julie Knudsen, Purgatoire Watershed Partnership

BOB APPEL: FRIEND OF THE ARKANSAS AWARD

12:30 PM

LUNCH

1 PM

ARBWF SCHOLARSHIP RECIPIENTS ACKNOWLEDGEMENT

William ("Will") Selvidge - Colorado State University, Bachelor's Student in Watershed Science Osvaldo Garcilazo - Colorado State University, Master's Student in Civil Engineering

AFTERNOON TOURS

Partnering for Fountain Creek - Restoration, Maintenance, and Data Collection Tour Location: Confluence Park is located at the junction of Hwy 227 (S. Lacrosse Ave.) and Stockyard Road on Pueblo's east side. The Park is north of the Arkansas River

1:30 PM

This tour will encompass many facets of collaborative efforts to protect and enhance Fountain Creek in Pueblo. The tour will begin with a short indoor presentation on the aquatic nuisance species detected in the region. Participants will then load into personal or carpool vehicles and head to Confluence Park. Hear about the historical importance of this area and planned improvements for signage along the creek. Learn about the Division of Water Resources gauge station, equipment, and data collection on the banks of the Fountain. Follow the recreational trail to view the Fountain Creek Watershed District's creek restoration work including management of invasive species. Then a short walk down the trail leads to Fountain Lake for the final stop. Takeaways for this tour include aquatic nuisance species identification and monitoring, historical aspects of the park, and restoration to improve recreation.

Participants are asked to wear sturdy shoes for a short walk and to dress for our varied Colorado springtime weather. There is no restroom available at Confluence Park.

- Alli Schuch, Fountain Creek Watershed District
- Susan Finzel, Fountain Creek Watershed District
- Robert Walters, Colorado Parks and Wildlife
- Joseph Talbott, Division of Water Resources
- Dustin Ethredge, U.S. Geological Survey

Tour of Water Works Park

Location: On the Arkansas River just north of City Park, 800 Goodnight Avenue

The tour will demonstrate the value of a multi-purpose project that removes a dangerous feature on the river and turns it into a recreational amenity. The tour will illustrate how a previously ignored reach of the river has become a popular site for boating enthusiasts.

Pueblo Water developed a plan to remove a dangerous low-head diversion dam from the Arkansas River near City Park several years ago. Funding was obtained through a loan from the CWCB and minor contributions from Pueblo, Pueblo County and the Pueblo Conservancy District. Work began in 2023, and was completed in 2024, with some parts of the project extending into 2025.

Presenters will provide information on the planning, funding and construction needs of this type of project.

- Chris Woodka, Pueblo Board of Water Works
- Seth Clayton, Pueblo Board of Water Works
- Joe Cervi, Pueblo Board of Water Works

Explore the Historic Arkansas Riverwalk of Pueblo by Boat!

Location: 101 S. Union Ave 81003

The Historic Arkansas Riverwalk of Pueblo Boat Operation are open on a seasonal basis, May-September so take advantage of this special Arkansas River Basin Water Forum Tour opportunity! Learn about the history of Pueblo and the 1921 flood while riding in one of HARP's excursion boats. Explore the art and history throughout the mile long channel. Capacity: 25 people

• Shayla Keys, Pueblo Riverwalk, Director of Recreation & Entertainment

Mirasol, Looking at the Sun - Film Screening

Location: Ballroom C

Water is a finite resource — and an essential one. For farmers, it's everything. In this poignant new film produced by Palmer Land Conservancy, award-winning filmmaker Ben Knight challenges us to think about land and water use in the West through an intimate portrait of a rural farming community in Pueblo, Colorado, as they fight to protect their water and land, and in turn, their culture and livelihood.

- Kristie Nackord, Palmer Land Conservancy, Vice President Agricultural Impact
- Dr. Michael Bartolo, Film Subject

UNTIL THE LIGHTS GO OUT! PERCOLATION AND RUNOFF SOCIAL EVENT

5 PM

1:3A PM

Location: Pueblo Convention Center, Grand Ballroom SPONSORED BY THE ARKANSAS RIVER CONSERVATION COOPERATIVE

Plan on joining for us for a delicious dinner and drinks for only \$20. You won't find a better deal in Pueblo, plus this is one of the most fun events of our Forum. ARBWF has designated that all proceeds from this event go towards supporting our scholarship fund. Paid guests are welcome to join us. You don't want to miss this! Please register to attend.

PLENARY SESSION

A Shared Responsibility: Working Across District Boundaries to Achieve Maximum Benefit

It's a season of change in the Arkansas River Basin as the reins of leadership of the four main water conservancy districts in the Arkansas River Basin have been passed to new general managers. Join us for a Q&A style panel where we'll learn more about these leaders, their districts, and what their focus areas will be going forward.

- Moderator: Mike Holmberg, U.S. Bureau of Reclamation
- Jack Goble, Lower Arkansas Valley Water Conservancy District
- Leann Noga, Southeastern Colorado Water Conservancy District
- Greg Felt, Upper Arkansas Water Conservancy District
- Tony Arnhold, Purgatoire River Water Conservancy District

1A AM

10:15 AM

CONCURRENT SESSIONS 2A

Fountain Creek Water Quality

Location: Grand Ballroom

Overview of the comprehensive Fountain Creek monitoring network operated by the USGS on behalf of Colorado Springs Utilities and Colorado Springs Stormwater Enterprise. Additionally, the session will present and discuss infrastructure improvements, and their effects on water quality. Panel discussion will present and entertain questions on water quality trends in fountain creek.

Panel discussion will begin with presentation of the current water quality and streamflow measurement program conducted in fountain creek, including water quality sampling, sediment sampling, biological/ecological monitoring, and geomorphic change measurements.

- Moderator: Andy Klakulak, U.S. Geological Survey
- Krystal Brown, U.S. Geological Survey
- Annie Berlemann, Colorado Springs Utilities
- Alli Schuch, Fountain Creek Watershed District

CONCURRENT SESSIONS 2B

Pursuing Regional Value through the El Paso County Regional Indirect Potable Reuse Project Location: Ballroom C

El Paso County continues to experience rapid population growth but water providers in the county have limited water supplies. To continue to meet the municipal needs of the growing urban landscape, El Paso County water providers must maximize the efficient use and reuse of all legally and physically available water supplies. The proposed El Paso County Regional Indirect Potable Reuse Project would leverage existing and planned infrastructure to divert physically and legally available water from Fountain Creek, treat it, and get it back to water providers through the county. To achieve these objectives, proven change management principles are being applied by a variety of regional leaders in order to create lasting community value across El Paso County.

- Moderator: TBD
- Jenny Bishop, Colorado Springs Utilities
- Jessie Shaffer, Woodmoor Water & Sanitation District

11 AM

11:15 AM

BREAK

CONCURRENT SESSIONS 2C

Regional Resource Planning Group Total Dissolved Solids Data Dashboard

Location: Grand Ballroom

The objective of this presentation is to build upon RRPG's previous ARBWF presentation in 2024 and give a guided tour of the data dashboard.

RRPG was established to identify regional opportunities to implement plans and to safeguard, preserve and develop for present and future generations the water available for diversion and use within the Arkansas River Basin. The RRPG has developed an on-line dashboard to provide "real-time" data regarding current water quality conditions throughout much of the Arkansas River. The dashboard will be demonstrated during this presentation.

The dashboard allows water users to observe when water quality conditions deviate from historical conditions and support decisions regarding the potential uses of water. The continuous data also informs water managers of changes in water quality that could possibly correlate to different operations, uses, and flow conditions.

- Moderator: Annie Berlemann, Colorado Springs Utilities
- Lisa Miller, USGS Colorado Water Science Center
- Lisa Windom, Colorado Springs Utilities

CONCURRENT SESSIONS 2D

Mountain Precipitation & Water Supply Outlooks Location: Ballroom C

In addition to short-term climate monitoring and forecasting, the National Weather Service models and analyzes long-term climate and precipitation trends. While forecasting precipitation for the mountains of Colorado on seasonal and longer-term scales remains a challenge, recent advancements in the analysis of global climate teleconnection patterns have improved our forecasting capabilities including for intraseasonal variations in mountain precipitation. The National Weather Service also relies on past and current climatological and hydrologic data for hydrologic modelling and water supply forecasting efforts. Improvement in water supply forecasting accuracy has been achieved with the additional incorporation of forecasted precipitation and runoff into the modelling process. Recent advancements in the identification of intraseasonal variations in forecasted precipitation and climatological conditions may provide another opportunity to further enhance water supply forecasting efforts.

- Justin Louen, National Weather Service, Service Hydrologist
- Kyle Mozley, National Weather Service, Lead Meteorologist

LUNCH

12:30 PM

LUNCHEON SPEAKER

Juan Periz Saez, Executive Director, Water Education Colorado

AFTERNOON TOURS

El Pueblo History Museum, the crossroad of the Arkansas River and Fountain Creek Location: 301 N Union Ave, Pueblo, CO 81003

Learn about the inception of Pueblo Colorado and the impact of the Arkansas River and Fountain Creek on the community. Enjoy informative exhibits and experience the 1842 reconstructed Trading Post showcasing life during the mid-19th century. The original El Pueblo Trading Post, now on the National Register of Historic Places, was built in 1842 on the Arkansas River, at that time the international border between the United States and Mexico.

- Daniel Martinez is the Exhibits and Collections Coordinator for Community Museums
- Lorrie Marquez, Assistant Director

Tour of Pueblo Dam & Surrounding Facilities

Location: CPW Pueblo Fish Hatchery 500 Pueblo Reservoir Rd, Pueblo, CO 81005.

Learn how CPW manages one of the state's largest and busiest state parks. Take a hike to the crest of Pueblo Dam and learn about the importance and function of the dam and surrounding infrastructure. Listen to a brief history of the Fry-Ark Project and the facilities that support the project. Included is a tour of CPW's Fish Hatchery. It is the only state hatchery to produce both warm water and cold water fish. Learn how the hatchery operates, its various water sources & how water quality impacts hatchery operations.

- Mike Holmberg, Bureau of Reclamation
- Quentin Springer, CPW Pueblo Fish Hatchery

Bike the Levee Loop on the Arkansas River Trail

Location: 640 S Main St 81004

In this introduction to the Arkansas River Trail, attendees will get the opportunity to bike the Levee Loop. Bring your own bike and helmet or register to reserve one of a limited supply of rental bikes. You will be asked to sign a waiver.

The guided tour along the trail will provide a unique chance to view the river running right through the downtown area, with intermittent stops along the route for guest speakers and opportunities for Q&A. The Arkansas River Trail in Pueblo County is over nine miles long, stretching from the Pueblo Reservoir to Runyon Lake and through the center of Pueblo. With the majority of the Arkansas River Trail paved on both sides of the Arkansas River, it makes a great place to spend time recreating and enjoying the Arkansas River at a more leisurely pace.

- Lindsay Martin, City of Pueblo, Outdoor Recreation Administrator
- Corinne Koehler, Pueblo Conservancy District
- TBD, Pueblo Levee Mural Project

ARBWF BOARD OF DIRECTORS

	Overall, how would you rate this year's Water Forum?	would you rate the quality of the sessions and presentations?	Question 3: What was your favorite and/or least favorite presentation?	4: How would you rate the quality of the field trips / tours?	Question 5: What did you like and/or dislike about the field trips / tours?	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
3 3/7/2025 9:19	Excellent	Excellent			Informative and engaging tour guides, flexible options for progressing through tours (split groups, etc). The informal formality was perfect.		
4 3/7/2025 9:19	Excellent	Excellent	The best was the weather forecast. The judge seemed to be a nice person but not a riveting public speaker	Excellent	I liked the diversity		The food there is much better so I'm happy about that
5 3/7/2025 9:24	Good	Good	District Chief Judge favorite	Good			The food was terrible in Pueblo And I would suggest planning for more seating in the plenary sessions. Always seems like there is 40-50 people without a seat.
6 3/7/2025 9:24	Excellent	Excellent	The judge's talk on day two was excellent. I didn't see it, but I heard the National Weather Service's talk was great too.		Nothing you can do about it, but always at the mercy of the weather.	No, I did not.	It is hard for the sponsor booths when they are put in a separate room. They don't get any traffic. Not sure if the booths could line the walls of the grand ballroom?

		Overall, how would you rate	•	favorite presentation?	4: How would you	Question 5: What did you like and/or dislike about the field trips / tours?	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
7	3/7/2025 9:26	Good	Good	Favorite- Beyond Borders Least Favorite- Groundwater Augmentation in the Arkansas River Basin				
8	3/7/2025 9:36	Excellent	Excellent	They were all informative.		Outdoors, physically visiting a site that relates to the Ark and why we all come to the forum	Unfortunately did not	The planning committee, and notably Jean, does such a wonderful job of making these successful, efficient, welcoming events. I hesitate to suggest anything because nothing I'd come up with would compare. GREAT JOB, everyone. You made it look easy. The only thing I'd say about the Forum in Salida is it might be nice to wait for warmer weather.
9	3/7/2025 9:43	Excellent	Excellent	Becky Mitchell's Keynote	Excellent		Yes, impressive young people	

		Overall,	1 3	Question 3: What was your favorite and/or least favorite presentation?	4: How would you	Question 5: What did you like and/or dislike about the field trips / tours?	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
100	3/7/2025 9:48	Fair	Fair	Becky Mitchelll was great. Greg Styduhar was great. Robert Sakata is an excellent moderator. Negatives; Too many repeat presenters with the same stories. The history session was not very good. Not very knowledgeable.	Good	Waterworks Park was excellent.	NA	Better breakfast options. Better snack options. Different presenters for breakouts and plenary sessions.

	Date	Overall, how would you rate	Question 2: How would you rate the quality of the sessions and presentations?	was your favorite	4: How	Question 5: What did you like and/or dislike about the field trips / tours?	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
111	3/7/2025 9:51	Good	Good	The augmentation and water law sessions were excellent. The mountain precipitation & water supply outlook was very disappointing. Learning about weather prediction is ok but hearing about our current situation would have been much better. The session on the snowpack in 2023 was significantly better.		The Mirasol movie was fantastic. I recommend showing it again and/or making it available. It could have been improved by adding a discussion panel to address some of the specific issues that our farmers and farm communities are facing in response to the impacts created by municipal growth. Could also be paired with a farm tour. The farm tours in La Junta/Rocky Ford last year were excellent. The dam tour was unfortunately cut short by the weather.	I did not.	For most, recreation would be the focus in the upper basin, but I know there is a significant agricultural presence. I would suggest placing an equal focus on recreation and agriculture in the upper basin and maybe address how what happens in the upper basin impact the lower basin. Please provide a list of attendees. Thanks.

		Overall, how would you rate this year's Water Forum?	would you rate the quality of the sessions and presentations?	favorite presentation?	4: How would you rate the quality of the field trips / tours?	field trips / tours?	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
12	3/7/2025 9:56	Excellent	Excellent	The 1st panel session with lessons learned from different basins. It was one of the best panel sessions I've heard in a long time, with great moderation from Robert, and great synergy between the panelists.		Mirasol film, and the chance to interact with Mike Bartolo.	Yes - I interacted with Will a lot. I was excited to see innovative thought and openness to collaboration and conversation. I think he will be a great researcher in water - and hopefully will stay in CO and work on our pressing issues.	Looking forward to it. This was my first ARBF, and I was touched by the very warm welcome into the forum and willingness to engage from lots of different folks.
13	3/7/2025 10:25	Excellent	Excellent	No comment	Fair	The field trips were quite interesting.	I was impressed with the recipients	No comment, not going.
14	3/7/2025 10:40	Excellent	Good		Good		Yes they asked some good questions.	

Date	Email	Overall, how would you rate	Question 2: How would you rate the quality of the sessions and presentations?	-	-	Question 5: What did you like and/or dislike about the field trips / tours? Please provide additional feedback and suggestions.
20	3/7/2025 13:50	Excellent	Excellent	Becky Mitchell's Keynote	Excellent	I liked the variety. It was hard to choose which ones to attend.	A little. They seem like excellent scholars.	The weather in early March.
211	3/7/2025 14:09	Excellent	Excellent	The panelist on finding other funding partners was insightful		Although I didn't have time to go on a tour, all of them looked very fun/informational and a great opportunity to do something other than sit in a chair listening to sessions.	No	I thought the format worked great with a good balance of sitting in sessions & available tours to attend. It was difficult for me to fully focus on a panel with repeat panelists. Nothing against them personally whatsoever, but always better to hear different perspectives on different topics. The Ark "bench" is deep so always good to hear from others.
22	3/7/2025 14:09	Good	Good	Favorite was Groundwater Augmentation in Ark River Basin Least Favorite was Water Law 101.		Did not take any.	Didn't meet them.	Please remember that there is a Huerfano County Water Conservancy District.
23	3/7/2025 14:10	Excellent	Excellent	Favorite-the conservancy district panel including SECWCD, LAVWCD, UAWCD and PWCD.	Excellent	NA	I did not have an opportunity to connect unfortunately	Continue finding novel and useful conversations in order to foster collaboration and compromise in the Arkansas River water community.

		Overall, how would you rate	would you rate the quality of the	Question 3: What was your favorite and/or least favorite presentation?	4: How would you	did you like and/or dislike about the field trips / tours?	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
24	3/7/2025 14:14	Excellent	Excellent	Water Conservancy District managers panel		Getting outside and casual visiting with fellow attendees.	did not	Jean and steering committee - you have perfected the entire event. Having been an organizer for around 20 years I know of and appreciate all of your various and diverse efforts and talentsyou ole buddy - Jeff O.
25	3/7/2025 14:46	Excellent	Excellent	All of the presentations were great.		I liked the mix of indoor and outdoor field trips to chose from.	No.	Please try to accommodate as many attendees as possible. If attendance needs to be limited due to space constraints, please consider streaming the presentations.
26	3/7/2025 14:51	Good	Good	Best Rebecca Miller really informative	Good	All good, learned alot	n/a	
27			Excellent		Good			
28	3/8/2025 10:51	Excellent	Excellent	Becky Mitchell keynote and the beyond borders panel.	Excellent		no	I love the Salida Forum! Thanks for all you do, Jean, Bob, and the ARBWF Board. 30 years is incredible - and impressive. This Forum continues to be needed more than ever. Appreciate the commitment and vision.

	Date Email	Overall,	Question 2: How would you rate the quality of the sessions and presentations?	Question 3: What was your favorite and/or least favorite presentation?	4: How	Question 5: What did you like and/or dislike about the field trips / tours?	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
29	3/9/2025 10:58	Excellent	Excellent	My least favorite was the weather/climate session - much too technical for this audience, with incomprehensible slides.		Both the Mirasol screening and El Pueblo Tour were well-planned, with presenters who were very personable.		Keep up the great work!
30	3/9/2025 14:35	Excellent	Excellent	Favorite was the keynote by Becky Mitchell. Great job by the committeethe Forum is an excellent conference!			I met Will and liked him.	Minor point but as an exhibitor, I really appreciate being able to have our exhibit where there is a lot of foot traffic. This year, exhibits were in a separate room down the hall where very few visited. I'd suggest putting exhibits in the hall outside the meeting rooms if possible.
333	3/9/2025 19:01	Excellent	Excellent	Liked all of them but appreciated the water conservancy presentation.		Could have been a bit more organized to make sure people understood there was difficulty in getting to site. Example I saw an elderly man trying to climb back up the steep incline from the Arkansas Water Park back up to the parking lot.	I did not.	nothing at this time

		Overall, how would you rate	Question 2: How would you rate the quality of the sessions and presentations?	favorite presentation?	4: How would you	did you like and/or dislike about the field trips / tours?	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
322	3/10/2025 9:42	Excellent	Good	Favorite Keynote Speaker-Judge Styduhar Favorite session- Groundwater Augmentation Least favorite session-National Weather Service		I only did one tour-El Pueblo History Museum and it was great. Very interesting and it did not feel rushed. It was hard to hear everything at times due to size of crowd and the ability to all fit in certain areas. I would recommend this tour again in the future though.	I did not.	The whole conference is timed well with appropriate amount of time for speakers and breaks. However some speakers did not know how much time they had for speaking, and said so. I think that would be an improvement that could be mademaking sure speakers know well in advance how much time they should aim for, for speaking. Making sure to keep things on track and on time is good and leaves listeners more interested/engaged. Another improvement could be providing directions parking locations. Thank you! Overall everything is put together pretty well.
33	3/10/2025 14:12	Good	Good	Favorite was Judge Styduhar's presentation.		I liked the variety of options. The only thing I didn't like was the wind on the second day, but that is out of our control.	No I did not.	

		Overall,	-	Question 3: What was your favorite and/or least favorite presentation?	4: How	did you like and/or	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
3	3/10/2025 14:34	Good	Good	Favorite: Augmentation with Steve Witte	Good		Yes, they were nice. Seemed a little overwhelmed.	I think a presentation on Article 80 of the statutes would be good. It is on the section on "Responsibility of User or Owner". Also, if there is a session on water court, we should have someone talk about "watershed cases" that started in Division 2 and ended up changing the law after a supreme court ruling. Like Empire Lodge, which is an upper basin case. Steve could talk about what happened in that case to result in the ruling.
3	3/10/2025 14:40	Excellent	Excellent	I enjoyed learning about the different conservancy districts during the panel	Good	Boat ride was fun but very short. Would have been nice to have an interpretive walk added to the riverwalk activity		Psyched to have this in my town next year. Be aware that Agri-summit is an annual event here that shares the same dates and uses many of the same event space.
3	3/10/2025 14:45	Excellent	Excellent	Honestly, the presentations but also the general discussions in the hall or conference room.		I only watched Mirasol, no field trips for me this year.	Yes, I actually spoke with Osvaldo qutie a few times. I did not connect with the other recipient.	

	Date Email	Overall,	_	favorite presentation?	4: How would you	Question 5: What did you like and/or dislike about the field trips / tours?	Question 6: Did you have an opportunity to interact with our 2025 scholarship recipients? If so what was your impression.	Question 7: We're headed to Salida in 2026; What should we keep in mind? Please provide additional feedback and suggestions.
37	3/11/2025 8:12	Good		Loved the NWS presentation on Mountain Weather/Outlook. I thought it would have been nice on the first day to have the Water Law 101 presentation before the panel about Water Rights Augmentation, there was not much of an introduction/cont ext provided to this panel.	Good	Loved the CPW Fish Hatchery tour!		
38	3/12/2025 8:37	Excellent	Excellent	I liked the Arkansas River Roundtable Session on Wednesday best	Excellent			
39	3/12/2025 9:47	Excellent	Excellent	Favorite - Becky Least - none	Excellent	Close proximity to conference venue Great weather:)	Yes - they seemed very interested and engaged.	n/a

	Date	Overall, how would you rate	Question 2: How would you rate the quality of the sessions and presentations?	_	4: How would you	Question 5: What did you like and/or dislike about the field trips / tours? If so what was your impression.	mind? Please provide additional feedback and suggestions.
43	3/10/2025 11:25	Good	Good	The Fountain Creek dashboard by the "Lisas"		I wasn't able to take a tour this year, my choice given other work priorities	yes, they seemed to be very knowledgeable and good selections for the scholarships. I hope to be able to work with Will with his project and look forward to his findings.	I would like to see the panel discussions changed up: (1) moderator provide a brief summary/overview, (2) each panel member introduce themselves & a specific point on the topic (briefly), (3) if needed, specific question to a panel member to get the discussion started, (4) audience questions, (5) if no audience questions, then another specific question to a panel member, repeat (4) and (5) as needed. For the session I attended, with each panel member answering the same question, it brought the energy down and seem repetitive. The moderator should be knowledgeable of the issues important to each panel member and be able to ask question to build on previous questions and answers. Separately, time management was an issue: generally presenters seemed unaware of the time that they had, moderators were not able to cut presenters off, as a result
44	3/10/2025 11:26	Good	Good	Repetative law information	Good			How the levels and types of snow on the mountains vary and dust is a contributing factor differtn snow melts. Forest health
46	3/10/2025 12:08	Excellent	Good		Good			

		Overall,	•	favorite presentation?	4: How	Question 5: What did you like and/or dislike about the field trips / tours? Please provide additional feedback and suggestions.
47	3/10/2025 13:12	Good	Good	Favorite: History CO When the Water Flowed Freely Least: Plenary Session: A Shared Responsibility		All were highly attended and interesting. Lots of variety in Pueblo!	Osvaldo Garcilazo was articulate and friendly, but didn't have much to say about his future goals	Make sure that the exhibit tables (8- 10?) have prominent space for interaction with attendees, in a hallway or atrium. Have MCs mention them and their location each day. Tables in Pueblo were in a separate room and had no signage drawing people in. Many attendees did not know they were there. Maybe move one afternoon cookie/snack break to the exhibit area?
48	3/10/2025 13:36	Excellent	Good	Report by Becky Mitchell		N/A	no

4	3/10/2025 13:47	Excellent	Excellent	Panel discussion	Excellent		I did not.	I would ask the organizers to target
				about				innovative projects happening at the
				augmentation.				present time for the tours, and I
								would ask the organizers not to avoid
								controversy around water issues in
								the basin with the panel discussions.
								There are hard conversations that
								need to be had, and should be had
								publicly, and they never seem to be. I
								think it's high time different water
								stakeholders actually speak plainly
								with one another in an open setting,
								because even if someone gets mad,
								we might actually begin to move
								towards dealing with the real 800-lb
								gorilla in the room, which is that this
								state can't continue to grow the way
								it is, and an alternate model for our
								economy must be developed.

	Date	Email	Overall,	would you rate the quality of the sessions and	Question 3: What was your favorite and/or least favorite presentation?	Question 4: How would you rate the quality of the field trips / tours?	Question 5: What did you like and/or dislike about the field trips / tours? Please provide additional feedback and suggestions.
50	3/10/2025 13:53		Excellent	Good	Favorites First Plenary Session: Beyond Borders and the concurrent session Ground water augmentation. Least favorite was the Water Law 101. That was because the topic was not 101. A handout with references would have made that session more understandable.	Excellent		No	I would like for the sessions to include more visual material or power point slides. Also a session as follow up to the Ark River Channel Morphology meeting would be good.
51	3/10/2025 22:55		Fair	Fair	I only attended the evening meeting the first day.				
52			Excellent	Excellent	There was not a bad presentation that I attended.	Excellent	I like both field trips that I attended.	Did not have an opportunity.	I'm in fear that we are running out of space in Salida and would hate to see us loss ground on the great attendance that we have had these last four or five years.
