Re: Request for Administration of Instream Flow Water Right on the Eagle River

Date: September 20, 2023

Dear James:

On behalf of the Colorado Water Conservation Board, I am requesting administration of Board's instream flow water right on the following segment of the Eagle River in Water District 37 to preserve the natural environment to a reasonable degree:

Case No.	Upper Terminus	Lower Terminus	Amount (cfs)	Appropriation Date	WDID
78W3811	Confl. Resolution Cr.	Confl. Homestake Cr.	7 (10/1 - 4/30) 15 (5/1 - 9/30)	05/12/1978	3702034

The EAGLE CREEK AT RED CLIFF, CO gage indicates flow rates are below the minimum for the decreed water right listed above. The Board is requesting administration to ensure that water up to the full decreed amount of this water right may made available based on the priority system. The effective date of this call is September 20, 2023 and if required the call is to be in effect until the end of the current irrigation year.

Signed:

Pete Conovitz
